BERNARD C. "JACK" YOUNG
MAYOR

*100 Holliday Street, Room 250
Baltimore, Maryland 21202*

Dear Taxpayer,

The Fiscal 2020 budget represents another major step in moving Baltimore forward. Building the best budget for Baltimore is a delicate balancing act - between providing critical services that citizens deserve, while maintaining fiscal discipline and encouraging greater investment. The budget delivers on all fronts.

This budget maintains core City services; concludes a three-year commitment to City Schools; achieves a significant milestone in the City's property tax reduction efforts; and continues investments in Baltimore's Priority Outcomes. The budget includes new funding to support Saturday hours at all City recreation centers, an ambitious Community Development Plan, and the City's Information Technology (IT) modernization plan. The Fiscal 2020 budget totals \$3.55 billion across all funding sources, including \$2.9 billion for operating expenses and \$627.5 million for capital investment. The General Fund budget totals \$1.9 billion, a 3.2% increase from Fiscal 2019.

The Finance Departments' General Fund forecast anticipates revenues increasing at a faster rate than spending, resulting in a \$33.1 million surplus. Decisions on how to invest these funds were guided by three principles: prioritize new spending on high-value programs, offset new costs with recurring savings, and target remaining funds towards capital investments. These investments include,

- A new asset management system to inventory the condition of City assets, which will lead to better forecasting and prioritization of Capital spending;
- Technology and equipment to modernize Police IT systems and ensure compliance with the consent decree;
- And beginning implementation of the Enterprise Resource Planning (ERP) project, which will connect key Finance, Payroll, and Human Resources systems to improve accessibility and efficiency.

Despite the City's fiscal progress in recent years, Baltimore is still in a tenuous position. We are an older city with high service demands, unmet infrastructure needs, and a lower taxable base relative to other Maryland counties. The City faces unique fiscal risks, as well as the increasing potential for a broader economic downturn. Given these needs and risks, we have struck the right balance in the Fiscal 2020 budget by continually investing in services that our citizens deserve, while remaining faithful to Baltimore's tradition of sound financial management.

Thank you,

Bernard C. "Jack" Young, Mayor

Intentionally Left Blank

The City of Baltimore

Community Guide to the Budget – Fiscal 2020

What are we investing in for Fiscal 2020?

Education and Youth Engagement

- Pledges \$99.2 million above the Fiscal 2017 baseline to City Schools during the three-year period from Fiscal 2018 to 2020, while the State considers changes to the funding formula. Fiscal 2020 marks the final installment of the City's three-year commitment.
- Invests \$2.6 million in the Department of Recreation and Parks to open all 43 recreation centers across the City on Saturdays.

Economic Development & Jobs

- Funds two new contractual investigators for the Office of Civil Rights' Wage Investigation and Enforcement program. The investigators are responsible for enforcing the minimum, living, and prevailing wage laws, with fines issued to employers who are non-compliant.
- Enhances Baltimore's reputation as a travel destination with \$32.2 million for Visit Baltimore and the Convention Center. In Calendar Year 2019, Visit Baltimore expects 26.5 million visitors and the Convention Center plans to host 500,000 visitors from 136 events, including conventions, trade shows, and other public events.

Public Safety

- Reflects the City's new contract with the Fraternal Order of Police (FOP), which institutes a new patrol schedule to more effectively deploy officers across shifts and reduce the need for overtime, for an estimated \$5 million in savings.
- Funds a new Expungement Unit that will handle petitions to remove criminal records from public databases, which the State's Attorney's Office has seen increase to an average of 500 petitions per week since a 2017 State law expanded the list of crimes eligible for expungement.

Quality of Life

- Supports the new Community Catalyst Grants, which provides \$5 million in funding for operating costs and capital projects for revitalization efforts by community-based organizations.
- Dedicates \$250,000 of new funding for The Healthy Food Fund, which will increase access to healthy food by improving the quality of corner stores, increasing fruit and vegetable intake of residents using federal nutrition assistance benefits at farmers' markets, and increasing accessibility to supermarkets through a ride share program.

Accountability & Transparency

- Invests \$15.7 million in capital funds to support the City's Information and Technology (IT) modernization, which includes replacing aging infrastructure, expanding and creating new City IT capabilities, and beginning implementation of the Enterprise Resource Planning (ERP) project.
- Allocates \$255,000 to support a building automation system, which will allow the Department of General Services to control and monitor heating, ventilation, and air conditioning within facilities.

"Let's go out and build a city."

Mayor Bernard C. "Jack" Young

Baltimore has committed \$37.3 million in funding for one-time infrastructure and Information-Technology Projects.

- **\$5 million for demolition**
- **\$4.2 million for Public Markets**
- **\$5.6 million for City infrastructure improvements (e.g., road paving)**

- **\$9.8 million for IT-related issues to satisfy the Police consent decree**
- **\$6 million for BCIT's Enterprise Resource Planning program**

BALTIMORE CITY **RECREATION & PARKS**

- **\$2.6 million for weekend hours at Recreation Centers**
- **\$3.6 million for Recreation Center and Park improvements**

Baltimore has committed to maintain projects in Fiscal 2020 that were funded in Fiscal 2019.

Roca

Continued funding of \$1 million for the Roca Program, a mentorship and job readiness program that connects young people with histories of incarceration, drug use, and limited educational attainment. Outreach workers establish wrap-around relationships with participants over a four-year intervention period.

Safe Streets

Fiscal 2020 continues funding of the Safe Streets program at \$1.9 million from the General Fund, supporting the expansion of sites to a total of 10 across the City. Safe Streets adapts Chicago's Ceasefire Program, targeting high-risk youth and mobilizing entire neighborhoods to support nonviolence.

Homeless Services

The City maintained a \$2.4 million increase from the Fiscal 2019 budget for homelessness services to create the Homeless Outreach Team and provide homeless prevention services, supportive services, and temporary and permanent housing to residents experiencing homelessness.

Department of Public Works

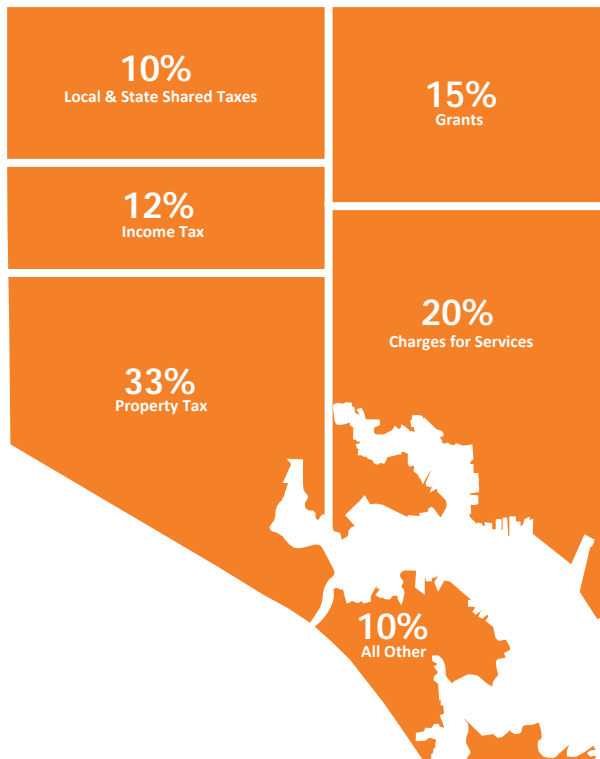

This budget maintains the \$1 million in additional funds that the Department of Public Works (DPW) received in Fiscal 2019 to prioritize service requests in the seven violence reduction initiative zones. These efforts focused on solid waste services and mowing and cleaning of vacant and abandoned properties.

What does it cost to run the City?

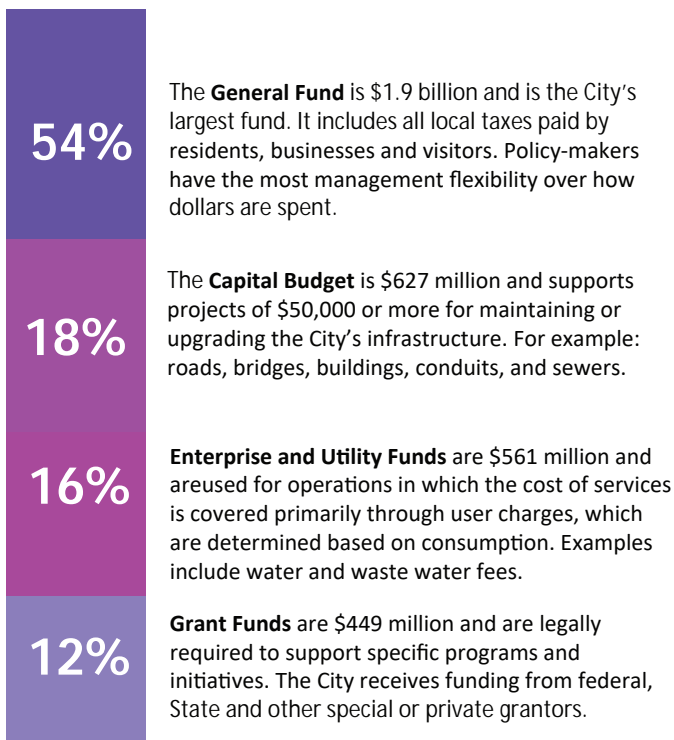

The City's Fiscal Year begins on July 1st and ends on June 30th. Baltimore's budget is required by law to be balanced each year.

Where does the money come from?

Operating Budget Revenue (\$3 billion)

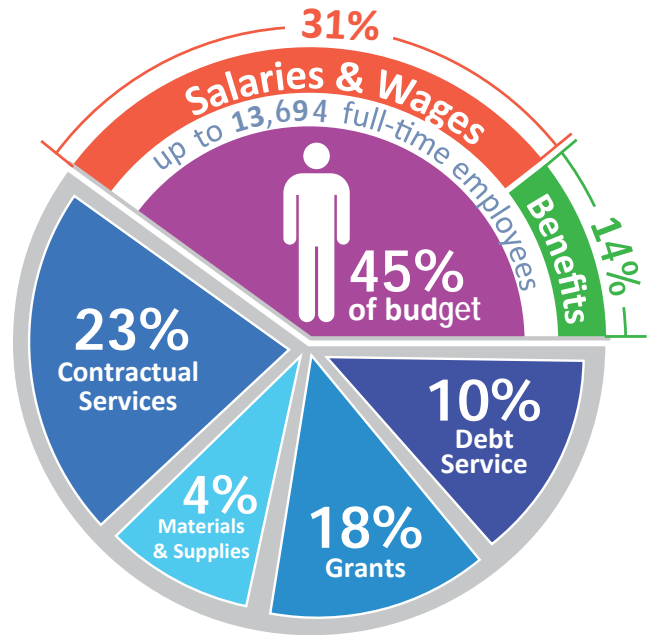

What funds does the City manage?

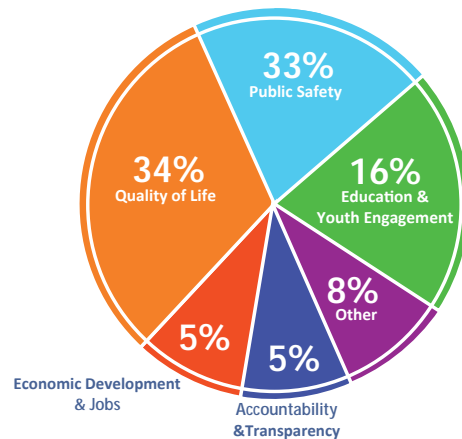

How is the money spent?

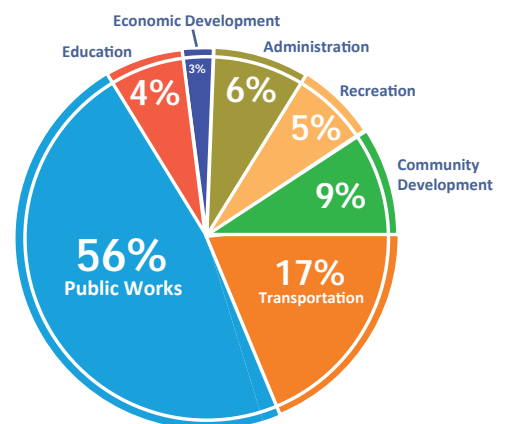

Operating by type of expense (\$2.9 billion)

Operating by Outcome (\$2.9 billion)

Capital (\$627 million)

What did we accomplish in Fiscal 2019?

Education and Youth Engagement

- Contributed \$35.3 million as part of the City's three-year, \$99.2 million commitment to City Schools.
- Provided 156 Baltimore City Public Schools graduates with scholarships to Baltimore City Community College through the Mayor's Scholars Program.

Public Safety

- Launched the Mobile Integrated Health/Community Paramedicine program to target high utilizers of Baltimore's 911 system to triage/divert non-emergency clients to appropriate, non-ER healthcare facilities in partnership with University of Maryland Medical Center which provided \$1.1 million in State grant funding.
- Adopted a 911 Call Taker Salary study that provided salary raises for all 911 Operators, 911 Lead Operators, and 911 Operator Supervisors.
- Launched a new grant program through the Mayor's Office of Criminal Justice that awarded \$300,000 to community organizations to provide support services for victims of human trafficking.

Economic Development & Jobs

- Invested \$8.4 million in arts and culture institutions, including the Maryland Zoo, Baltimore Museum of Art, Walters Art Gallery, and Baltimore Symphony Orchestra. In Fiscal 2018, a total of 1.1 million people visited these institutions.
- Secured \$250,000 of state workforce funds to start an Emergency Medical Technician training program. This program puts adults that need assistance with literacy and numeracy skills on a path to a good career.

Quality of Life

- Deployed rapid-response services to seven designated areas throughout the City as part of the Violence Reduction Initiative (VRI), supported by \$1.6 million of additional funding for Public Works crews, Housing Inspectors, and expanded hours at 9 VRI at recreation centers during the evenings and weekends.
- Supported implementation of speed, red light, and truck height monitoring cameras, which are expected to limit accidents and improve both driver and pedestrian safety. There are now a total of 100 speed and 100 red light cameras across the city.

Accountability & Transparency

- Supported \$4 million worth of upgrades to information technology infrastructure as part of the first phase of the City's Digital Transformation Plan, a strategy for reducing redundant costs and improving the public's experience with City government.
- Created an in-house worker's compensation litigation group in the Law Department, to provide advice on handling claims and arguing cases on behalf of the City before a state commission.

Want to Connect?

Bernard C. Jack Young

Baltimore's Ten-Year Plan

The Ten-Year Plan outlines policies and programs that both invest in Baltimore's growth, and address long-term challenges in four areas:

- Structural budget balance
- Tax competitiveness
- Infrastructure investment
- Long-term liabilities

The baseline deficit through 2022 has been reduced from \$745M to \$31M (95.9%)

Since 2013, Baltimore has implemented initiatives that help in achieving long-term fiscal sustainability

Decreased Effective Property Tax Rate

Reduced Long-Term Liabilities

Increased Capital Investment

Streamlined the Workforce

A refresh the Ten-Year Plan is currently under way, which will include:

- Evaluation of existing and new initiatives
- Evaluation of current and new tax expenditures

FISCAL 2020

SUMMARY OF THE ADOPTED BUDGET

Introduction

Intentionally Left Blank

Fiscal 2020 Budget Overview

The Fiscal 2020 Board of Estimates Budget recommendation represents another major step in our vision for moving Baltimore forward. Building the best budget for Baltimore is a delicate balancing act - between providing critical services that citizens deserve, while maintaining fiscal discipline and encouraging greater investment. The Fiscal 2020 budget delivers on all fronts.

The Fiscal 2020 recommended budget plan includes new funding for an ambitious Community Development Plan, as well as funding to begin delivery of the City's Information Technology (IT) modernization plan. Under Public Safety, the Police budget includes investments in technology and equipment, the professionalization of critical administrative functions, and savings from a more efficient Patrol schedule. These key changes are the first steps to modernizing the Police Department and ensuring compliance with the federal consent decree.

In addition to new investments, the recommended plan maintains core City services, concludes a three-year commitment to City Schools, and achieves a significant milestone in the City's property tax reduction efforts. This year the City will meet its 20 cents by 2020 goal. This reduces the effective property tax rate for owner-occupied properties by 8.9% versus 2012, saving the average taxpayer over \$300 annually.

The Fiscal 2020 recommended budget totals \$3.55 billion across all funding sources, including \$2.9 billion for operating expenses and \$627.5 million for capital investment. The General Fund budget totals \$1.9 billion, a 3.2% increase from the Fiscal 2019 Adopted Budget.

Budget Context

The City's short-term fiscal outlook continues to improve. A number of indicators strengthen the City's fiscal outlook, including: a lengthy economic recovery, rising real and personal property assessments, growing income tax receipts, and successful cost containment strategies on health care and civilian pension costs.

With this context, in August 2018 the Department of Finance began development of its Current Level of Services (CLS) projection for Fiscal 2020. The forecast looked at projected General Fund revenues for the upcoming fiscal year and compared them to the projected cost to maintain current service levels. Revenues were projected to grow by 3.8% versus operating expenditure growth of 2.8%.

The net effect of these adjustments is a \$33.1 million surplus, beyond what was needed to maintain current service levels. The development of the Fiscal 2020 budget was guided by three principles: prioritize any new spending on high-value programs, offset new costs with recurring savings, and target remaining funds towards capital or one-time investments.

Budget Plan

The Fiscal 2020 recommended budget plan was built around Baltimore's Five Priority Outcomes: Education and Youth Engagement, Public Safety, Quality of Life, Economic Development and Jobs, and Accountability and Transparency. Detailed descriptions of how the Budget Plan aligns with each of these Priority Outcomes begins on page xx. A preview for each Priority Outcome is summarized below:

Education and Youth Engagement

The *recommended budget plan* includes \$445.7 million across all funding sources. Key highlights include:

- Fiscal 2020 marks the final installment of a three-year bridge funding commitment to help stabilize City School's finances. The City has pledged \$99.2 million above the Fiscal 2017 baseline over the three-year period (Fiscal 2018 to Fiscal 2020). The final contribution in Fiscal 2020 is \$38.5 million above the Fiscal 2017 baseline.
- Total City support for City Schools exceeds \$375.6 million. City funding supports Maintenance of Effort payments, the 21st Century School Modernization fund, teacher pension costs, retiree health benefits, school health, and crossing guard services.
- Fiscal 2020 will mark the third year of Charter-required contributions to the Children and Youth Fund. The Fiscal 2020 contribution is \$13.0 million.

Public Safety

The [recommended budget plan](#) includes \$952.7 million across all funding sources. Key highlights include:

- The Police Department budget reflects the City's new contract with the Fraternal Order of Police (FOP). It includes a 3% officer pay increase, a new Patrol schedule, and a \$1,000 annual pay premium for officers assigned to Patrol. The new Patrol schedule provides more consistent coverage with less reliance on overtime, which will both reduce City costs and improve officer safety and well-being.
- The Police Department budget includes \$11.8 million of new Information Technology funding to modernize the Police Department's IT systems, which is a key component of consent decree compliance. The funding covers the development of new systems for Records Management, Use of Force, and Early Intervention, among others.
- The Police Department will complete the first phase of a professionalization plan, swapping out 62 sworn positions for 62 civilian positions in functions such as Human Resources, Finance, Asset Management, Crime Lab, and Evidence Control, among others. This effort will redirect sworn officers to critical policing work while improving the quality of administrative and support functions.
- The Fire Department budget reflects the second year of a \$668,200 community paramedicine partnership with the University of Maryland Medical System. This program pairs nurses with EMS units to divert high-need patients to appropriate care.
- The Department of Transportation will continue towards its goal of a network of 100 speed and 100 red light cameras. This is expected to reduce accidents and improve pedestrian, bicyclist, and driver safety.

Quality of Life

The [recommended budget plan](#) includes \$1.09 billion across all funding sources and funds projects across a variety of services that improve citizens' overall quality of life such as street and alley cleaning, waste disposal and recycling, business district cleaning, health and housing services, demolition of vacant housing, recreational opportunities, transportation, and infrastructure investment. Key highlights include:

- New funding will support the Department of Housing and Community Development's Community Development Framework, which will serve as a comprehensive strategy and guide for addressing a variety of neighborhood conditions in Baltimore. An estimated \$15 million will go to the Affordable Housing Trust Fund to support families who earn less than half of the area median income. \$5 million will support the Community Catalyst Grants, which provide both operating and capital support for community-driven revitalization efforts.
- The budget includes \$9.6 million for landfill development, to prepare the City for an eventual expansion of the Quarantine Road site, as the landfill is nearing the end of its useful life.

Economic Development and Jobs

The [recommended budget plan](#) totals \$149.5 million across all funding sources in support of strategies to increase jobs, employment, and visitors to Baltimore in Fiscal 2020. Key highlights include:

- The budget includes \$32.2 million for Visit Baltimore and the Convention Center, to enhance Baltimore's reputation as a travel destination. The Convention Center expects over 500,000 attendees from 136 scheduled events in Fiscal 2020. The Maryland Stadium Authority has begun the second phase of a study of options for expanding and/or renovating the Convention Center.
- The budget includes \$30 million for workforce development initiatives targeted for Baltimore City residents. This includes a network of centers to provide residents with assistance in job searching, career counseling, and skills training.
- The budget adds \$500,000 of new funding for the Baltimore Office of Promotion and Arts (BOPA) to promote and enhance visitors' experience for the Preakness, one of Baltimore's marquee events. The new funds will also be used to brand the City as an arts and culture destination.

Accountability and Transparency

The [recommended budget plan](#) includes \$193.3 million across all funding sources for financial, legal, information technology, human resources, and other functions that support the delivery of public services to residents. Highly effective support services lead to cost savings and better performance. Key highlights include:

- Baltimore City Information Technology (BCIT) will begin work on an Enterprise Resource Planning (ERP) system which will introduce City-wide efficiencies in key Finance, Payroll, and Human Resources systems.
- The Department of Planning will invest in a new Asset Management system to inventory the condition of City assets, which will lead to better forecasting and prioritization of Capital spending.
- The Department of General Services will invest in a building automation system, placing sensors and meters at key locations in City buildings to better monitor heating, ventilation, and air conditioning (HVAC) systems. This will ultimately lead to more timely work order completion and lower maintenance and energy costs.
- The Mayor's Innovation Team will add three data analysts with a focus on streamlining and automating redundant City processes, which will save time and return more focus to core agency missions.

Fiscal Outlook

Despite the City's fiscal progress in recent years, Baltimore is still in a tenuous position. We are an older city with high service demands, unmet infrastructure needs, and a lower taxable base relative to other Maryland counties. The City faces unique fiscal risks; these give us pause and dictate a cautious approach:

Schools: The City's three-year bridge funding commitment to City Schools expires at the end of Fiscal 2020. Concurrently, the Kirwan Commission has been examining statewide education policy and funding formulas. The City expects school funding issues to be revisited in the 2020 General Assembly session which could affect the City's Fiscal 2021 budget. Local jurisdictions will likely be required to share the cost of new funding proposals.

Convention Center: The City's Convention Center was constructed in 1979. It was last expanded and renovated in 1997. The Maryland Stadium Authority is studying options for the Convention Center; a final report is expected in 2019. Any renovation or expansion costs will be borne by both the State and the City.

Fire and Police pension: The unions' challenge to the 2010 Fire and Police pension reform continues. The trial in State Court is complete and the City expects a ruling shortly. If the unions prevail, the City could owe retroactive payments and will face an increase in annual pension contributions unless curative legislation is passed.

Solid Waste disposal: The Clean Air Act, passed in February 2019, requires stricter emissions standards on incinerators and could ultimately lead to the closure of the Baltimore Refuse Energy Systems Company (BRESKO) facility. The BRESKO incinerator is a critical part of the City's solid waste disposal system, and its loss could lead to higher solid waste disposal costs.

Hovering over these unique City risks is the increasing potential for a broader economic downturn. The national economy is now in its tenth year of recovery since the Great Recession, and this decade-long expansion will soon be the longest recovery period of the post-World War II era. Even a mild economic downturn can put significant pressure on City revenues. Critical City revenue sources such as property tax, income tax, and transfer and recordation taxes, among many others, are highly sensitive to changes in economic conditions and to the real estate market in particular.

Given these risks, I think we have struck the right balance in the Fiscal 2020 recommended budget. We are continually investing in services that our citizens deserve, while remaining faithful to Baltimore's tradition of sound financial management. I ask for your support for the Board of Estimates Budget recommendations.

Baltimore City was founded on July 30, 1729. Incorporated in 1797, Baltimore City became independent from Baltimore County in 1851. Geographically, the City is well positioned between Washington, D.C. and New York City along the Interstate 95 corridor. Baltimore-Washington International Thurgood Marshall Airport, Amtrak and MARC train service and Light and Metro Rail ease the transportation of people and freight. According to 2012 U.S. Census data, Baltimore's port ranks 10th nationally for the total dollar value of cargo, up from 11th in 2010.

Baltimore City has a total area of 92.1 square miles (238.5 sq. km) and 12.3% is water. According to the 2016 Census test, Baltimore City had an estimated population of 614,664 and a population density of 7,672 people per square mile (according to official 2010 census data).

Baltimore City has an inventory of approximately 8,500 downtown hotel rooms. The Baltimore City Convention Center has 300,000 square feet of exhibit halls, 85,000 square feet of meeting rooms, and a 36,000 square foot ballroom. The professional baseball team the Baltimore Orioles, the professional football team the Baltimore Ravens, and the professional indoor soccer team the Baltimore Blast call Baltimore City home.

MUNICIPAL ORGANIZATION CHART

*The Baltimore Police Department was created by an act of State legislature. The Mayor has the statutory right to hire and replace the Police Commissioner.

Intentionally Left Blank

FISCAL 2020

SUMMARY OF THE ADOPTED BUDGET

Budgetary Environment

Intentionally Left Blank

Economic Outlook

The Economic Outlook for the City's Fiscal 2020 Budget remains positive with most of the City's key economic indicators showing strong performance during Calendar 2018 and the beginning of 2019. The US is currently enjoying the second longest period of economic recovery since World War II, which as of April 2019 included 118 consecutive months of economic growth, only three months from becoming the longest period of economic expansion in US history.

Key indicators suggest that the City remains in a healthy economic environment:

- **Wages:** The City's average wages grew 1.8% year over year during the first three quarters of 2018. This increase outpaced 2018 inflation of 1.3%, representing an annual increase in average wages of 0.5% in real terms.
- **Unemployment:** During the fourth quarter of 2018, the City reached an unemployment rate of 5.1%, the lowest since the fourth quarter of 2007.
- **Labor Force:** The City's labor force has increased by 9,377 or 3.3% since the end of the recession, incorporating approximately 960 City residents to the job market per year. Employed City residents have grown 9.7% over the same period, with an absorption of approximately 2,571 individuals per year.
- **Sale and Use:** The City's economic activity as measured by the value and amount of sales generated in the City remains strong. The City places as the fifth largest county in Maryland for the State Sale and Use tax, increasing 0.3% or \$16.8 million in taxable sales between 2017 and 2018.
- **Income Tax Base:** Even though the City's household size has declined from 2.53 individuals in 2010 to 2.44 in 2017, the average household income has grown 28.6% from \$54,165 in 2010 to \$69,676 in 2017, 15.9% above inflation.

Despite these positive signs, there are still many risks at the local and national level that require close attention when making future policy decisions:

- **Population:** The Census Bureau has just released its 2018 population estimate for the City showing a decline of 7,346 residents from the 2017 estimate, the largest single year decline since 2001. This is in addition to the more than 3,000 reduction between 2016 and 2017. The City's population has declined more than 18,400 from the 2010 Census.
- **Residential Housing Market:** Real estate data suggest that the City's housing market may have peaked in 2017 and slowed down during 2018. The average sale price of residential property in 2018 was \$173,413, 0.3% lower than 2017, while the total number of residential sales decreased by more than 600 transactions, equivalent to a 6.7% reduction from 2017. Despite these declines, the 2018 number of residential sales transactions was the second highest since 2007, and the average sale value was the second highest since 2009.
- **Federal Tax Cut and Job Act (TCJA):** Although State and local income tax receipts could grow due to the new Federal tax reform, the uncertainty of the impact on individual filers could lead to more cautious spending decisions. Due to the uncertainty, the Maryland's Bureau of Revenue Estimates recently downgraded its estimate for the State's Fiscal 2019 projection and Fiscal 2020 Budget.
- **Changes in Transportation and Commuting Preferences:** The increase in transportation alternatives in the City has begun to lower parking-related revenues. The growing usage of rideshare alternatives such as transportation network company, include Uber and Lyft, and dockless vehicles, has reduced the use of parking facilities and metered parking, which in turn reduced revenues from these sources.
- **Expansion of the City's Convention Center:** The Maryland Stadium Authority is currently studying the expansion of the outdated Baltimore Convention Center. During the construction phase, the City could see reduced revenues from Convention Center events and hotel taxes.
- **Recession:** The economy now has enjoyed almost 10 years of expansion, increasing the probability of a recession in the near future.

The next section will go into greater analysis on one area of strength for the City (Income Tax Base), and on one area of potential risk (Residential Housing.)

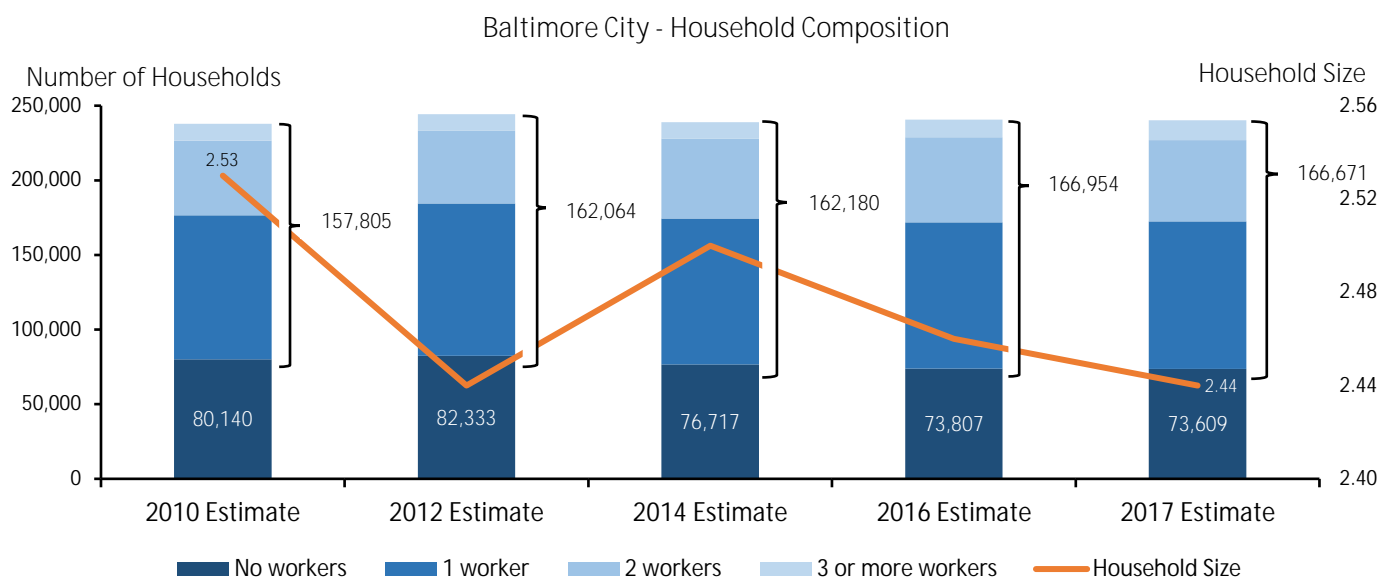

Income Tax Base

Although the City has lost population, currently there has been a trend towards smaller-sized average households with higher net income. Two data sets show this change: the Census Bureau's American Community Survey (ACS), and the state of Maryland Revenue Administration Division's annual Income Tax Summary Report.

Household Composition

Despite a decline in population, the City has benefitted from an inflow of higher income new residents, and this population loss has not affected yet the City's income tax base. Overall, more household members are in the workforce while households have become wealthier.

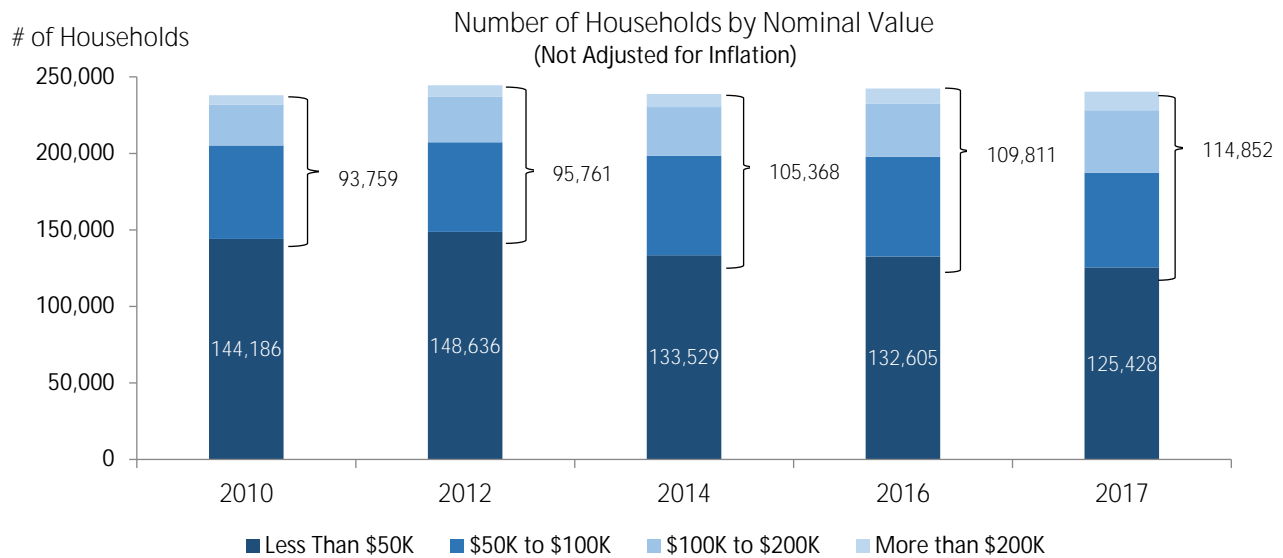

The following table shows changes in the working status of the City's household composition.

Data from the Census Bureau's American Community Survey show that between 2010 and 2017 the City gained more than 2,300 households or 1.0%, reaching 240,280 resident families. The composition of this gain was the result of the 8,866 increase in families with working members and the 6,531 reduction of non-working households. Among other results, the data shows that while 1-person working households increased by 8,384 counts during this period, 4-or-more person households with one or two workers declined by 6,192.

In 2010, the total number of households in the City was 237,945, of which 144,186 or 60.6% was composed of households earning less than \$50,000. In 2017, 47.8% or 114,852 is composed of households earning more than \$50,000, an increase of almost 21,100 or 22.5%, while those earning less than \$50,000 decreased by 18,758 or 13.0%. Most of the growth in higher income households was from those earning between \$100,000 and \$200,000, which increased from 26,742 in 2010 to 40,948 in 2017, a net growth of 14,206 or 53.1%.

The following chart compares data for recent years of the ACS, reflecting the continued positive change in the number of households at different earning levels, and positive changes in the City's income demographic characteristics:

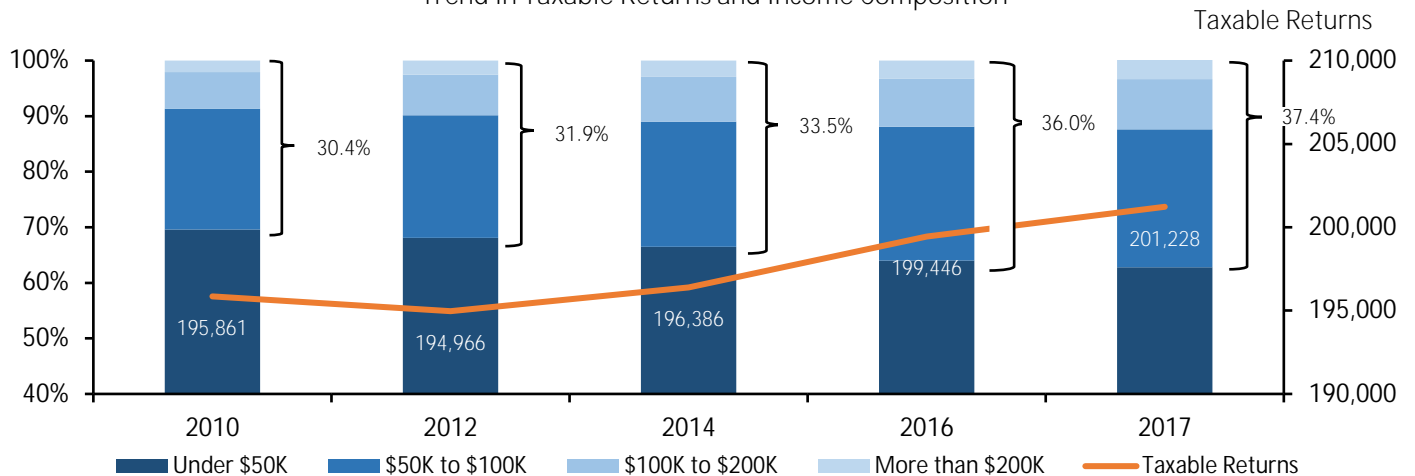

Data from the Census Bureau also show that the number of families living in owner-occupied properties increased by 4,657 or 4.3% between 2010 and 2017. The largest increase was experienced in households with one or two family members (8,321 or 12.1% increase), while the largest decrease occurred in households with three or more members (is more than 3,664 or 9.0% decrease).

Taxable Returns and Income

The annual Income Tax Summary Report, produced by the Maryland Revenue Administration Division has mirrored the data from the ACS. In 2017, there were 201,228 taxable returns filed in Baltimore City. This represents an increase of 1,782, or 0.9%, returns filed from calendar 2016. Compared to 2010, the total number of tax returns filed has increased by 5,367 or 2.7%, even as population declined by more than 9,300 over the same period.

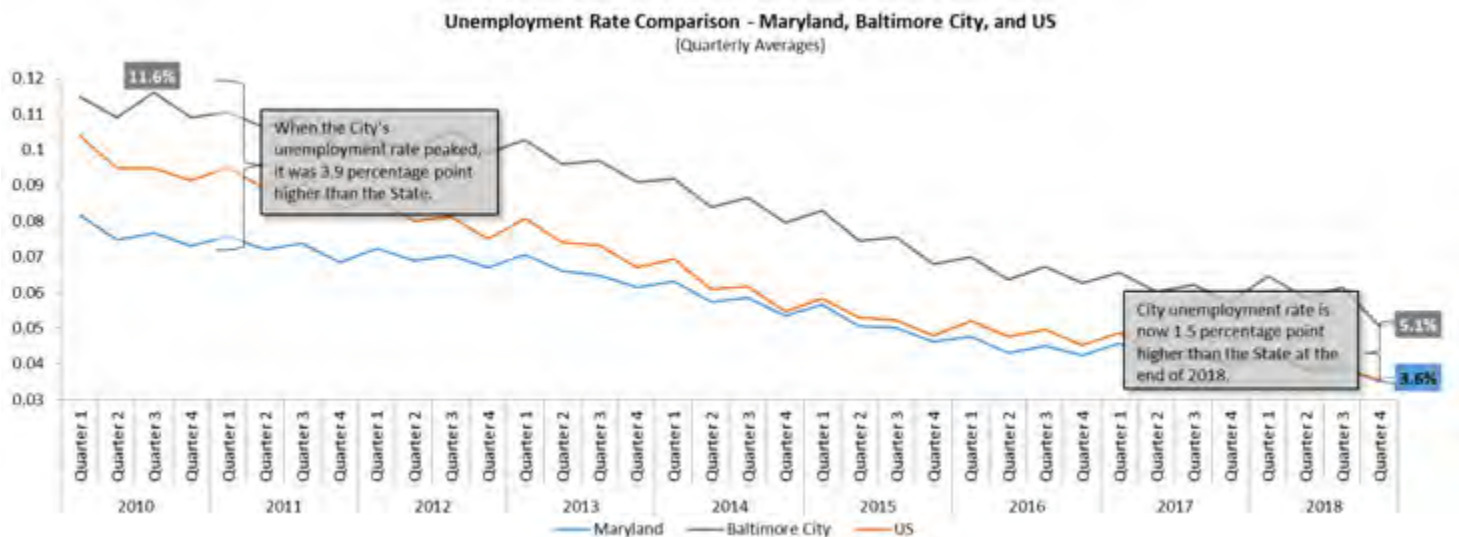

During tax year 2010, there were a total of 195,861 tax returns filed. Out of this total, 30.4% or 59,527 returns corresponded to individuals whose taxable income was higher than \$50,000. In 2017, the number of filers above this income level increased to 76,268 or 37.4% of the 201,228 returns filed. Compared to 2016, this represents a net increase of more than 2,100 higher income filers. Between 2010 and 2017, the City experienced a reduction in the number of filers with income lower than \$50,000 by 10,020, but increased the number of those earning more than this income level by 15,741, representing a net gain of more than 5,700 higher income residents during a period of population decline. The following table shows the trend in taxable returns and income composition from tax year 2010 through 2017.

Trend in Taxable Returns and Income Composition

Labor Market

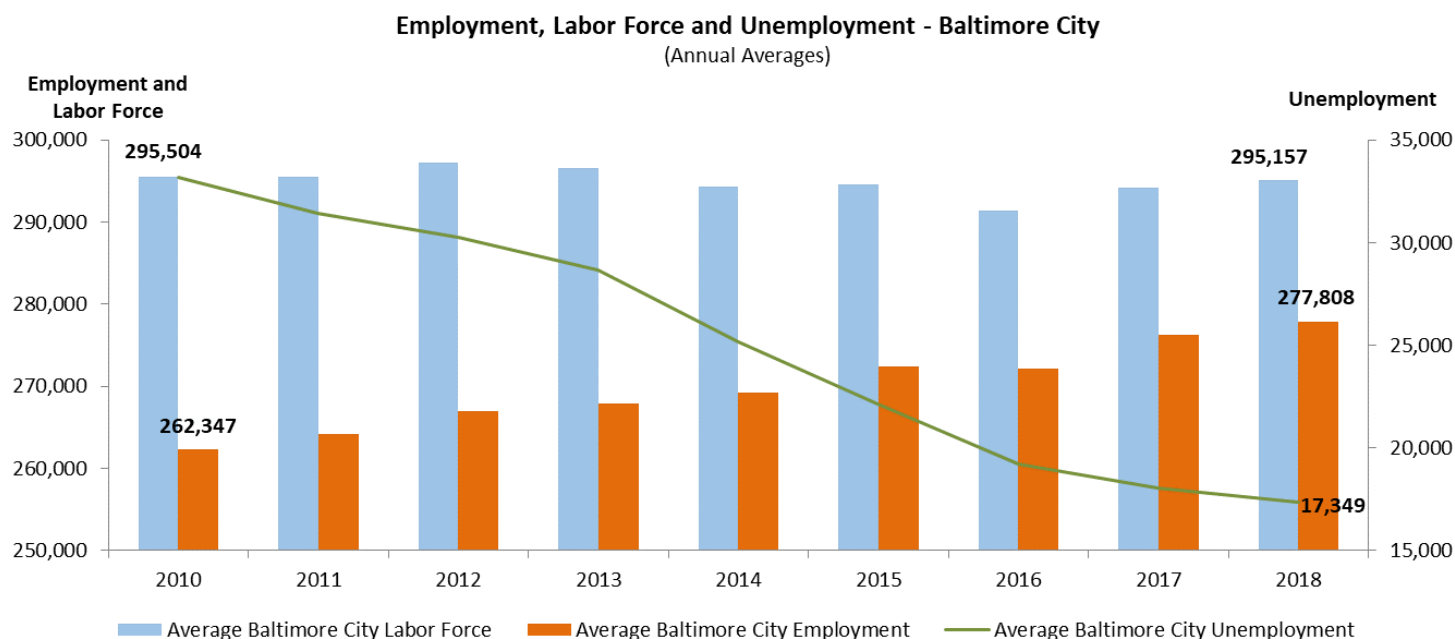

The increase in City jobs, employment and local net absorption support the theory of improvements in the City's household income composition despite population declines. The following chart shows the quarterly unemployment rate comparison between the state of Maryland, Baltimore City, and the U.S.

Historically, Maryland's labor market indicators have out-performed the nation's, displaying an average unemployment rate ranging from 1 to 2 percentage points lower than the national average. The current US labor market, at virtually full employment conditions, has eliminated this difference. During the fourth quarter of 2018, both Maryland and the US averaged an unemployment rate of 3.6%, which for the nation represents the lowest rate since the fourth quarter of 1969 of 3.3%. Comparatively, Baltimore's rate has historically been between 2 and 3 percentage points above the State rate. Since its peak in 2010 at 11.6%, the City's unemployment rate fell to 5.1% in the fourth quarter of 2018, the lowest since 2007, and narrowed the gap with the State rate from more than 4 percentage points in 2010 to less than 2.

The City job market has been generating stable employment to absorb and retain employees in the Baltimore area. The Maryland Department of Labor, Licensing and Regulations (DLLR) reported an average of 343,059 jobs located in the City as of the third quarter of 2018, representing an increase of 0.9% compared to the average of 340,041 in calendar 2017,

and 5.1% from its lowest level of 326,493 in 2010. The City's labor force reached 295,157 annual average in 2018, representing an increase of 0.3% from 2017, or the incorporation of more than 900 City residents to the labor market, which explains the low unemployment rate. While the City's labor force has not experienced a material change (a reduction of 346 individual since 2010 while population declined more than 9,300) the City has incorporated more than 15,400 City residents to the job market. The following table shows the comparative trend in the City's employment market since 2010.

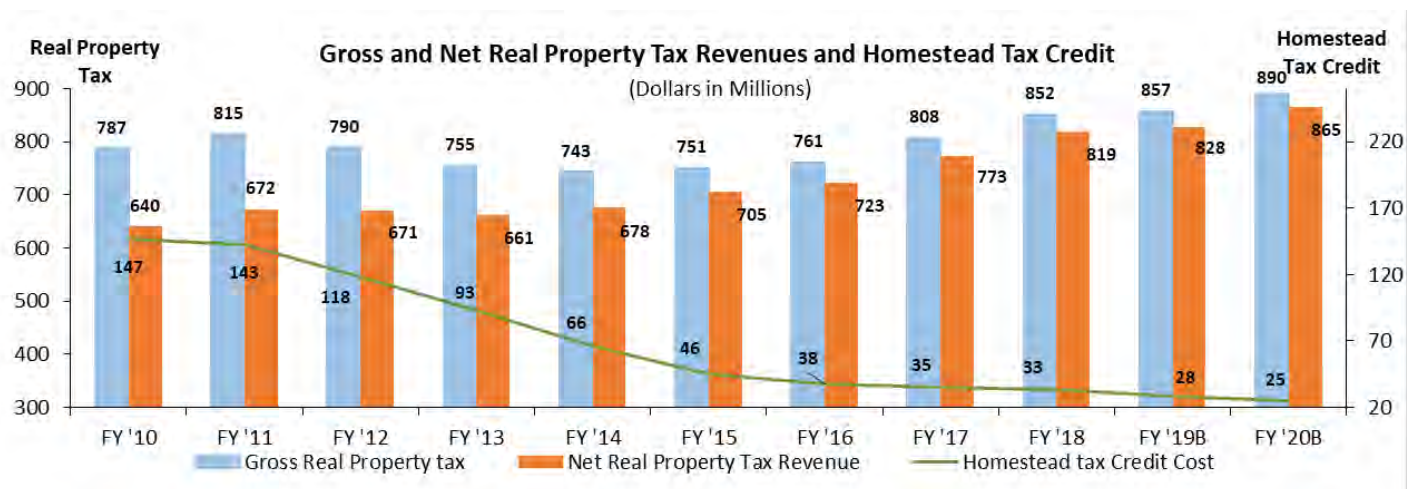

Residential Housing

Although the City has experienced a steady housing market since the Great Recession, there are now signals that it reached its peak in 2017. The number of residential real estate transactions has decreased 6.7% from 9,054 in 2017 to 8,450 in 2018, while the average price of residential property sold in the City decreased by 0.3% from \$174,003 in 2017 to \$173,413 in 2018. This modest decline in housing prices may be reflected in the next round of reassessments.

For Fiscal 2020, the State Department of Assessment and Taxation (SDAT) reassessed properties in Group I (Northern and Downtown areas). Residential property assessments grew 5.9% over three years, averaging less than 2% per-year. This represents the second year of only minimal assessment increases in residential properties.

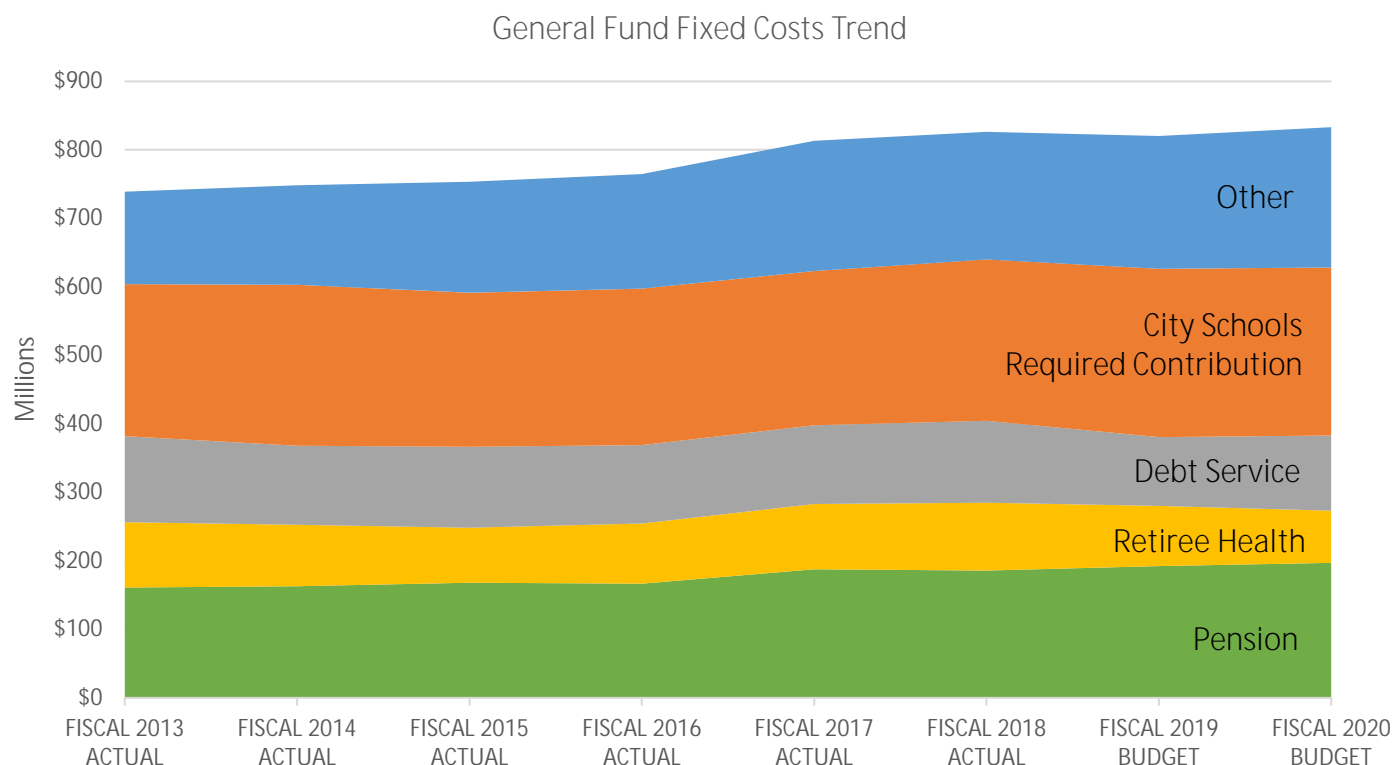

In the event of an extended period of decline in average housing prices or a recession, the City is not as well positioned compared to prior recessions. As shown in the following table, during the last recession the City had a large built-up value of assessments that were capped by the Homestead tax credit that substantially cushioned the impact of assessment reductions during the Great Recession. The City did not experience a significant net real property tax revenue decline until Fiscal 2013, four years after the beginning of the recession:

From Fiscal 2015 to Fiscal 2020, most residential property assessments have not exceeded the Homestead tax credit cap of 4%, which has reduced the cost of the credit, but also reduced the cushion to protect against future assessment declines in a recessionary environment.

What are Fixed Costs?

In general, “fixed costs” are expenses that the City is required to pay by law or contract and cannot be easily reduced in the short-term. As shown in the chart below, the City’s fixed costs include contributions to employee pension systems, health care for retirees, the State-mandated Maintenance of Effort (MOE) contribution to Baltimore City Public Schools (BCPS), and payment of debt service.

Pension Costs: The City funds three pension systems for sworn fire and police employees, civil service employees, and elected officials.

Retiree Health: The City subsidizes medical and prescription drug benefits for 14,872 out of 23,140 eligible retirees, 5,721 of those are BCPSS retirees or retired State librarians.

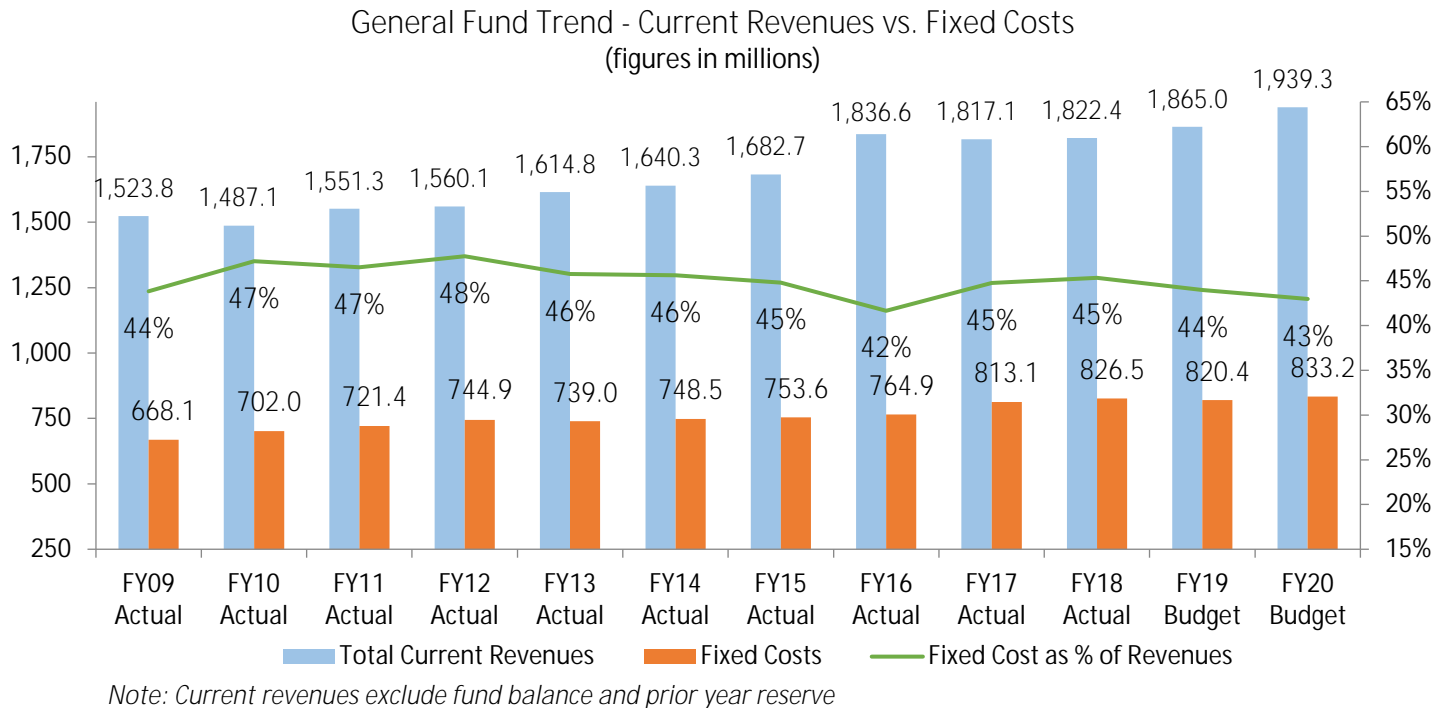

Debt Service: The City Charter mandates that payment of the principal and interest on municipal debt must be funded. The General Fund budget includes funding to pay debt on General Obligation Bonds used for capital projects, county transportation bonds, Tax Increment Financing (TIF), Conditional Purchase Agreements (CPA), and economic development loans from the State.

City Schools Required Contribution: State law requires that Baltimore City maintain its education funding effort from year to year on a per-pupil basis and pay a portion of the normal cost of the teacher pension system.

Other: Other fixed costs include workers’ compensation claims; insurance and liability costs; a State mandated contribution to Baltimore City Community College; gas, electric, sewer and water costs; and tipping fees for solid waste disposal.

Fixed Cost Trends

From Fiscal 2009 to Fiscal 2012, fixed costs grew from only 44% of General Fund revenues to 48% of General Fund revenues. Since Fiscal 2013, due to a series of reforms, fixed costs have leveled off at approximately 43% of General Fund revenues, as represented by the line in the graph below.

In the Fiscal 2020 Recommended Budget, fixed costs grow \$13.2 million versus Fiscal 2019 budgeted levels. The increase is primarily related to increases in debt service due to the accumulated increase in the City's borrowing in Fiscal Years 2016-2019 from \$50 million a year to \$65 million a year. Borrowing will increase to \$80 million for Fiscal Years 2020 and 2021. The increase in fixed costs also include growth in the Fire and Police pension contributions and in fleet replacement costs.

Employees' Retirement Systems

In 2010, the City reformed the Fire and Police Employee Retirement System (FPERS), which had grown in cost by 81% from \$48 million Fiscal 2005 to \$87.5 million in Fiscal 2010. These reforms included:

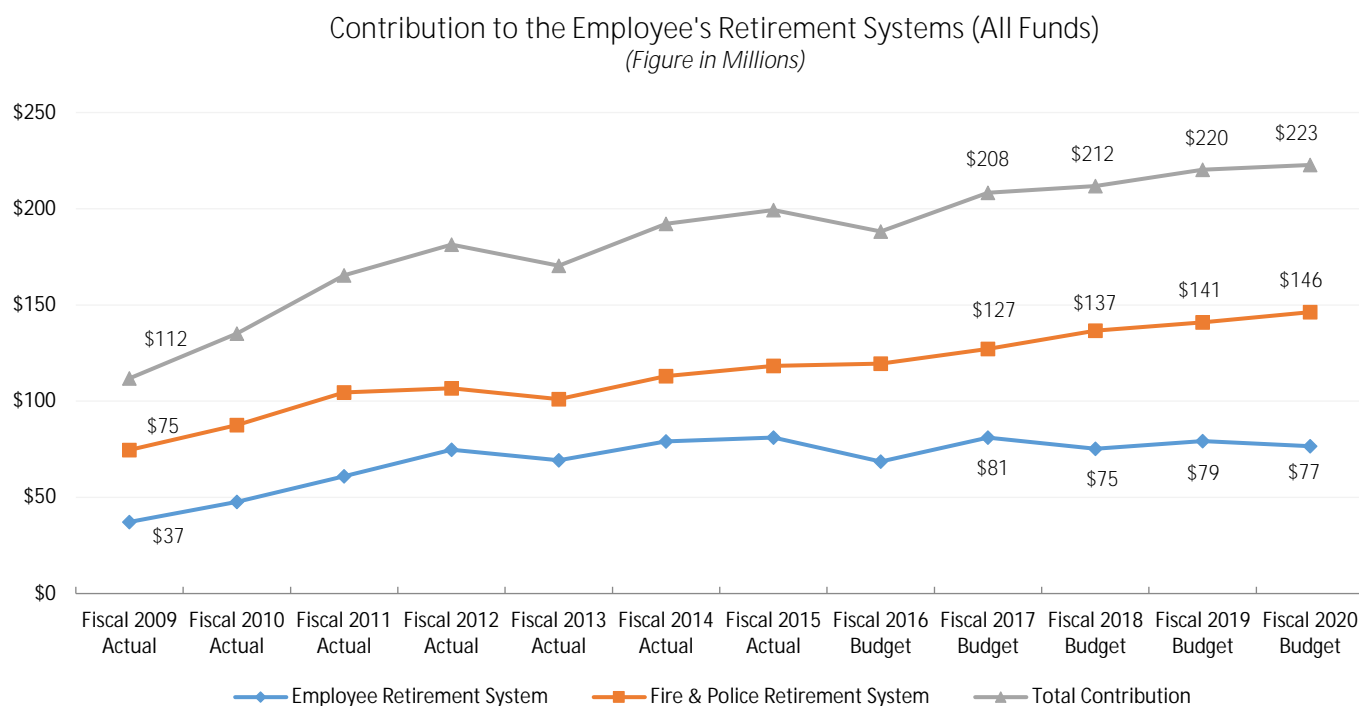

- Replacing the variable benefit with a cost of living adjustment capped at 2%.
- Modifying age and years of service requirement to 25 years of completed service or age 55 with 15 years of completed service.
- Increasing employee contributions from 6% to 10% over a four-year period from Fiscal 2011 to Fiscal 2014.
- Extending the time-period used for calculating average final compensation from 18 months to 3 years.

In 2013, the City also reformed the Employee Retirement System (ERS) for civilian employees. These reforms included:

- For existing civilian employees hired before July 1, 2014, phasing in employee contributions of 1% of salary per year up to a cap of 5% contributions in Fiscal 2019.
- Creating a new retirement system for employees hired after July 1, 2014. These employees can choose to enter the new Retirement Savings Plan (RSP) with mandatory employee contributions plus a City match, or a hybrid plan, which includes a mix of RSP and a guaranteed benefit under the Employee Retirement System.

For the Fiscal 2018 year-end report which informed the Fiscal 2020 budget, both systems beat their return benchmark, leading to a lower than expected cost growth. The ERS and EOS system reported an 8.5% investment return against a 7.0% benchmark, and FPERS reported an 8.5% investment return against a 7.25% benchmark.

The chart below shows that these reforms have significantly reduced the rate of growth of the City's contribution (as compared to the Fiscal 2009 to Fiscal 2011 time-period).

Note: ERS figures also include Library, Sheriff's Office and Elected Officials

In addition to these reforms, the Board of each system adopted more conservative valuation methodologies, to more accurately reflect the systems' financial status:

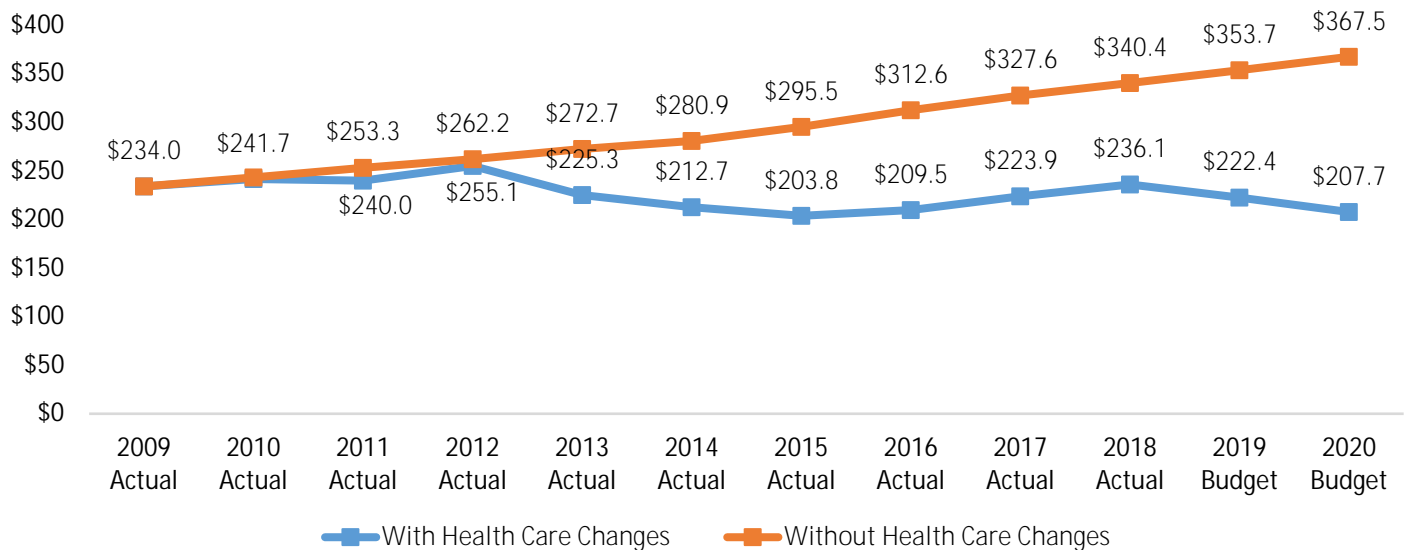

- FPERS revised its investment benchmark from 7.5% to 7.25% in 2018. For the 2018 actuary report, the FPERS Board also clarified many of its years of service calculations and survivor benefits to more accurately reflect the System's liabilities.
- ERS revised its investment assumption from 7.75% to 7.5% in 2015, and down to 7% in Fiscal Year 2018. ERS also updated its demographic assumptions for termination and retirement disability to more accurately reflect future liabilities.
- ERS and FPERS adopted a closed amortization schedule, which means the total unfunded liability will be paid by 2032.

Health Care for Employees and Retirees

From Fiscal 2005 to Fiscal 2010, the City's cost of providing medical and drug benefits to its employees and retirees grew by \$69 million, or 40%, from \$172.2 million to \$241.7 million. These costs were on an unsustainable path, and could no longer be ignored as the City faced the fiscal consequences of the Great Recession.

Several changes to health care plans have been made that have collectively reduced the City's costs by \$150 million compared to baseline estimates. The recent changes are summarized below both graphically and sequentially:

Baltimore City Health Care Costs
(dollars in millions)

Fiscal 2011 Changes

- 10% prescription drug premium co-share for retirees

Fiscal 2012 Changes

- Prescription co-pay tier adjustments for retirees
- Reduce the number of Medicare supplemental plan options for retirees from five to two
- \$100 annual pharmacy deductible for retirees
- Drug Quantity Management
- Prescription Drug Prior Authorization
- Mandatory pre-certification/enhanced utilization review/case management
- Step Therapy

Fiscal 2013 Changes

- As of January 1, 2013, the City pays 79.2% of premium costs for a new standard network medical benefit plan that requires deductibles and co-insurance. Employees can opt to pay the full incremental cost for a medical plan with lower out-of-pocket costs. The City also requires all employees and retirees to pay 20% of their prescription drug premium costs.

Fiscal 2014 Changes

- The City conducted a dependent eligibility audit to ensure that health care benefits are not provided to ineligible recipients. As a result of the audit, approximately 1,500 ineligible dependents were dropped from coverage, saving \$4.5 million.

Fiscal 2017 Changes

- The City shifted several health care plans to a self-funded model, which decreases external administrative costs and provides the City with greater flexibility in determining premiums. This shift decreased City costs by \$7 million in calendar year 2017.
- The City reduced Medicare supplemental plan reimbursements paid by the City from 100% to 80%, which decreased costs by \$8.6 million in calendar year 2017.

Fiscal 2019 Changes

- The City rebid health care and prescription drug coverage contracts and switched from Express Scripts to CVS Caremark. The shift from 9 to 4 health care providers and the new prescription drug provider saved the City nearly \$35 million.

Fiscal 2020 Changes

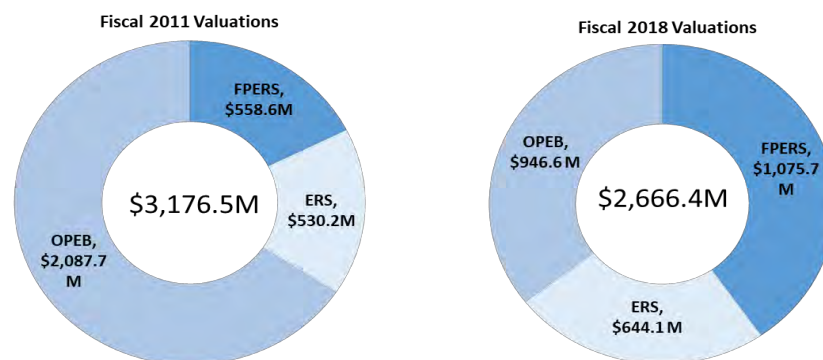

- There were no changes to healthcare policy, but the City is seeing a greater percentage of retirees not enrolling in City sponsored plans.

Long-Term Liabilities for Pensions and Retiree Health Care

As with many cities and states across the country, Baltimore faces large-scale, long-term liabilities associated with retiree pension and health benefits. Pensions and retiree health plans have pay-as-you-go costs equal to the benefits distributed or claimed that year, but they also have accrued obligations to be paid in the future. Actuaries determine the amount of assets that must be set aside now to ensure adequate resources are available in the future.

The pie charts below show that Baltimore's long-term unfunded liabilities totaled more than \$3.1 billion in Fiscal 2011 and were reduced to \$2.6 billion as of the Fiscal 2018 valuations.

The overall reduction is driven by lower Other Post-Employment Benefits (OPEB), primarily retiree health care, stemming from redesign of the City's medical plans, increased cost-share for prescription drug coverage, and establishment of a waiver plan for Medicare drug coverage to account for increased federal subsidies, among other actions. Due in large part to these reforms, the unfunded OPEB liability decreased by \$1.1 billion since the Fiscal 2011 valuation. The long-term unfunded liability of OPEB stayed steady in Fiscal Year 2020, after increasing in 2019 because of changes in accounting standards required by the Government Accounting Standards Board (GASB). Liabilities for the FPERS pension plans continue to grow due to ongoing amortization of prior year investment losses, the steady decrease in number of active employees, the growing number of retirees, and the adoption of more conservative actuarial methods. Steady market performance improved the overall position of the ERS pension plan between Fiscal 2011 and Fiscal 2014, but the funding ratio has yet to return to the Fiscal 2011 level. As of the Fiscal 2018 valuation, the funded ratio for ERS is 74.1% and for FPERS is 69.8%.

OPEB: Other post-employment benefits, namely retiree health care coverage.

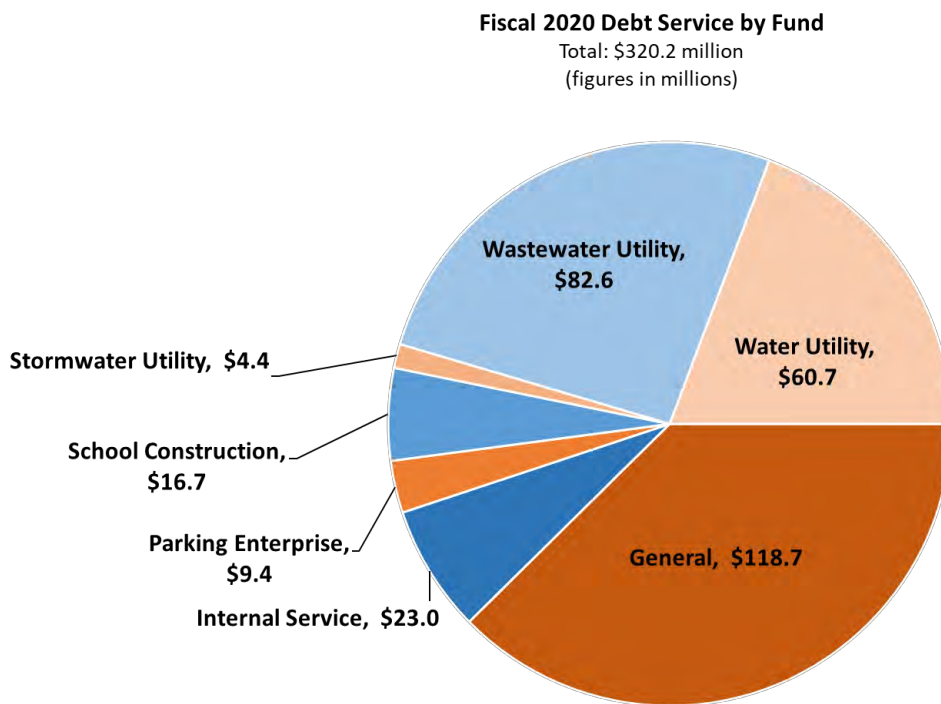

FPERS: Fire and Police Employees' Retirement System.

ERS: Employee Retirement System for civilian employees.

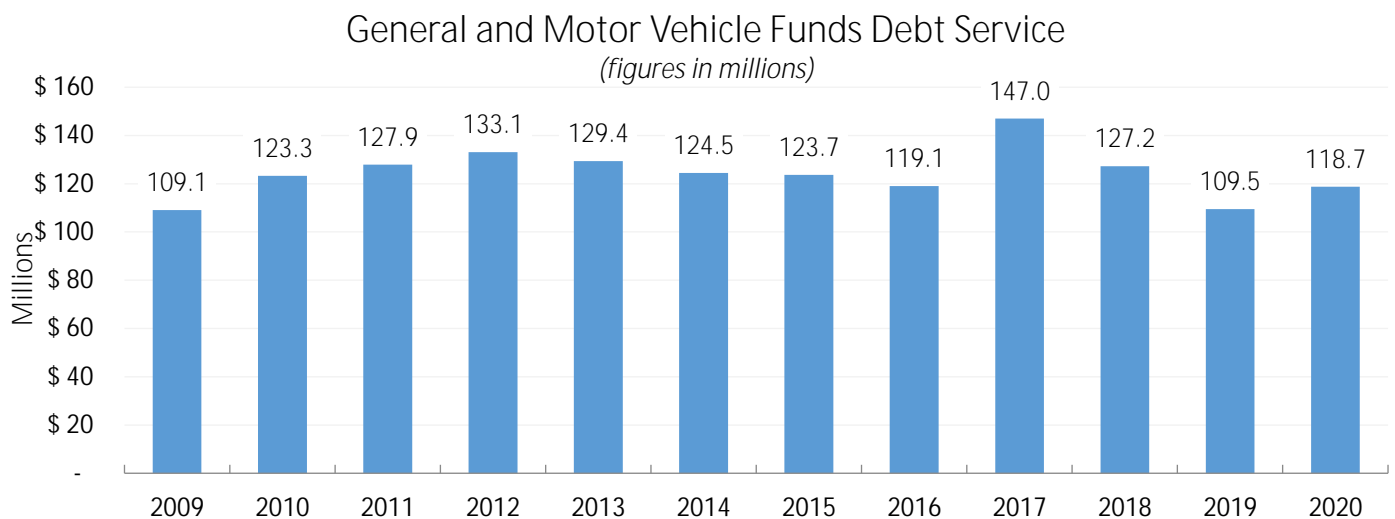

**Unfunded Pension and OPEB liabilities have
shrunk by \$510 million.**

Debt Service

The City's total debt service is projected at \$320.2 million for Fiscal 2020, among the following sources:

The Fiscal 2020 General Fund recommendation of \$118.7 million in debt service is \$9.2 million above the Fiscal 2019 adopted budget. The increase is due to the accumulated increase in the City's borrowing in Fiscal Years 2016-2019 from \$50 million a year to \$65 million a year. Borrowing will increase to \$80 million for Fiscal Years 2020 and 2021, which was approved by voters during the 2018 elections. The following chart illustrates General Fund debt service over the past 10 years:

Note: Debt Service includes GO Bonds, Conditional Purchase Agreements, TIF Debt Service, Hotel

Fiscal 2017 included a \$10.5 million debt pre-payment, which reduced the City's future payments by \$3.1 million over 10 years. Debt service overall, had been trending downwards due to a decrease on debt issued through conditional purchase agreements.

Risk Management

Risk Management costs include workers' compensation, legal liability, insurance, and administration.

The City's self-insured costs (workers' compensation and legal liability) are projected through an annual actuarial valuation. Other insurance and administrative costs are determined by analysis of historical actuals and trends; these costs include personnel in the Department of Finance (Risk Management) and the Law Department (workers' compensation and auto liability), as well as other brokerage, medical, and contractual costs.

The City shares a portion of the Risk Management costs with the Baltimore City Public Schools (BCPS), based upon the BCPS share of annual claims. In the Fiscal Year 2018 budget process, the City agreed to bridge a funding gap in Baltimore City Schools for three years, while the State conducted an analysis of funding formulas through the Kirwan Commission. Part of the agreement included in-kind services for BCPS Risk Management. In Fiscal Year 2020, the City budgeted \$13.1 million towards BCPS workers' compensation as part of the last year of bridge funding.

While most costs are budgeted centrally within the City's Self-Insurance Fund (Service 126), workers' compensation is allocated across City agencies, and administrative costs are captured within the Risk Management and Law services.

In Fiscal Year 2020, the City is allocating additional funds to the Police's Civil Rights budget in order to hedge the City's risk as the Guns Trace Task Force (GTTF) cases continue to be filed in court.

The City's share of Risk Management costs are summarized below:

Subobject ID	Cost Center	Fund Source	Fiscal 2019	Fiscal 2020
740	Workers' Comp - Direct	Multiple Funds	53,902,742	54,064,370
720	Property and Casualty Insurance	General Fund	664,269	928,645
721	Auto/Animal Liability Insurance	General/Fleet Funds	2,213,977	2,376,780
723	General Tort Liability Insurance	General Fund	4,388,444	4,297,814
370 (Police)	Civil Rights Insurance	Multiple Funds	2,461,456	4,054,009
724	Insurance - Other Risks	General Fund	1,708,489	1,701,954
725	Risk Management Administration	Multiple Funds	8,959,168	8,976,410
726	Self-Insurance Stabilization Reserve	General Fund	9,206,240	9,814,813
Grand Total			82,704,785	86,214,795

Ten-Year Financial Plan

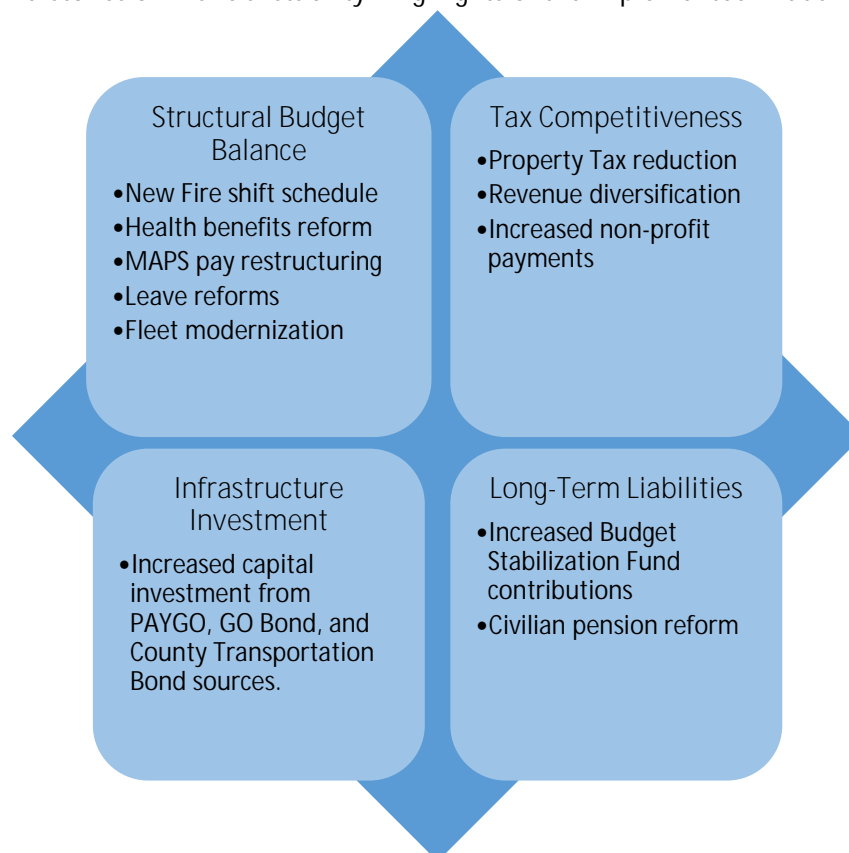

Overview

In February 2013, the City released *Change to Grow: A Ten-Year Financial Plan for Baltimore*. The Ten-Year Financial Plan was a long-term fiscal roadmap with a set of actions designed to bring the City's recurring revenues and expenditures into alignment, while also prioritizing new investments that strengthen Baltimore's fiscal foundation and promote economic and community stability and growth. The Ten-Year Financial Plan includes a baseline forecast from Fiscal 2013 – Fiscal 2022.

Major findings of the forecast completed in Fiscal 2013 included:

- City government faced a serious structural deficit driven by growing employee healthcare and pension costs. The City's financial consultant projected a cumulative shortfall of \$745 million by Fiscal 2022.
- City government agencies faced a \$1.1 billion General Fund "infrastructure deficit" over the decade. Investment in basic City infrastructure fell far short of the levels required to maintain the current state of repair.
- City government had an aggregate unfunded retiree liability of more than \$3 billion (Fiscal 2011)—including actuarial shortfalls in the City's Fire and Police Employees' Retirement System (FPERS, \$558.6 million), Employees' Retirement System (ERS, \$530.2 million), and non-pension Other Post-Employment Benefits (OPEB, \$2.1 billion).
- The City's high overall tax burden—especially the property tax rate—fell disproportionately on City residents and businesses, further impeding the City's ability to compete for growth. Baltimore needed to find new ways to restructure and diversify its overall tax policies to reduce the burden on residents without slashing funds for basic City services.

Since the adoption of the Ten-Year Financial Plan, the City implemented a number of initiatives to reduce the fiscal gap and address the four cornerstones of financial stability. Highlights of the implemented initiatives are described below:

Fire Shift Schedule: A new 47-hour per week work schedule was negotiated, which increased wages for firefighters while reducing overall staffing requirements, all while maintaining current service levels and coverage.

Health Benefits Reform: The City introduced standard and high option medical plans that require employees and retirees to pay higher rates for their benefits. The City also introduced more consistent cost-sharing that is more in line with other large government employers for both medical and prescription drug coverage.

MAPS Pay Restructuring: A study of Managerial and Professional Society (MAPS) employee compensation identified competitiveness gaps for some critical positions. The City expanded salary ranges, reduced duplicative classification titles, and instituted pay-for-performance plans for professional employees.

Leave Reform: The City negotiated changes to vacation and personal leave policies with MAPS, AFSCME, CUB, and Police unions. The new policy limits the number of vacation and personal leave days that can be carried-over from year to year, which ultimately reduces end-of-career cash-outs of unused leave.

Fleet Modernization: A debt financing model was introduced for City vehicle replacement, which has reduced the average age of vehicles, in turn reducing maintenance and fuel costs.

Property Tax Reduction: The City launched the “20 Cents by 2020” program, with the goal of reducing the tax burden on residential owner-occupied properties. The City has met the goal in Fiscal 2020, having reduced the effective property tax rate on these properties from 2.24% to 2.04%, saving the average homeowner more than \$300 annually.

Revenue Diversification: The City’s General Fund is highly dependent on property tax and income tax revenue. To further diversify revenue streams, new taxes were approved on outdoor advertising and taxi cab trips.

Capital Investment: The City has redirected savings from initiatives to boost capital investment. Annual GO Bond Authority was increased from \$50 million in Fiscal 2015 to \$65 million each year from Fiscal 2016 to 2019, and to \$80 million in Fiscal 2020. County Transportation Bond authority via the State of Maryland has been utilized at \$15 million annually. And, current revenues (PAYGO) have been used for capital projects, growing from only \$2 million in Fiscal 2011 to \$50 million in Fiscal 2020.

Budgeted Stabilization Reserve: Annual contributions to the Budget Stabilization Reserve (BSR), also known as the “Rainy Day Fund,” were accelerated in order to reach the desired funding level. The BSR ensures that the City has resources on-hand to respond to one-time unplanned emergencies. As of the end of the Fiscal 2018, the BSR balance is at \$139.1 million, or 7.4% of the subsequent year’s operating budget, just shy of the target of 8%.

Civilian Pension Reform: For existing Employee Retirement System members, the variable COLA was eliminated and employee contributions up to 5% were phased in. New civilian hires now enter either the Retirement Savings Plan (a “401-k-style” system), or a hybrid plan which also includes a small defined benefit component. Both changes have reduced the City’s required contributions, and will limit the investment risk on the City going forward.

Ten-Year Financial Plan Refresh

The City is six years into the current Ten-Year Financial Plan (Fiscal 2013 – Fiscal 2022). While the work completed during this time has made significant progress towards closing the structural budget gap, baseline cost increases and other unforeseen challenges have continued to grow at a faster pace than projected revenue. Examples include increased costs related to the new Fraternal Order of Police contract, additional contributions to City Schools, compliance with the Department of Justice consent decree, and the implementation of body camera technology, among others. Despite already identifying and implementing a net \$311 million in cost saving initiatives, the City will need to continue to find

ways to trim spending, identify efficiencies, reduce long-term liabilities, and invest in much-needed capital improvements without negatively impacting service delivery.

To this end, the City has begun a refresh of the Ten-Year Financial Plan. In December 2018, the City competitively awarded a contract to Ernst and Young to begin this work. The contract includes development of a revised 10-year forecast, a new assessment of infrastructure requirements, new savings and revenue options, and a comprehensive look at the City's overall tax policy and tax incentive strategies. We expect this Ten-Year Financial Plan to continue to serve as a guide for policymakers on how to best keep Baltimore on a sustainable financial footing.

FISCAL 2020

SUMMARY OF THE ADOPTED BUDGET

Revenue Outlook

Intentionally Left Blank

Fiscal 2020

Major Revenues Forecast

General Fund

General Fund revenue is projected at \$1.97 billion, an increase of \$84.5 million or 4.5% from the Fiscal 2019 Adopted Budget of \$1.88 billion. The following section discusses each source in more detail.

Revenue Category	Fiscal 2018 Actual	Fiscal 2019 Budget	Fiscal 2020 Budget	Dollar Change	Percent Change
Property Taxes	940,506,770	938,635,800	987,060,000	48,424,200	5.2%
Total Tax Credits (Excluding Homestead)	(83,596,151)	(87,512,000)	(98,634,000)	(11,122,000)	-12.7%
Income Taxes	346,796,930	353,644,000	366,804,000	13,160,000	3.7%
Highway User Revenues	146,173,586	142,877,199	157,350,000	14,472,801	10.1%
State Aid	104,643,521	100,978,011	101,896,000	917,989	0.9%
Recordation & Transfer Tax	89,297,709	76,745,000	79,867,000	3,122,000	4.1%
Energy Tax	41,973,224	41,208,800	42,551,000	1,342,200	3.3%
Net Parking Revenue	33,562,470	39,670,416	36,795,516	(2,874,900)	-7.2%
Telecommunication Tax	32,799,106	34,500,000	34,586,000	86,000	0.2%
Net Hotel Tax	28,405,838	30,363,475	29,100,000	(1,263,475)	-4.2%
Traffic Cameras	15,937,708	21,250,000	21,350,000	100,000	0.5%
Investment Earnings	5,325,373	4,000,000	11,200,000	7,200,000	180.0%
Children and Youth Fund	(11,866,000)	(12,386,000)	(13,105,000)	(719,000)	-5.8%
All Other	196,743,574	198,825,299	210,429,484	11,604,185	5.8%
Total General Fund Revenue	1,886,703,657	1,882,800,000	1,967,250,000	84,450,000	4.5%

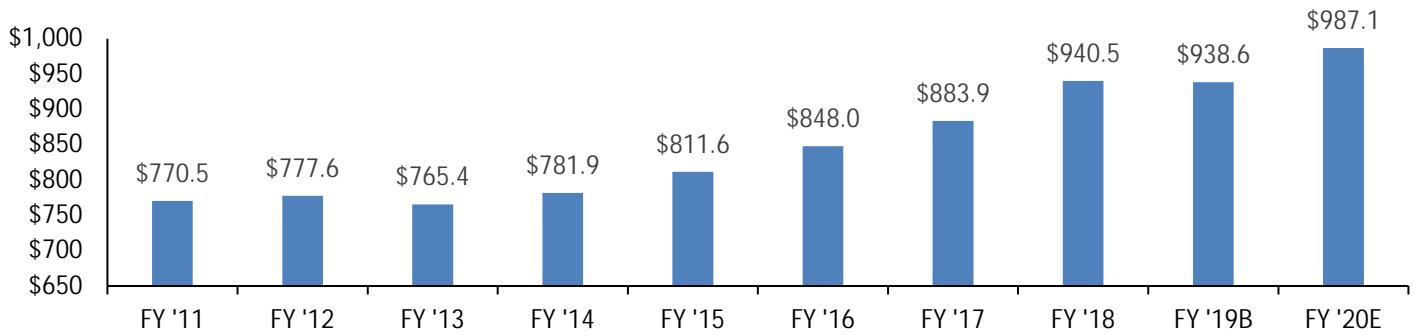

Property Taxes

The Real and Personal Property Tax rates will remain at \$2.248 and \$5.62 per \$100 of assessed value, respectively. Each year, the State Department of Assessments and Taxation (SDAT) estimates the value of all taxable real property and issues new assessments for approximately one-third of properties. Personal property is assessed annually, and valuations are established by SDAT based upon tax returns filed by individual businesses.

Real and Personal Property Tax revenue is projected to increase by \$48.4 million, or 5.2%, from \$938.6 million in Fiscal 2019 to \$987.1 million in the Fiscal 2020 Adopted Budget. Real Property Taxes, prior to the estimated \$25.0 million reduction for the Assessment Tax Credit (ATC) cost, also known as the Homestead Tax Credit, are estimated to yield \$890.1 million, an increase of 3.9% or \$33.2 million from the Fiscal 2019 Budget. Personal Property Taxes are estimated to yield \$122 million in Fiscal 2020, an increase of 10.8% or \$11.9 million from the Fiscal 2019 Budget.

As a result of the Homestead Tax Credit, owner-occupied residential properties are protected from assessment increases that exceed 4% annual growth. For example, if an eligible property were to increase in assessable value by 10% in a single year, the taxable value would only increase by 4%, generating tax savings to the property owner. Overall, the City's Homestead Tax Credit cost is projected to decline by \$3.4 million in Fiscal 2020 versus the Fiscal 2019 Budget, from \$28.4 million to \$25.0 million. Of this reduction, \$2.4 million is the result of residential property assessment phase-in growth that falls below the 4% cap, among all assessment groups.

Real and Personal Property Tax Revenues* (Dollars in Millions)

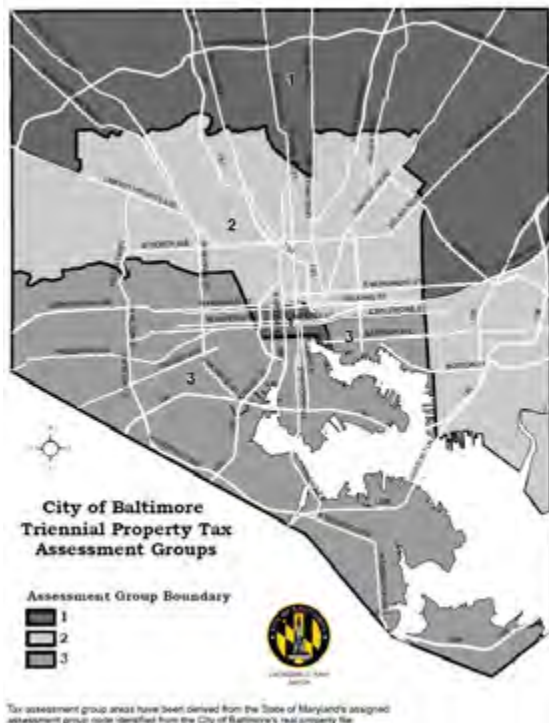

*Real and personal property tax revenues are net of the Homestead Tax Credit

For Fiscal 2020, SDAT reassessed Group 1, which is indicated by the darkest shade of gray on the map below. Notable neighborhoods located in Group 1 include: Downtown and the Inner Harbor, Park Heights and Pimlico, Roland Park, and the neighborhoods surrounding Morgan State University.

The Group 1 real property assessment reflects total growth of 8.4% over three years. This figure includes 12.6% growth for commercial property assessments but only 5.9% growth for residential property assessments. Comparatively, growth across the State averaged 9.1%, which reflects commercial assessment growth of 12.5% and residential assessment growth of 8.2%. The Fiscal 2020 reassessment represents the sixth consecutive year of assessment increases in the City after four consecutive years of decline.

Assessment increases are phased in over three years, while assessment decreases are taken immediately. Group 1 assessment data shows that out of the 68,466 taxable properties, 15,622 will experience immediate decline in Fiscal 2020. Among the properties that have declined in value, 15,012 or 96.1% are residential properties.

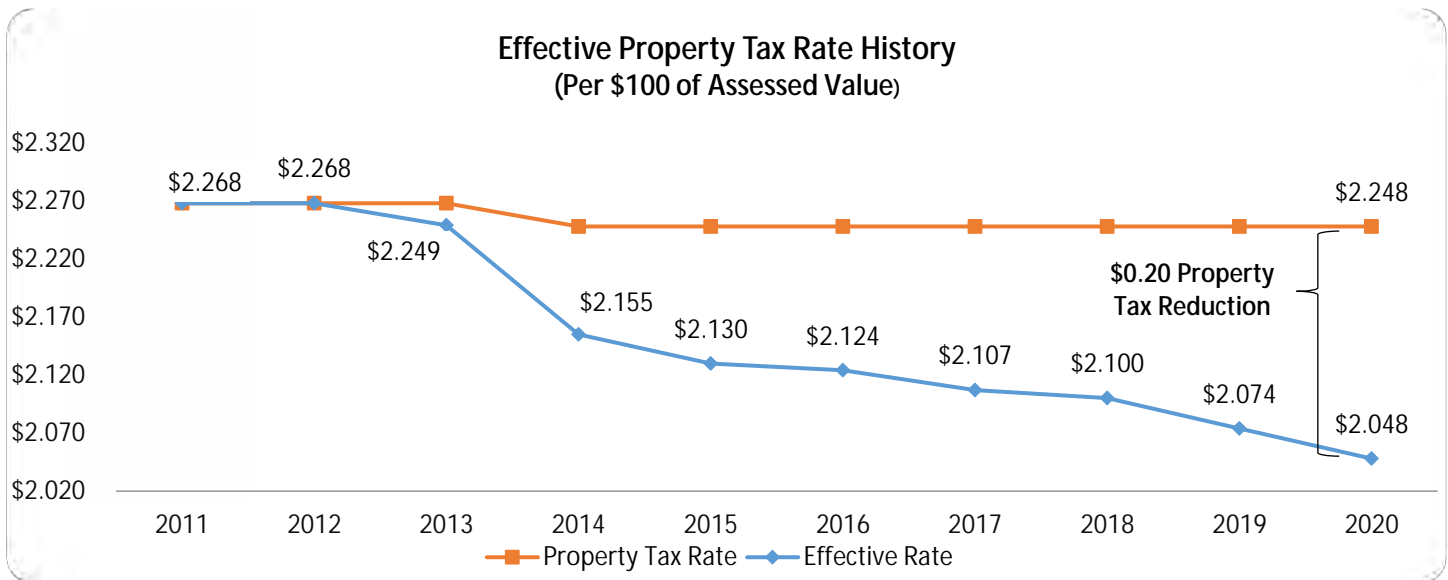

Fiscal Year	Assessment	Full Cash Value
Reassessment	Group	Assessment Increase
Fiscal 2011	Group 1	(2.6%)
Fiscal 2012	Group 2	(8.7%)
Fiscal 2013	Group 3	(6.8%)
Fiscal 2014	Group 1	(3.1%)
Fiscal 2015	Group 2	7.0%
Fiscal 2016	Group 3	9.6%
Fiscal 2017	Group 1	10.9%
Fiscal 2018	Group 2	6.2%
Fiscal 2019	Group 3	3.6%
Fiscal 2020	Group 1	8.4%

Property Tax Credits

The Fiscal 2020 Budget includes a total of \$98.6 million of lost property tax revenue due to the cost of tax credits and incentive programs, not including the Homestead Tax Credit, which is addressed separately.

In Fiscal 2020, the City reaches a significant milestone in fully implementing the 20 Cents by 2020 program. The tax reduction program, formally known as the Targeted Homeowners Tax Credit, provides tax relief for owner-occupied properties. The effective rate for owner-occupied properties with the credit is estimated at \$2.048 per \$100 of assessed value, and now saves the average homeowner more than \$300 annually versus the program's inception in Fiscal 2013. An additional 5 cent reduction, planned for Fiscal 2021, would reduce the effective rate to \$1.998 per \$100 of assessed value. The following table shows the history of the program to date:

From Fiscal 2011 to Fiscal 2015, tax credit and incentive programs, excluding the Homestead Tax Credit, accounted for an annual average cost of \$34.1 million or 4.4% of the real property tax revenues. In Fiscal 2020, these programs are expected to cost \$98.6 million or 11.1% of the estimated real property taxes. Including the Homestead Tax Credit, forgone real property tax revenue due to credits and incentive programs is estimated at \$123.6 million or 13.9% of this revenue source.

Tax Credit History Cost as a Percentage of Real Property Tax
(Figures in Millions)

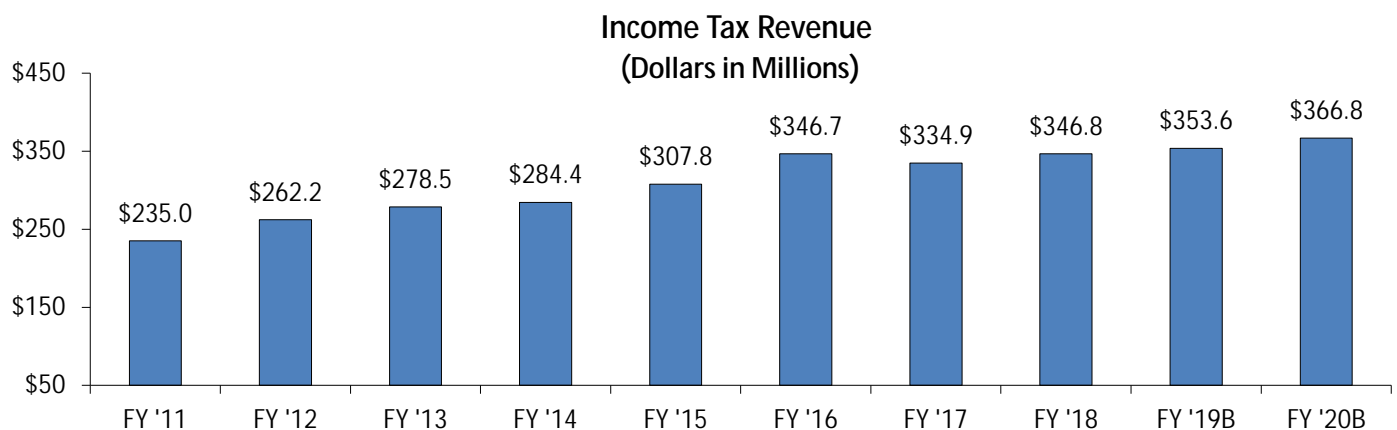

Tax Credits	FY 2011-2015	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020

Total Tax Credits (Including ATC)	(127.25)	(93.84)	(102.10)	(116.74)	(115.95)	(123.60)
Tax Credits & ATC as a % of Real Property	16.51%	12.02%	12.52%	13.71%	13.53%	13.89%

Income Taxes

Local Income Taxes are budgeted at \$366.8 million in Fiscal 2020. This projection is \$13.2 million or 3.7% higher than the Fiscal 2019 Budget of \$353.6 million, and \$7.7 million or 2.1% higher than the most recent Fiscal 2019 projection of \$359.1 million. The City's Income Tax rate is 3.2% – the maximum allowed under State law.

The City's tax base has strengthened considerably over the last decade. Recent data from the Census Bureau's American Community Survey shows the number of high-income households – defined as those earning between \$100,000 and \$200,000 – has increased by 37.0% during the period from 2010 to 2016. Moreover, the 2016 State Income Tax Summary Report confirms a shift to higher-income City taxpayers. Despite population losses, the City has gained more than 4,000 households – an increase of 1.7% – between 2010 and 2016, reaching a total number of 242,416 residential families. Of these families approximately 109,811 or 45.3% represent households earning more than \$50,000, an increase of almost 13,311 or 13.8% vs. 2010.

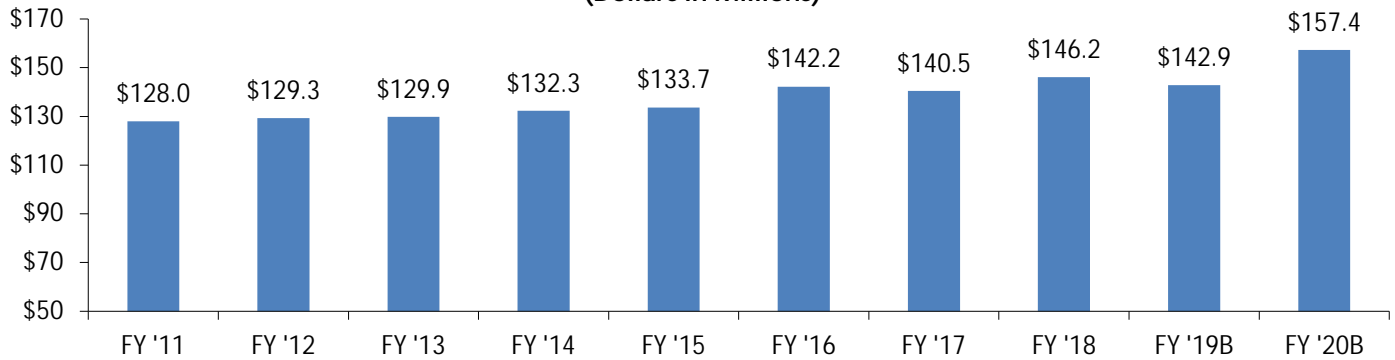

In addition to a stronger tax base, the City's income tax receipts have been buoyed by a healthy national economy, which has featured moderate growth, low inflation, and low unemployment. Despite these encouraging trends, uncertainty exists around the behavior of taxpayers after the 2018 Tax Cuts and Jobs Act (TCJA) as suggested by recent announcements from the State's Bureau of Revenue Estimates. The full impact of TCJA on revenues in Fiscal 2019 and beyond remains unknown. As a result, the City's Fiscal 2020 Budget remains optimistic, but conservative.

State Highway User Revenue

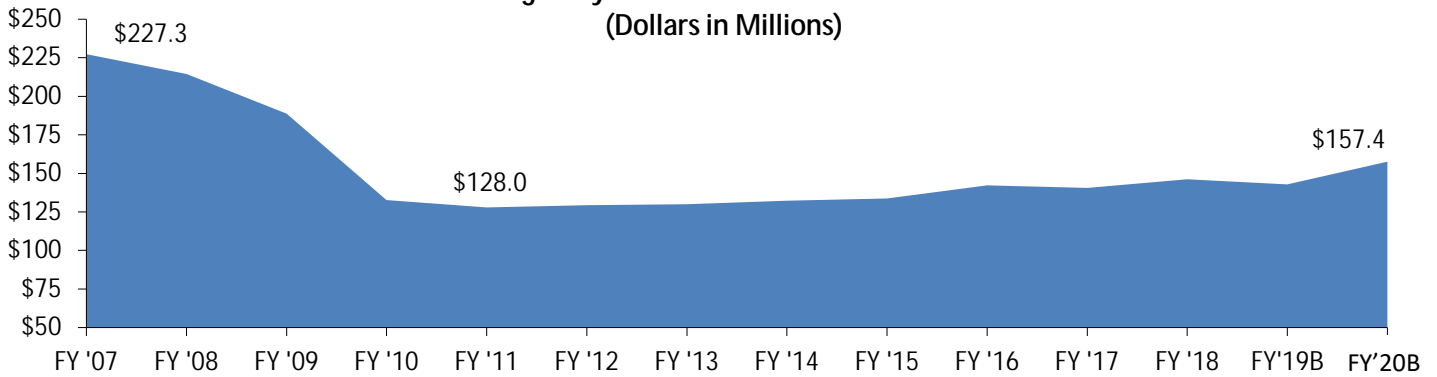

Highway User Revenue (HUR) for the Fiscal 2020 Budget is \$157.4 million, which is \$14.5 million or 10.1% higher than the Fiscal 2019 Budget. HUR is distributed to localities by the State from revenues generated by the Fuel Tax, Titling Tax, Vehicle Registration Fees, Corporate Income Tax, and a portion of the Sales and Use Tax. The projected increase reflects a change to State law that passed in 2018, raising the City's share of total Statewide HUR revenue from 7.7% to 8.3% for each year from Fiscal 2020 to Fiscal 2025.

State Highway User Revenues
(Dollars in Millions)

The City's HUR is still \$69.5 million or 30.6% below its Fiscal 2007 peak. During the Great Recession, local shares of HUR were reduced and some funds were shifted to the State's General Fund. The result for the City was a sharp reduction in funds available for transportation related capital projects.

State Highway User Revenues: Historical View
(Dollars in Millions)

State law requires that HUR funds must be used by local governments for eligible transportation-related uses. Eligible uses include street construction or maintenance, transportation facilities, street cleaning, police enforcement of traffic laws, stormwater drainage of roads, street lighting, and maintenance of footpaths and bicycle trails. These expenditures must equal or exceed the amount of HUR revenue, demonstrating that the City is compliant with State law. Any HUR-eligible costs greater than HUR revenue are subsidized by the General Fund.

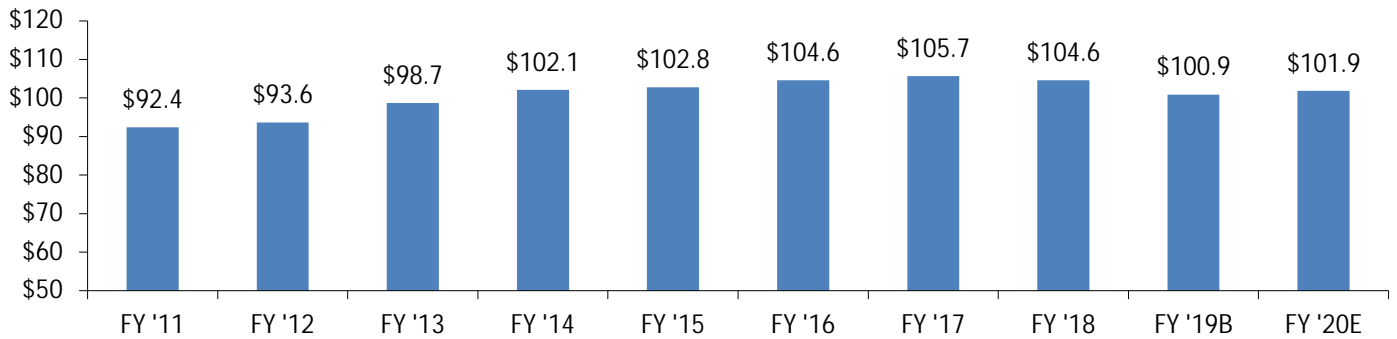

HUR-Eligible General Fund Expenditures (Dollars in Millions)

Agency/Service	Fiscal 2020 Adopted
Transportation	
500 - Street Lighting	21.6
681 - Administration	9.0
683 - Street Management	33.3
684 - Traffic Management	11.4
685 - Special Events (Special Event Support only)	1.1
688 - Snow and Ice Control	6.7
689 - Vehicle Impounding and Disposal	8.0
690 - Sustainable Transportation	6.7
691 - Public Rights-of-Way Landscape Management	3.9
692 - Bridge and Culvert Management	3.6
696 - Street Cuts Management	1.0
697 - Traffic Safety (Pedestrian Safety, Traffic Engineering, Sign Fabrication, Street Markings only)	6.0
Public Works	
661 - Public Right-of-Way Cleaning (Cleaning Business Districts, Street & Alley, Graffiti Removal only)	15.8
676 - DPW Administration (24% of total cost allocated to administration of HUR-eligible activities)	0.7
Recreation and Parks	
654 - Urban Forestry (Tree Maintenance only)	3.2
Police	
634 - Crowd, Traffic, and Special Events Management	11.6
Debt Service	
123 – General Debt Service (Highways only)	17.4
Capital Budget Projects	14.1
budgeted HUR-Eligible Expenses Total	175.1
Projected HUR Revenue	157.4
HUR-Eligible Expenses Subsidized by General Fund	17.7

State Aid

State Aid budgeted in the General Fund is projected to increase by \$918,000 or 0.9% from the Fiscal 2019 Budget. State Aid includes the Income Tax Disparity Grant, supplemental appropriation for teacher pension, security interest filing fees, police protection aid, support for public health initiatives, library services aid, and appropriation for maintenance of the War Memorial Building. The increase versus Fiscal 2019 is driven by several small increases and a notable increase to the Income Tax Disparity Grant of \$0.5 million as anticipated in the Governor's Budget. The Disparity Grant is based on a formula designed to assure that all subdivisions receive per capita income tax receipts equivalent to at least 75% of the statewide average.

State Aid Revenues - General Fund (Dollars in Millions)

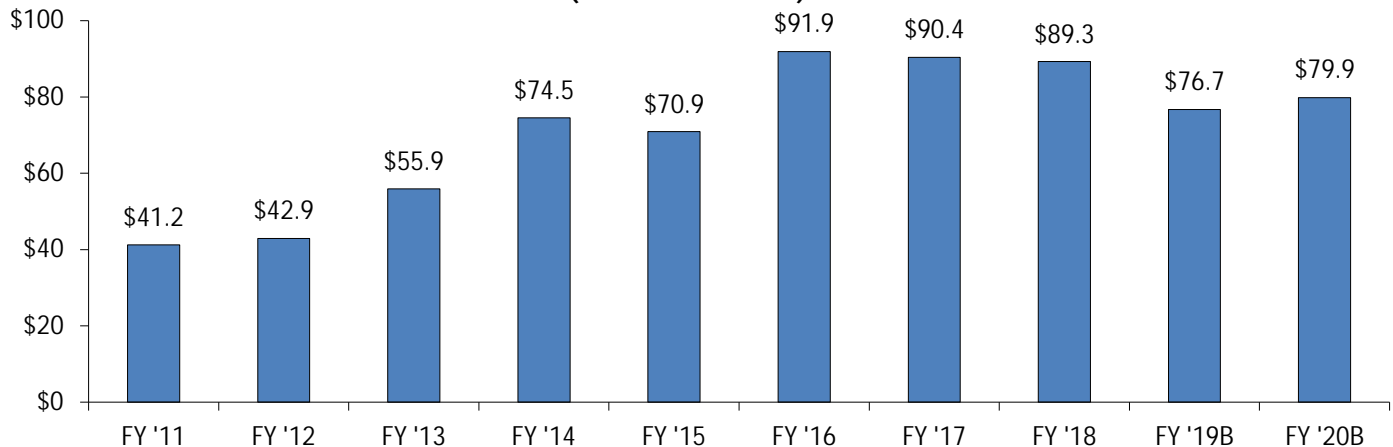

Recordation and Transfer Taxes

Recordation and Transfer Tax revenues for Fiscal 2020 are budgeted at \$79.9 million, an increase of \$3.1 million or 4.1% compared to the Fiscal 2019 Budget.

Recordation and Transfer tax receipts depend on the number and value of real estate sales. Recordation Tax receipts in particular are also driven by refinancing activity. These revenues are highly sensitive and can be volatile from year to year. As an example, the pre-Great Recession housing boom of Fiscal 2006 augmented receipts from these two revenue sources, which reached a combined peak of \$116.7 million. After the collapse of the housing bubble two years later, they eventually fell to \$41.2 million in Fiscal 2011, a drop of \$75.5 million or 64.7%. To account for this volatility, the Fiscal 2020 Budget is equivalent to the average revenue collected for the last five years.

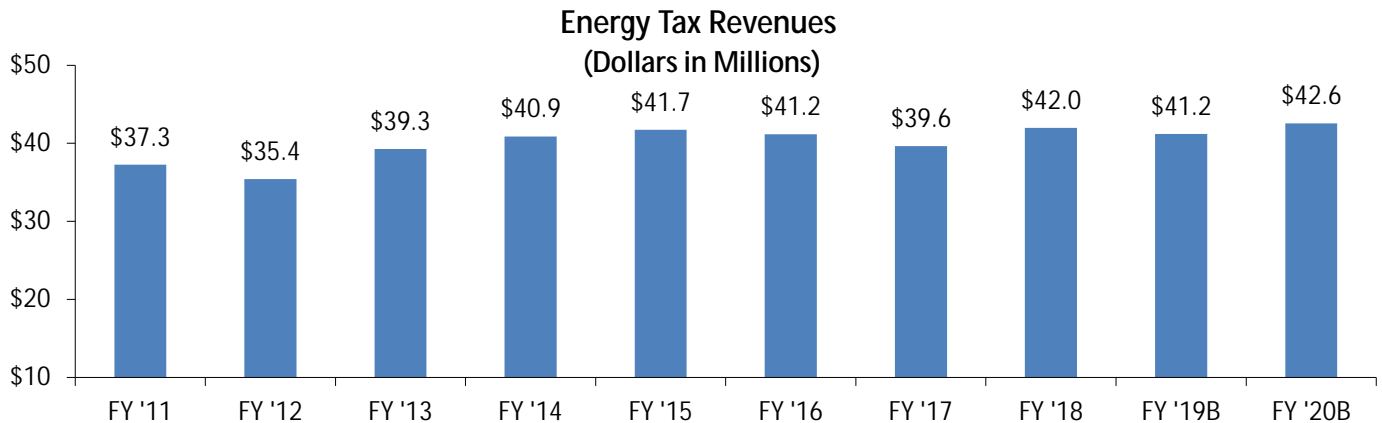

In Fiscal 2019, City Council passed legislation (Bill 18-0221) that calls for a new “Yield Tax” on transactions over \$1 million, with all revenues dedicated to the Affordable Housing Trust Fund. Although the legislation exempts transactions under the \$1 million threshold, most of the City’s General Fund Transfer and Recordation revenue comes from these high-value transactions. In Fiscal 2017, the top 1.2% of transactions (over \$1 million) produced nearly 45% of the Transfer and Recordation revenue. In turn, even a small negative impact on housing transactions due to the legislation could lead to lower General Fund revenue.

Recordation and Transfer Tax Revenues (Dollars in Millions)

Energy Taxes

Energy Tax revenues for Fiscal 2020 are budgeted to generate \$42.6 million, an increase of \$1.3 million, or 3.3% from the Fiscal 2019 Budget. Energy Tax revenues include Electricity, Gas, Steam, Fuel Oil, and Liquid Petroleum Gas taxes. The Fiscal 2020 Budget is based on adjustments to rates and historical usage trends, which over time have shown declining energy usage. In general, efficiencies in usage are offset by rate increases; however, unseasonably warm or cold weather can also impact total revenues.

Energy Tax Rate Calculation

The Baltimore City Code mandates that the City's Energy Tax be levied as a unit tax based on the number of units of energy delivered to users in Baltimore City. The units are as follows: kilowatt-hours for electricity, therms for natural gas, pounds for steam, and gallons for fuel oil and liquefied petroleum gas.

In accordance with Article 28, Section 25-14, the tax rates shall be adjusted by the annual percent change in the Baltimore-Washington Consumer Price Index (CPI) as reported for November by the United States Department of Labor (USDOL). The USDOL no longer produces the annual CPI for the Baltimore-Washington region; therefore, City Council Bill 19-0331 has been introduced to establish that for Fiscal 2020 and forward, Energy tax shall be adjusted by the percentage change in the Baltimore-Columbia-Towson CPI as reported by the USDOL. The metric is calculated by comparing December of the preceding calendar year to the December of the next preceding calendar year. The CPI used for Fiscal 2020 is 1.34%.

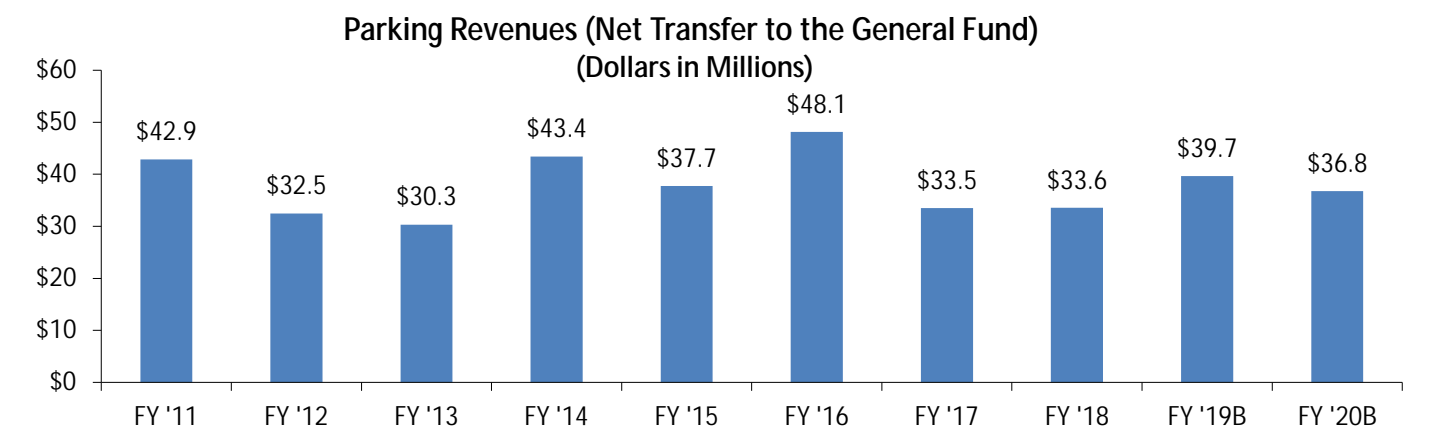

Article 28, Section 25-14(g) of the Baltimore City Code mandates that the tax rates computed be included annually in the proposed operating Budget submitted by the Director of Finance to the Board of Estimates. For Fiscal 2020, the recommended rates are as follows:

Fiscal Year 2020 Energy Tax Rates (\$) by User Group and Energy Type					
User Group	Electricity (kWh)	Natural Gas (therm)	Fuel Oil (gal)	LPG (gal)	Steam (lbs)
Commercial	0.008662	0.112005	0.128010	0.156226	0.002724
Residential	0.002774	0.032919	0.046201	0.049484	0.000782
Nonprofit	0.006073	0.088976	0.110482	0.135849	0.001611

Net Parking Revenues

Parking revenues are dependent upon vehicle usage and demand at garages, parking lots, and metered spaces, as well as City enforcement of traffic laws. The City is beginning to see a trend towards lower parking revenues. Some factors could

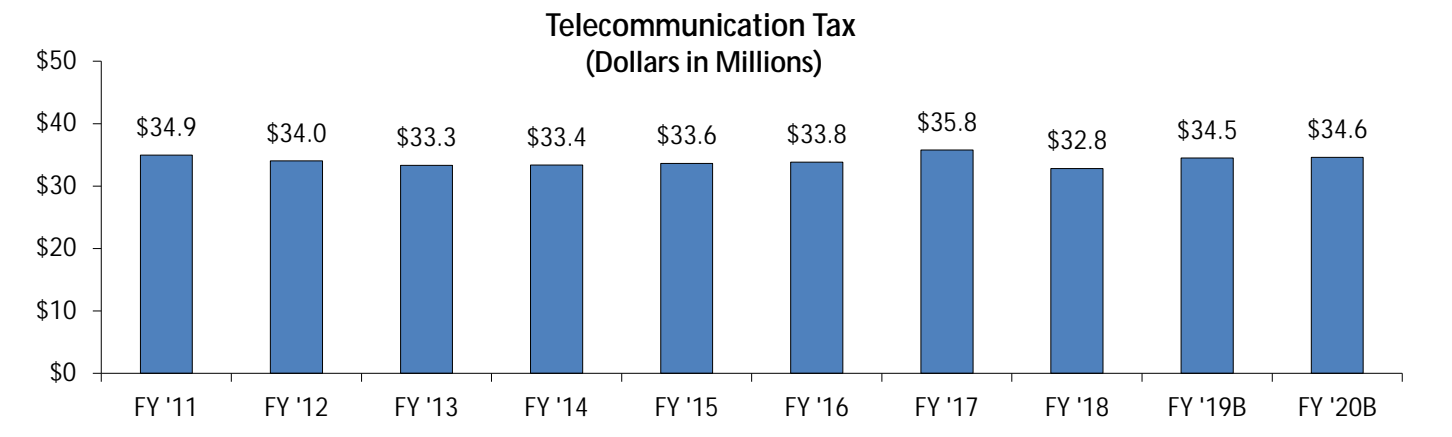

be the use of transportation network companies or ridesharing alternatives such as Uber and Lyft, and dockless vehicles, which reduce the use of garage facilities and related revenues to the City. Additionally, construction activity, especially in Harbor East and Fells Point, has taken out metered parking spaces, reducing some of the highest revenue generating metered parking areas.

Primary generators of parking revenue include the parking tax, meters and fines, penalties on parking fines, and City-owned garages. The Fiscal 2020 Budget includes a reduction of \$1.8 million in meter revenues based on Fiscal 2019 activity. Also, the Budget takes into consideration the decline experienced in recent years in the number of parking citations. In Fiscal 2018 citations for parking violations decreased 11.7%, compounding the 5.5% decline that occurred in Fiscal 2017. To reflect this trend, the Fiscal 2020 Budget assumes a \$0.7 million reduction from this revenue source, from \$14.6 million in Fiscal 2019.

Telecommunication Tax

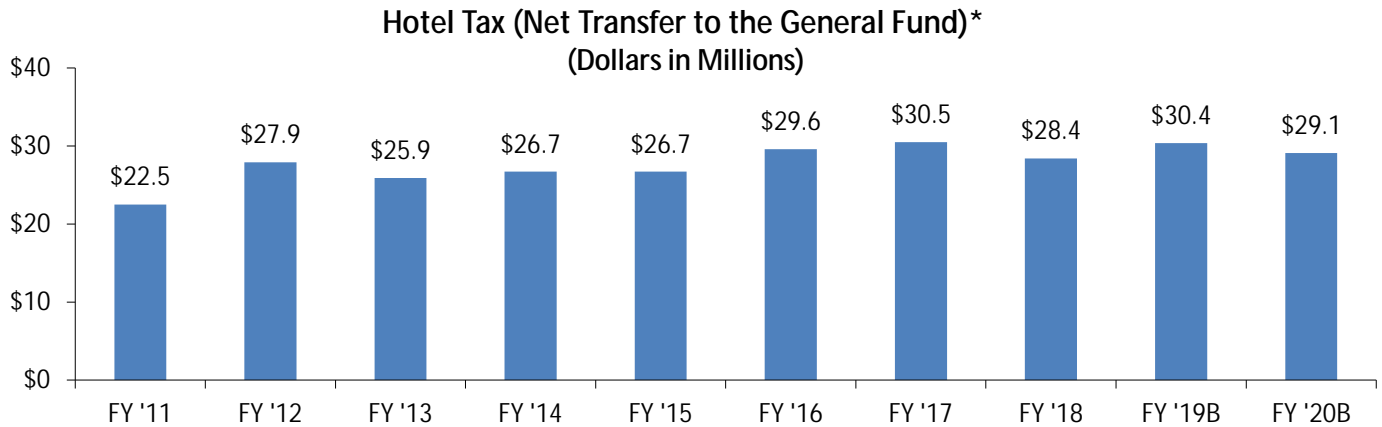

Telecommunication Tax revenue for Fiscal 2020 is budgeted at \$34.6 million, an increase of \$0.1 million compared to the Fiscal 2019 Budget. The Telecommunication Tax is charged at a rate of \$0.40 per month for each Centrex local exchange line and \$4.00 per month for every other wireless or wired line.

Hotel Tax

Hotel Tax revenue for Fiscal 2020 is budgeted at \$33.6 million, a \$1.3 million decrease from the Fiscal 2019 budgeted amount. After subtracting the \$4.6 million Baltimore Convention Center debt service payment, the net hotel tax receipts transferred from the Convention Center Bond Fund (CCBF) to the General Fund are projected at \$29.1 million. In Fiscal 2020 the City will complete its final debt service payment of \$1.8 million for renovations completed in 1997. Any proceeds remaining in the Convention Center Bond Fund will be used to offset future Convention Center expansion or renovation.

Occupancy rates and revenues experienced year-over-year declines when comparing data for Calendar Year 2018 to that of 2017, according to reports published by Smith Travel Research. Each category declined by 4.5%, with occupancy rates and revenues declining by 3.0% or \$16.8 million, respectively. The number of total hotel rooms in the City increased by about 4%, or 12,800, on a monthly basis. This growth is the primary driver of declining occupancy rates and revenues, as there is more competition among providers, who in turn have reduced rates to attract guests.

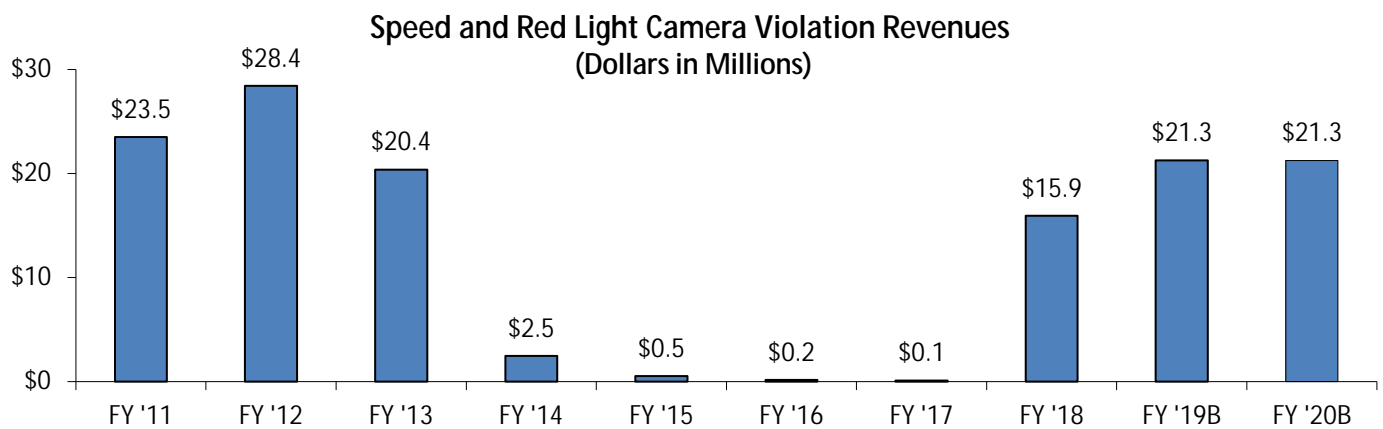

*Amounts shown represent total tax less convention center bonded debt service.

Under State law, 40% of gross Hotel Tax receipts are appropriated to the local tourism bureau, Visit Baltimore. If revenue from a prior fiscal year differs from the budgeted amount, Visit Baltimore receives 40% of this difference during the next fiscal year. Additionally, Hotel Tax revenues generated by the Convention Center Hotel are reserved to pay for the debt service on the hotel. The following table shows the amount of Hotel Tax revenue that remains after servicing debt for the Convention Center, and the net General Fund appropriation after additional commitments to the Convention Center Hotel and Visit Baltimore.

Appropriation Category	Fiscal 2018 Actual	Fiscal 2019 Budget	Fiscal 2020 Budget
Hotel Tax Revenue	32,985,926	34,926,100	33,662,625
Convention Center Debt Service	(4,580,088)	(4,562,625)	(4,562,625)
General Fund Subtotal	28,405,838	30,363,475	29,100,000
Convention Center Hotel	(2,979,133)	(3,059,000)	(3,430,690)
Visit Baltimore	(14,048,111)	(14,602,572)	(13,169,020)
Net Hotel Tax in General Fund	11,378,594	12,701,903	12,500,290
% of Actual Hotel Tax	34.5%	36.4%	37.1%

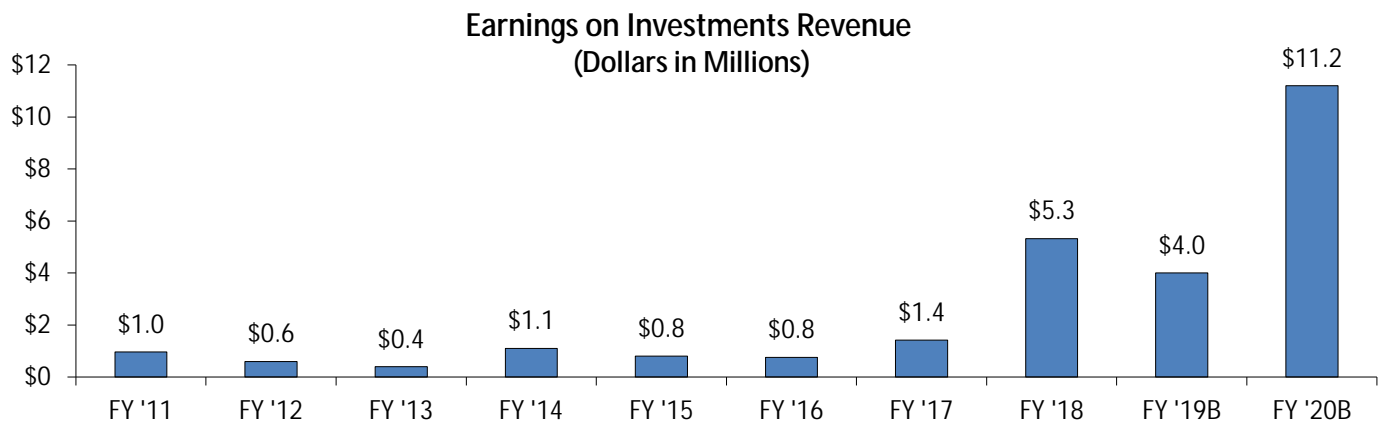

Speed Cameras and Red-Light Violations

Traffic camera revenue for Fiscal 2020 is budgeted at \$21.4 million; this figure represents virtually no change from the prior year Budget. In Fiscal 2018, the City reintroduced an automated traffic camera program after suspending the initial program in Fiscal 2013 for technical and contractual reasons. As of March 1, 2019, there are 96 red light and 75 speed cameras in operation. The traffic camera program is scheduled to expand, to include 100 of each camera type in Fiscal 2020. However, the Fiscal 2020 Budget remains conservative due to drivers' adaptive behavior and the decline of citations that is supported by data from existing cameras. By State Law, cameras are located within a half-mile radius of schools and are added based on requests directly from constituents, after a review process by the City's Department of Transportation.

Earnings on Investments

The City anticipates earning \$11.2 million on cash investments for Fiscal 2020; just less than triple the Fiscal 2019 Budget, but still about 31% lower than Fiscal 2007 when these returns peaked at \$16.2 million. Earnings on investments are the returns on the daily cash balances in the City Treasury and are a function of interest rates. The primary objectives of the City's investment activities are to preserve capital, safely satisfy liquidity needs, diversify investments, and maximize returns consistent with strict adherence to the limitations of the investment policy. The Fiscal 2020 Budget is based on revised estimates provided by the City's Bureau of Treasury Management and is higher due to a series of rate increases to-date, which have added to investment returns. As of March 2019, the Average Annual Earnings rate was 2.03%.

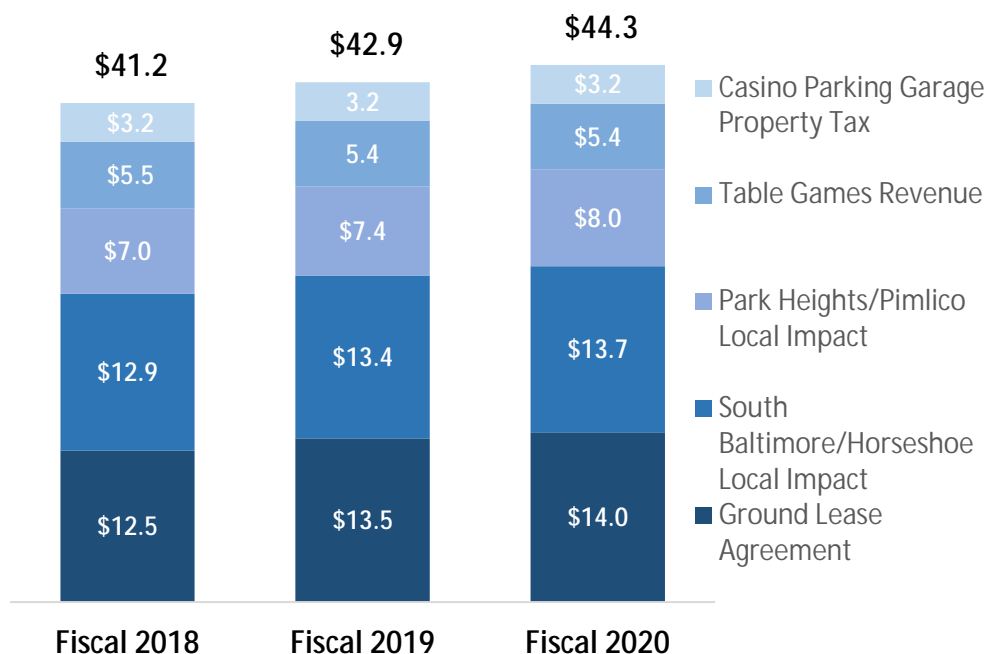

Other Sources of Revenue

In addition to the major revenues referenced in this section, the City has over 150 other General Fund revenue sources that are projected to generate nearly \$210.1 million in Fiscal 2020. This represents an increase of \$11.3 million over the Fiscal 2019 Budget, or 5.7%. The largest examples of these revenues include contributions from Prior Year Fund Balance (\$28.0 million), Charges for Central City Services (\$15.0 million), Video Lottery Terminals (\$12.6 million), sanitation and waste removal related revenues (\$11.0 million), and building construction related permits and fees (\$9.7 million).

Casino-Video Lottery Terminals and Table Games

The City receives casino-related revenue to support local neighborhoods impacted by the Pimlico Race Track and Horseshoe Casino, as well as funding to support citywide school construction, parks and recreation projects, property tax relief, and the General Fund at large. The chart below displays the three-year Budget history for each category of casino-related revenue.

The Fiscal 2020 allocations adhere to the following funding formulas:

Horseshoe Ground Lease Agreement Revenue - \$14 million

- The ground lease payment from Horseshoe Casino to the City is calculated at either 2.99% of the Casino's gross gaming revenue or an alternate minimum payment amount determined by the contract, whichever is higher.
- The Fiscal 2020 budgeted payment is the minimum payment of \$14 million.
- Of this amount, 90% is allocated to the General Fund to support the Targeted Homeowners Tax Credit (THTC) and 10% is dedicated to school construction.

Ground Lease Agreement	Fiscal 2020 Budgeted
Minimum Ground Lease Payment	14 million
THTC (90%)	12.6 million
School construction (10%)	1.4 million

South Baltimore/Horseshoe Casino Local Impact Fund - \$13.7 million

- The state combines gross terminal revenue from Video Lottery Terminals (VLTs) at Maryland Live, MGM National Harbor, and Horseshoe Casinos.
- 5.5% of total combined VLT revenue is used as the starting point for the City's local impact fund allocation.
- 82% of the 5.5% total combined VLT revenue is then equally divided among Baltimore City, Anne Arundel, and Prince George's counties, with the City receiving approximately 27.3% of this amount.
- The Fiscal 2020 projection for Baltimore City is \$13.7 million; \$300,000 higher than the Fiscal 2019 Budget.

- State law requires that 50% of the City's allocation must be remitted to the South Baltimore Gateway Community Benefits District to support local projects.
- The remaining 50% is budgeted for core City services within one mile of the casino area, such as the Police sub-station, Fire unit, traffic enforcement, sanitation, and employment development, among other projects.

South Baltimore/Horseshoe	Fiscal 2020 Budgeted
Baltimore City Allocation (27.3%)	13.70 million
South Baltimore District (50%)	6.85 million
Horseshoe One-mile Radius (50%)	6.85 million

Park Heights/Pimlico Local Impact Fund - \$8 million

- The remaining 18% of the 5.5% of total combined VLT revenue is dedicated to Baltimore City.
- Of the 18% distribution, \$1 million is withheld for Prince George's County and smaller jurisdictions; \$500,000 less will be withheld in Fiscal 2020, compared to the Fiscal 2019 Budget.
- The Fiscal 2020 revenue projection is \$8.0 million; \$600,000 million higher than the Fiscal 2019 Budget.
- At least 75% of the funds must be spent in the Park Heights neighborhood; in Fiscal 2020 the City will allocate 85% for this purpose.
- The remaining funding must be spent within a one-mile radius of the Pimlico Race Track.

Park Heights/Pimlico	Fiscal 2020 Budgeted
Baltimore City Allocation (18%)	8.0 million
Park Heights (85%)	6.8 million
Pimlico One-mile Radius (15%)	1.2 million

Table Games Revenue - \$5.4 million

- Baltimore City receives 5% of gross Table Games revenue generated solely by the Horseshoe Casino.
- The Fiscal 2020 revenue projection of \$5.4 million is unchanged from the Fiscal 2019 Budget.
- State law requires that 50% of the funding be used to support citywide parks and recreation projects and 50% be allocated for school construction debt service.

Table Games Revenue	Fiscal 2020 Budgeted
Baltimore City Allocation (5%)	5.4 million
Parks and recreation (50%)	2.7 million
School construction (50%)	2.7 million

Casino Parking Garage Property Tax Agreement - \$3.2 million

- As part of the Horseshoe Casino Ground Lease Agreement, the City grants a partial credit on the Real Property Tax due from the Casino's garage.
- If the net tax due is less than \$3.2 million, the Casino must make an additional contribution so that the total minimum guarantee to the City equals \$3.2 million.
- The Casino garage's Real Property Tax net of credits has never exceeded \$3.2 million, and the Fiscal 2020 projection continues to assume the minimum guarantee.
- This revenue supports the General Fund at large.

Casino Parking Garage	Fiscal 2020 Budgeted
Minimum Guarantee	3.2 million

Summary of City Real Property Tax Credit Programs

The table below describes tax expenditure costs for all locally authorized Real Property Tax Credit programs. In Fiscal 2020, the City budget estimates Real Property Tax Credit expenditures totaling approximately \$123.7 million. This represents a decrease of \$83,000 compared to the total Fiscal 2019 projected expense of nearly \$123.8 million.

	Fiscal 2019 Projection	Fiscal 2020 Budget
<u>Homestead Tax (104% Assessment Phase-In)</u>		
A 4% taxable assessment increase cap on owner-occupied dwellings.	27,771,000	25,041,000
<u>Targeted Homeowners Tax Credit</u>		
An annual credit based on improvement assessment values. The credit is granted to owner-occupied properties only.	30,402,000	35,941,000
<u>Enterprise Zone Property Tax Credit (EZTC)</u>		
A 10-year tax credit (80% in the first 5 taxable years and declining by 10 percentage points thereafter) in designated State Enterprise Zones on the increased value of a commercial property after improvements. Includes EZTC costs for real property taxes, personal property taxes, and PILOT projects.	24,541,000	24,294,000
<u>Historic Restoration and Rehabilitation Property Tax Credit</u>		
A 10-year tax credit (100% for projects with costs below \$3.5 million; and 80% in the first 5 taxable years and declining by 10 percentage points thereafter for projects with costs above \$3.5 million) on the increased value of a historic property due to improvements.	10,250,000	11,746,000
<u>Brownfields Property Tax Credit</u>		
A five-year tax credit (50%, except for projects that spend more than \$250,000 in eligible work, in which case it is 70%) on the increased value of brownfields sites after eligible improvements are made. For sites located in a State-designated Enterprise Zone areas, the credit is for a 10-year period.	19,531,000	16,556,000
<u>Supplemental Homeowner's Property Tax Credit</u>		
An annual credit providing additional tax relief to low-income City residents eligible for the existing State Homeowner's tax credit.	1,600,000	1,600,000
<u>High-Performance Market-Rate Rental Housing Property Tax Credit</u>		
A 15 and 10-year tax credit (15-year if project is located within a targeted area and 10-year for all other City locations) on the increased assessment value of improvements on the construction or conservation of high-performance market rental housing. The 15-year credit is 100% for the first two taxable years, 80% for the following three, 70% and 60% for the next two, 50% for the following three, and declining by 10 percentage point annually thereafter. The 10-year credit is structured the same as the EZTC.	6,801,000	5,260,000
<u>Newly Constructed Dwelling Property Tax Credit</u>		
A five-year tax credit (50% in the first taxable year and declining by 10 percentage points thereafter) on newly constructed or city owned, vacant rehabbed dwellings.	2,300,000	2,110,000
<u>Other Local Option Property Tax Credits</u>		
Includes costs of the Public Safety Officers, Neighborhood Preservation, Vacant Dwellings, Fallen Heroes, Portability, and Cemetery Dwellings property tax credit programs.	561,000	1,126,000
Total	123,757,000	123,674,000

Note: Difference vs. Major Revenues Forecast is due to rounding

Budgetary Funds and Projected Revenues

General Fund

Fiscal 2020 General Fund

Total: \$1,967.2M

(May not add due to rounding)

Policy and Objectives

The General Fund is the City's principal fund, containing revenues which finance appropriations for both ongoing operating expenses and Pay-As-You-Go (PAYGO) capital projects. The budget for this fund includes all unrestricted revenues that support appropriations not required to be budgeted in another fund. Appropriations approved in the Ordinance of Estimates or in supplemental appropriations may be for any program or activity not prohibited by the City Charter, public local law or other applicable law. Six major types of revenues comprise 95.6% of the \$1.97 billion Fiscal 2020 budget. The six types of revenue are Local Taxes, State Grants, State Highway User Revenue, Charges for Current Services, Revenue from the Use of Money, and Property Licenses and Permits. Revenue Transfers represent revenue in excess of expense requirements in certain other funds that are available to the General Fund, most significantly the Parking Management Fund.

Major Revenues

Local Taxes: Local Taxes, not including State Highway User Revenues, represent 76.7% of total General Fund revenues and

funding sources. The largest share (65.5%) of local taxes comes from current year Real and Personal Property Tax receipts. Budgeted Income Tax revenue represents 24.3% of local tax revenues. Sales and Service tax levies are imposed on energy consumption, telecommunication lines, property transfers, and hotel occupancy. These revenues are estimated at \$147.8 million or 9.8%.

Local Taxes (76.7%)		
Property Taxes	\$987.1	M
Income Tax	\$366.8	M
Sales and Service	\$147.8	M
Others	\$6.4	M
Total Taxes - Local	\$1,508.0	M

State Highway User Revenues: Highway User Revenue (HUR) is distributed by the State from Gas Tax, Titling Tax and vehicle registration fee revenues. The anticipated State HUR for Fiscal 2020 is \$157.4 million, which is \$14.5 million higher than the Fiscal 2019 budget. The projected increase reflects a change to State law that passed in 2018, raising the City's share of total Statewide HUR revenue from 7.7% to 8.3% for each year from Fiscal 2020 to Fiscal 2025. Revenues from the HUR must be used for projects related to the operational maintenance of city rights-of-way, such as street resurfacing, bridge repair, street tree trimming, traffic management, etc.

State Highway User Revenues (8.0%)		
State Highway User Revenues	\$157.4	M
Total	\$157.4	M

State Grants: The largest State grant is the Income Tax Disparity Grant with \$76.6 million budgeted in Fiscal 2020, followed by the Teachers Retirement Supplemental grant of \$10.0 million. Other sources of State revenue include funding for operations of local health programs and other grants to support library services, amounting to \$8.6 million and \$6.7 million respectively. The distribution of the Income Tax Disparity Grant is based upon a statutory formula created in 1992 by the Maryland General Assembly. The grant is made in order to bring the per capita income tax yield of Maryland's poorer subdivisions up to 75.0% of the State-wide yield. In Fiscal 2013 the State transferred a share of the teacher's retirement costs to all jurisdictions. In order to offset this cost, the Maryland General Assembly approved a \$10.0 million supplemental grant for teacher pension and maintained the Fiscal 2013 Disparity Grant appropriation level of \$79.1 million through Fiscal 2016. Both the Local Health Operations Grant and Library Services Grant are budgeted relatively similar to the Fiscal 2019 budget amounts; the combined budget estimate increased by approximately \$350K in Fiscal 2020.

State Grants (5.2%)		
Income Tax Disparity	\$76.6	M
Teachers Retirement Supplemental Grant	\$10.0	M
Local Health Operations	\$8.6	M
Library Services & Other	\$6.7	M
Total	\$101.9	M

Charges – Current Services: In the Charges for Current Services group, revenues that derive from overhead charges to City enterprise funds, Impounding Vehicle and Highway Fees, and Sanitation and Waste Removal account for 74.5% of the category total. The remaining revenues, including lien report fees, District Court services, port fire protection

reimbursement, and stadium security service charges are generated from fees and charges for health, zoning, and a wide variety of other services rendered by the City.

Charges - Current Services (2.6%)		
Charges for Central City Services	\$15.0	M
Impounding Vehicles and Highway Fees	\$12.2	M
Sanitation & Waste Removal	\$11.0	M
Other	\$13.1	M
Total	\$51.3	M

Licenses & Permits: Three major groups comprise Licenses and Permits: Public Safety & Regulations; Business, Alcoholic Beverage, and Marriage Licenses; and all Other Licenses & Permits. The Public Safety and Regulation group, composed of building, housing, animal control and certain trades' permits, accounts for the majority of the revenue in this category at \$24.0 million. The 5% Cable Franchise Fee is captured within the Public Safety & Regulations group. The City's power to raise revenues from this source is constrained by Federal and State law. Certain license fees, including alcoholic beverage, marriage and some business licenses are also set by State law. Other Licenses & Permits includes Food Dealer Permits, Minor Privilege Permits, and Special Event Permits.

Licenses & Permits (1.7%)		
Public Safety & Regulations	\$24.0	M
Business, Alcoholic Beverage & Marriage Licenses	\$3.5	M
Other License & Permits	\$5.6	M
Total	\$33.1	M

Fines and Forfeits: Fines and Forfeits are primarily composed of Traffic Camera revenue, revenue derived from environmental citations, and forfeiture revenues. In Fiscal 2020, the City is expanding the traffic camera program that was reintroduced in Fiscal 2019. The Fiscal 2020 traffic camera revenue estimate is \$21.3 million, or 69.9% of Fines and Forfeits. Revenues from environmental citations decreased by \$1.2 million from Fiscal 2019 to Fiscal 2020 (\$6.5 million), representing 21.4% of the total revenue in this category. Revenues from Forfeitures Drug/Gambling Contraband total \$1.9 million or 6.3% of the total for this category.

Fines and Forfeits (1.6%)		
Traffic Cameras	\$21.4	M
Environmental Control Board	\$6.5	M
Forfeitures Drug/Gambling Contraband	\$1.9	M
Other	\$0.7	M
Total	\$30.5	M

Use of Money and Property: The largest Use of Money and Property revenue source is the revenue associated with the Earnings on Investments. Total income generated by Earnings on Investments accounts for 39.2% or \$11.2 million. Other large revenue sources in this category include Convention Center (\$9.8M), the Rental of City Property (\$2.5M), and

revenue tied to the Southwest Resource Recovery Facility lease (\$2.1M). All other revenues in this category amount to \$3.0 million.

Use of Money and Property (1.5%)		
Earnings on Investments	\$11.2	M
Convention Center	\$9.8	M
Rental of City Property	\$2.5	M
Southwest Resource Recovery Facility	\$2.1	M
Other Revenues	\$3.0	M
Total	\$28.5	M

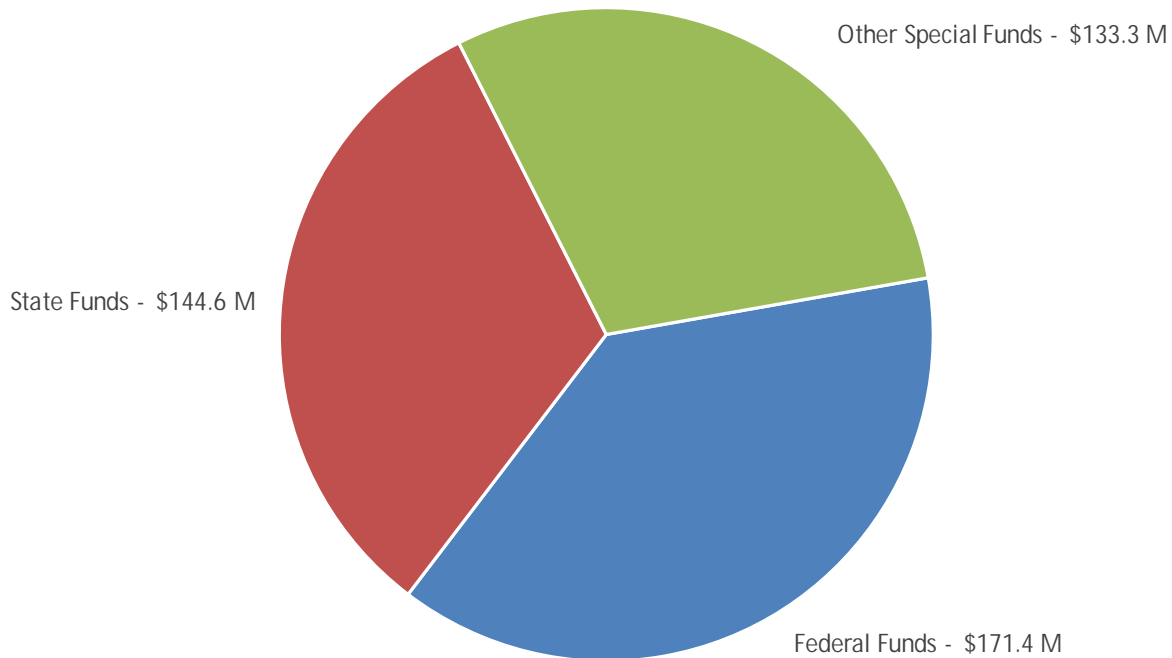

Other Revenues and Transfers: In addition to the revenues listed above, the General Fund receives about \$56.6 million, or 2.9%, in other revenues and net transfers from other funds. There are two major components to the Revenue Transfers portion of the budget: the transfer from the parking funds (\$36.8 million) and the transfer to the Children's Fund. In Fiscal 2017, City residents voted to pass a measure that would dedicate funding to this new fund. The total transfer to this fund is \$13.1 million in Fiscal 2020. In Fiscal 2020, \$28.0 million of the Other Revenues category is from the Prior Year Fund Balance. In order to cover the funding gap for City schools, money is being taken from Fund Balance to help bridge the deficit.

Other Revenues and Transfers (2.9%)		
Net Revenue Transfers	\$23.7	M
Other Revenues	\$32.9	M
Total	\$56.6	M

Federal, State and Grant Funds

Fiscal 2020 Federal, State & Other Special Funds

Total: \$449.4M

(May not add due to rounding)

Policy and Objectives

These dedicated grant funds were established to appropriate operating revenues received from Federal, State, and private sources. The funds are restricted by law, contract or regulation to expenditures for specific purposes. Revenues from Federal, State and special purpose grants are recognized for accounting purposes at the time the specific designated expenditures are made. Budget appropriations for dedicated grant funds represent spending authority allowance for grants anticipated to be received during the budget year.

Major Revenues

The Fiscal 2020 Federal Fund operating appropriation is budgeted at \$171.4 million, \$5.5 million higher than in Fiscal 2019. Permanent Housing for the Homeless increased by \$2.2 million and Maternal and Child Health Services increased by \$1.8 million from the Fiscal 2019 budget. A budgeted amount of \$2.0 million was added for Public Right-of-Way Cleaning.

The Fiscal 2020 State aid budget is \$144.6 million, \$23.4 million higher than the Fiscal 2019 operating appropriation. Programs receiving additional State funding in Fiscal 2020 include Administration and Information Technology (\$11.8 million additional), HIV Treatment Services for the Uninsured (\$8.9 million additional), and the Youth Works Summer Jobs

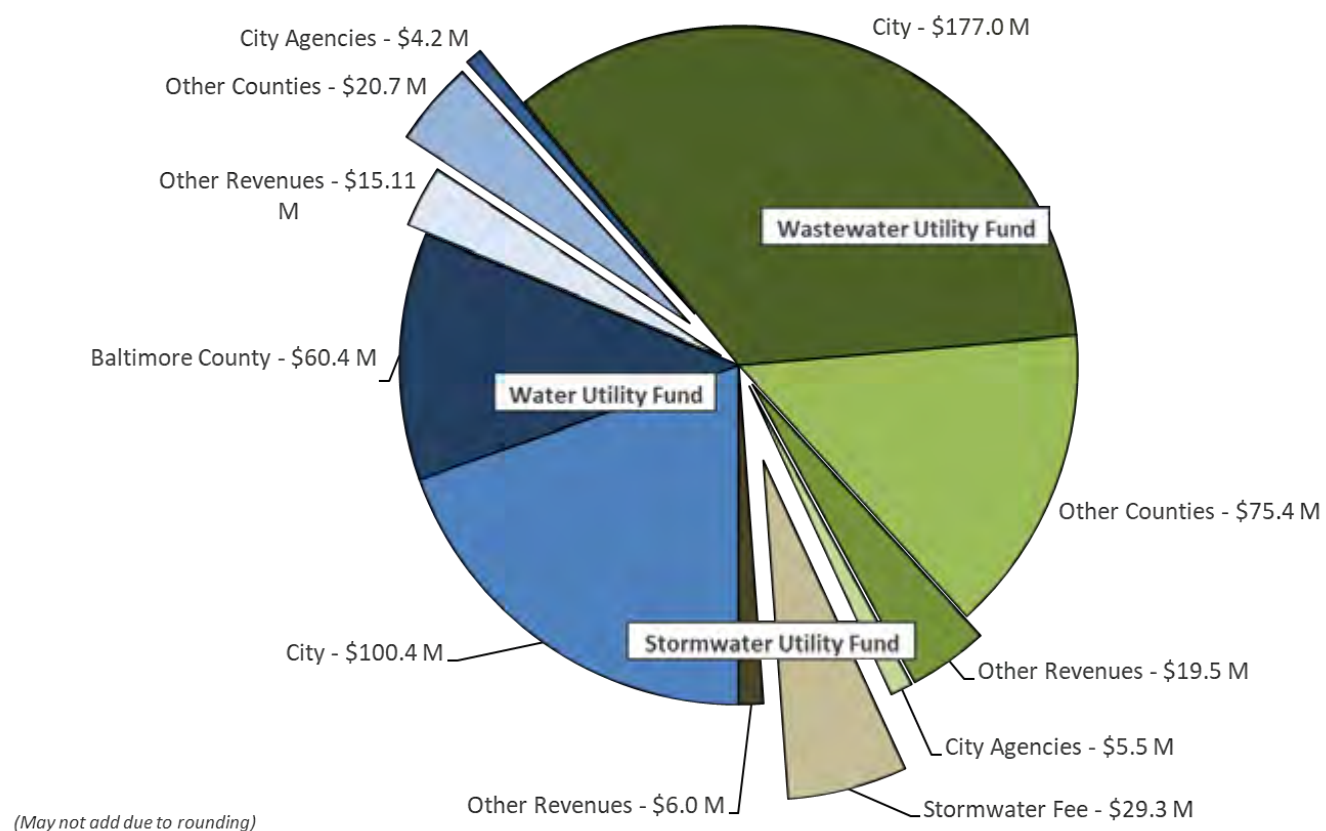

Program (\$1.9 million additional). A \$8.5 million decrease in funding for Public and Private Energy Performance partially offsets these decreases.

The Special Fund budget for Fiscal 2020 is \$133.3 million, \$15.7 million higher than the Fiscal 2019 appropriation. Changes in the Fiscal 2020 appropriation include adding \$17.0 million to fund Affordable Housing, \$5.0 million to Health Services for Seniors, and \$2.8 million to Fire Communications and Dispatch.

Water, Wastewater and Stormwater Funds

Fiscal 2019 Water, Wastewater & Stormwater Utility Funds

Total: \$513.4M

Policy and Objectives

A Charter Amendment approved in 1978 established the Water and Wastewater Utility Funds as two separate enterprises. The utility funds must be financially self-sustaining, as well as operated without profit or loss to other City funds. The establishment of these two funds enables the City to issue revenue bonds to finance related capital improvements. Ordinance 941, passed in December 1978, requires the Board of Estimates, upon recommendation of the Director of Finance and the Director of Public Works, to establish rates and charges sufficient to make the two utility funds self-supporting. Nearly all the funding sources for the utility operations come from the sale of services. Rates vary depending on volume, level of treatment and distribution costs. In the case of industrial users, rates vary according to the types of contaminants discharged into the Wastewater system. In September 2016 the City's Board of Estimates passed legislation

that approved a three-year schedule of annual increases of water and wastewater rates by 9.9% and 9%, respectively, in order to fund additional capital projects for the system. The final set of rate increases was implemented on July 1, 2018.

Major Revenues

Water Utility: The City supplies treated water to its residents, as well as to residents of Baltimore, Harford, and Howard counties. Untreated water is sold at wholesale rates to Carroll and Harford counties. The rate schedules are established pursuant to Board of Estimates' actions and, in the case of Baltimore County, are subject to provisions of State law and City/County agreements regarding cost allocation. The law and agreement with Baltimore County obligate the City to supply water at cost. The City and County allocate operating and maintenance costs on all jointly used facilities. Baltimore City customers, including City agencies, are expected to account for about 52.3% or \$110.9 million of total user charges in Fiscal 2020. Baltimore County customers provide 29.8% or \$63.1 million, and the remaining balance comes from Carroll, Harford and Howard counties, late penalties, and other minor service charges. Fiscal 2020 revenues and funding sources are estimated to be \$212.0 million.

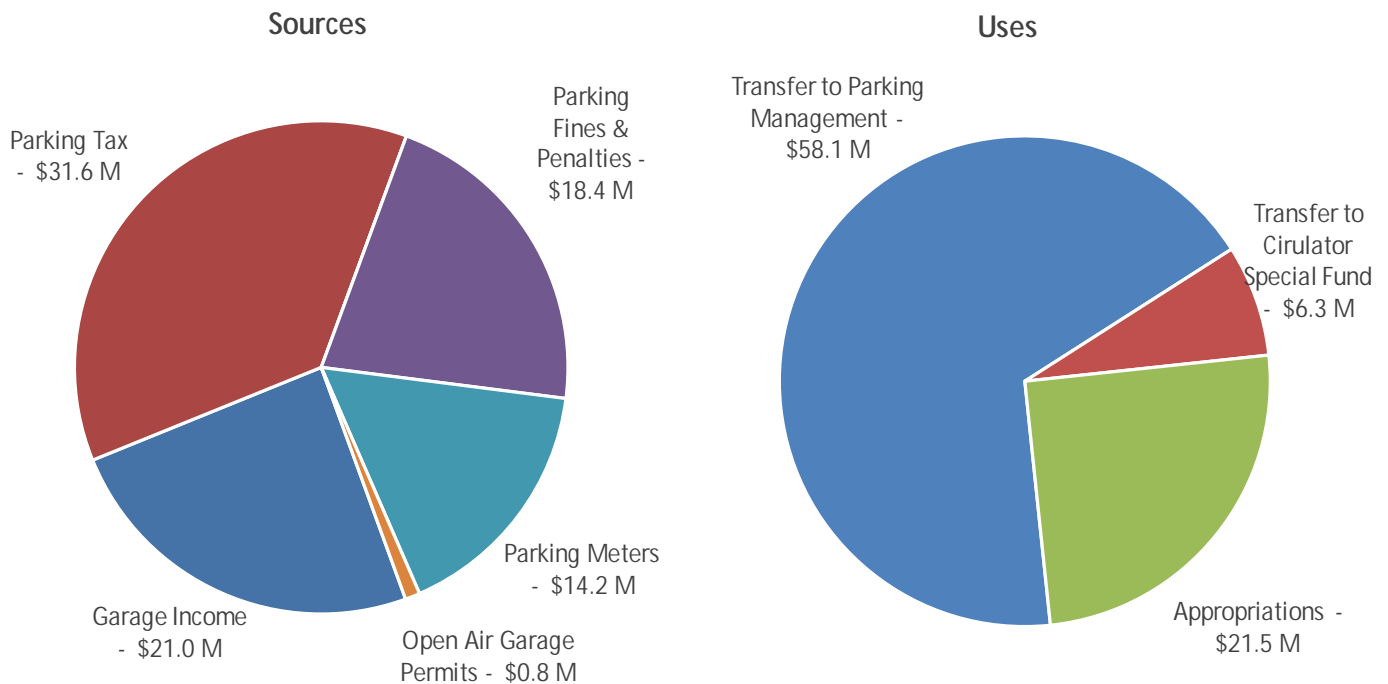

Wastewater Utility: Baltimore and Anne Arundel counties, pursuant to agreements with the City, pay into the Wastewater Utility Fund a proportional amount based on the sewage treated at the Back River and Patapsco treatment plants. These counties also pay a portion of the capital expenses of jointly used wastewater facilities. City customers, including City agencies, provide approximately 69.4% or \$204.0 million of total user charges while Baltimore and Anne Arundel counties and other service charges comprise the balance. Fiscal 2020 revenues and funding sources are estimated to be \$293.7 million.

Stormwater Utility Fund: The Stormwater Utility Fund, established for the Fiscal 2014 Budget, was created with the purpose of planning and budgeting for the capital and operating expenses associated with the City's stormwater management system. In 2012, the Maryland General Assembly passed a law mandating that certain jurisdictions, including the City, create a watershed protection program beginning July 1, 2013. A user fee provides a dedicated revenue source for the purpose of enabling the City to meet State and federal water quality requirements, improving water quality and flood control, reducing runoff into the harbor, and expanding green space. The Fiscal 2020 Stormwater Fee is estimated to generate \$30.1 million, representing a slight excess of the budgeted operating needs of \$29.4 million. The \$1.0 million excess will be transferred to the fund balance.

Parking Enterprise Fund

Fiscal 2020 Parking Enterprise Fund

Sources and Uses
Total Fund Sources: \$86.0M
Net Fund Sources: \$21.5M

(May not add due to rounding)

Policy and Objectives

The Parking Enterprise Fund was established in 1983 to budget for parking related revenues and debt service expenses resulting from parking revenue bonds, notes and other revenue obligations. The City issues debt to finance acquisition or construction of parking facilities. Revenue from garage operations and installment purchase payments received from developers are deposited in the fund and are designated to support the debt service obligation of the fund. Parking taxes, open-air garage licenses, parking fines, penalties on parking fines and parking meter revenues also are deposited in this fund. These revenues provide a guaranteed flow of income and an additional security for the payment of debt service. Providing that debt service obligations and other security requirements of the fund are met, the City is permitted to transfer monies from the Parking Enterprise Fund. Revenues in excess of debt service and operating expense requirements are transferred to the Parking Management Fund.

Major Revenues

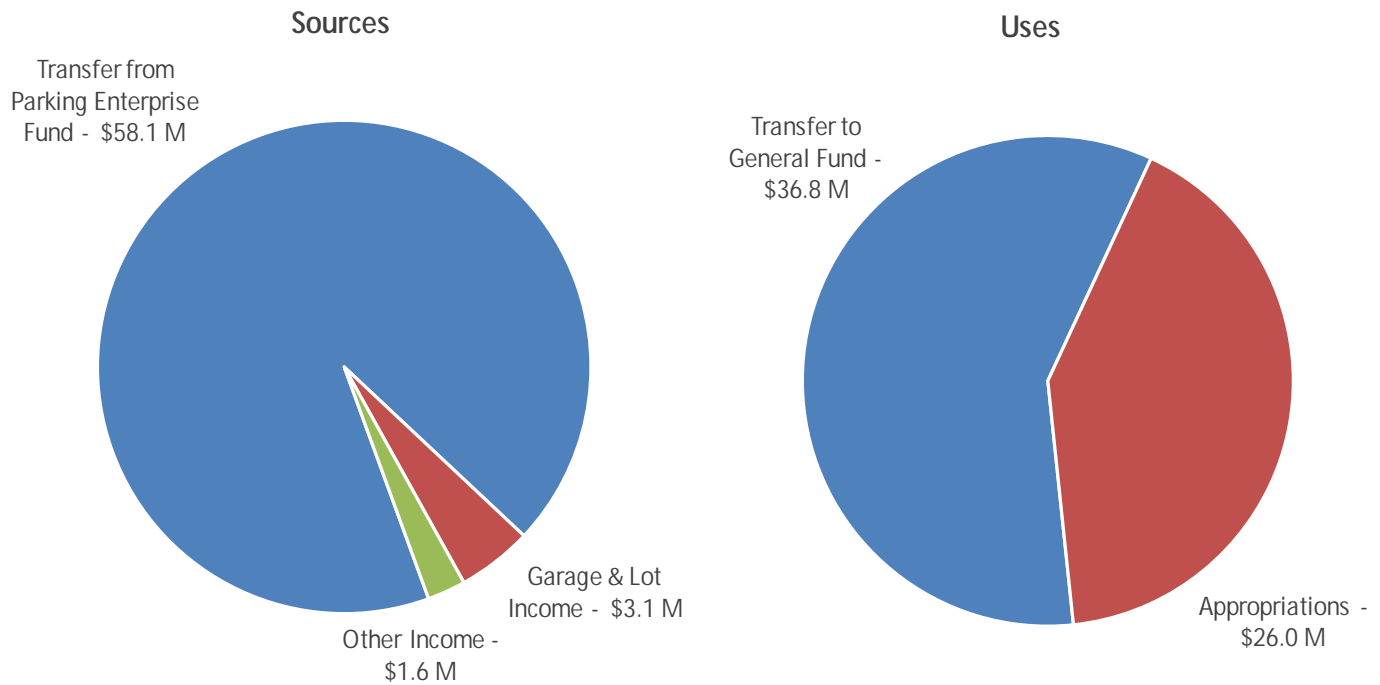

The Parking Taxes, Parking Fine, Penalties on Parking Fines, and Garage Income generate 82.6% of the Parking Enterprise Fund revenues. Twenty percent of the Parking Tax rate continues to fund operations and capital expenses for the free harbor bus shuttle service, the Charm City Circulator. The Fiscal 2020 Parking Enterprise Fund revenues are estimated to total \$86.0 million. Out of this total, \$21.5 million is to support operating and debt service requirements, \$6.3 million to be transferred to the Circulator Special Fund, and the remaining \$58.1 million to be transferred to the Parking

Management Fund.

Parking Management Fund

Fiscal 2020 Parking Management Fund

Sources and Uses
Total Fund Sources: \$62.8M
Net Fund Sources: \$26.0M

(May not add due to rounding)

Policy and Objectives

The Parking Management Fund was established in Fiscal 1992 to budget for parking activities exclusive of those expenses funded by the Parking Enterprise Fund. Taken together, the activities of the two funds provide a more complete accounting for the City's entire parking operations. The Parking Management Fund supports appropriations for on-street activities including the parking meter system, parking enforcement and special parking programs and off-street parking activities including parking lots and garages financed by general obligation bonds or other General Fund sources. The primary purpose of the fund is to achieve clear management accountability and improve performance of all parking activities in order to increase revenues and improve public services in the most cost-effective manner. The Parking Management Fund is a budgetary fund. The results of fiscal operations of the fund are combined with the General Fund in the City's Comprehensive Annual Financial Report.

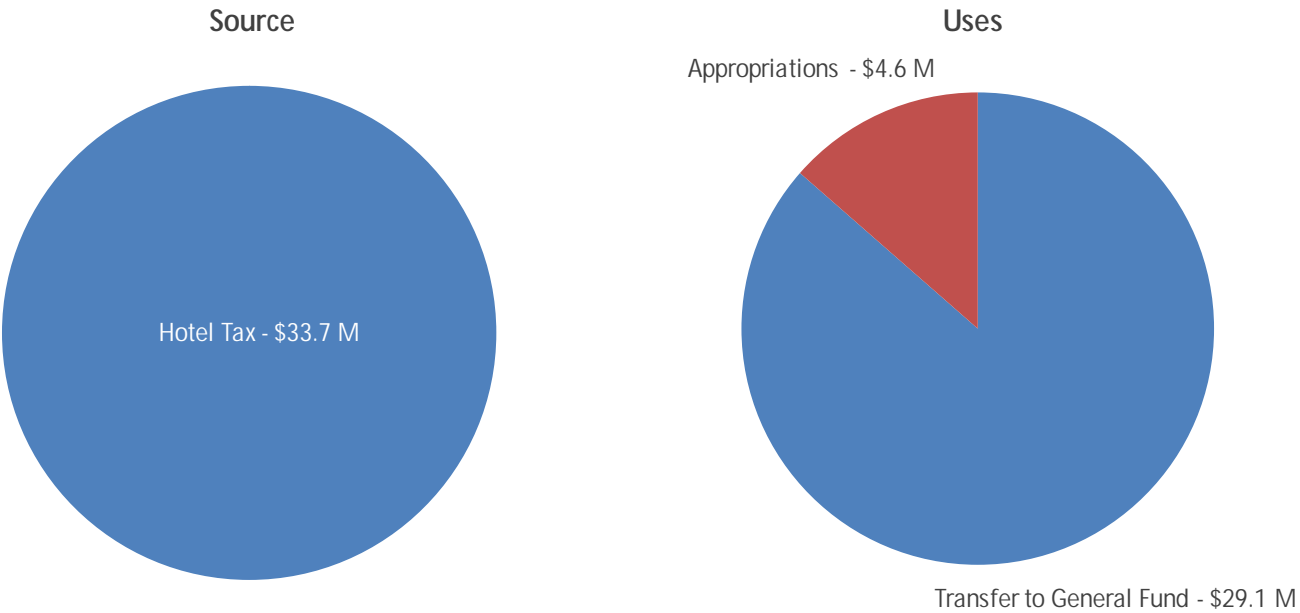

Major Revenues

Revenues earned by fund operations total \$4.7 million. Income from City-owned parking lots and garages of \$3.1 million makes up the bulk of these revenues. Transfers from the Parking Enterprise Fund, \$58.1 million, are required to supplement fund revenues to support expenditure requirements of \$26.0 million. After expenses are met, an estimated

\$36.8 million in revenues are transferred to the General Fund in Fiscal 2020. The primary expenses for the fund include debt service payments, taxes, and licensing fees that the City pays for the garages.

Convention Center Bond Fund

Fiscal 2020 Convention Center Bond Fund
Sources and Uses
Total Fund Sources: \$33.7M
Net Fund Sources: \$4.6M

(May not add due to rounding)

Policy and Objectives

The Convention Center Bond Fund was established in Fiscal 1995 to budget for hotel tax revenue to be dedicated to support the payment of principal and interest associated with City indebtedness incurred to finance one-third of the \$151.0 million cost of the joint City-State expansion of the Baltimore Convention Center. The fully expanded and renovated Convention Center facility reopened in April 1997. The Convention Center Bond Fund is a budgetary fund. The results of fiscal operations of the fund are combined with the General Fund in the City's Comprehensive Annual Financial Report.

Major Revenues

The sole revenue source for the fund is the 9.5% sales and service tax levied on transient room rentals at hotels, motels and bed and breakfast facilities located in the City. Fiscal 2020 tax receipts are estimated to be \$33.7 million. Total debt service expenses for the fund are appropriated at \$4.6 million. Hotel tax receipts in excess of the debt service expense appropriated in the fund, approximately \$29.1 million, will be transferred to the General Fund. As a result of legislation enacted by the 1997 Maryland General Assembly, the City must appropriate 40.0% of its estimated total hotel tax receipts

to support the operations of the Visit Baltimore Association. The legislative requirement for promotion funding is mandated through Fiscal 2022.

Conduit Enterprise Fund

Policy and Objectives

The Conduit Enterprise Fund was established in Fiscal 2002. The fund accounts for revenue from charges to non-City entities and City agencies renting space in the City-owned and operated underground conduit system. The conduit system is a unique public resource that provides access to substantial portions of the public right of way without the necessity of opening and closing streets and disrupting traffic that is common in many urban areas. The fund will appropriately highlight the costs of operations and funding reserve requirements in order to achieve clear management accountability and improve performance of conduit-related operations in the most cost-effective manner.

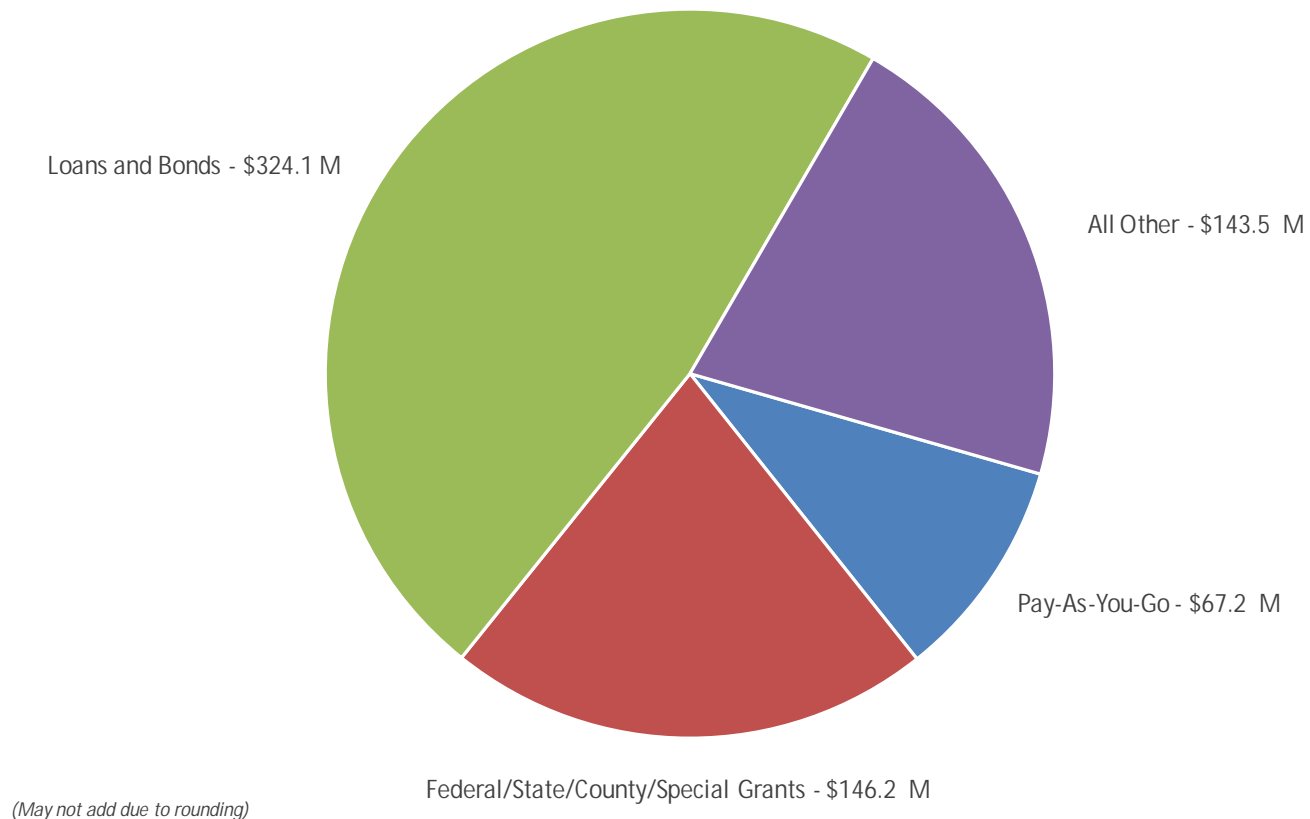

Major Revenues

The sole revenue source for the fund is the rental charge levied on City agency and other non-City users of the conduit system. The Fiscal 2020 receipts are estimated at \$35.3 million. Total expenses for the fund are appropriated at \$35.3 million. Rental receipts in excess of the current operating expenses are reserved for maintenance, capital and other requirements of the conduit system. The revenue potential from the conduit resource is enhanced as a result of Ordinance 00-116, which grants authority to establish both City and non-City charges for use of the public right of way that reflect the value of the right of way. The current rate for conduit occupancy is \$2.20 per linear foot.

Capital Fund

Fiscal 2020 Capital Fund

Total: \$627.5M

Policy and Objectives

Governmental accounting standards and the City Charter require operating revenues and expenses to be clearly distinguished from revenues and expenses associated with capital projects, e.g., the design, development, construction and extraordinary repair and rehabilitation of physical plant and facilities. The Board of Estimates has defined capital projects as physical improvements that cost more than \$50,000; equipment and items of repair and maintenance that cost more than \$100,000; Bureau of Water and Wastewater items of repair, maintenance or emergency nature costing more than \$250,000; and the salaries other than those that are properly capitalized as part of the project cost. Each capital project appropriation reflects all revenue sources used to finance the particular project. Major revenues are received from various sources, all of which comprise this fund.

Major Revenues

Excluding Pay-As-You Go funding, three types of funding sources (grants, loans and bonds, and all other) total \$516.2 million and comprise 82.3% of the Fiscal 2020 capital appropriations of \$627.5 million. The magnitude of the various funding sources changes significantly from year-to-year due to the timing of projects and grant funding. For instance, in Fiscal 2020, state grant funding is budgeted to decrease by \$53.7 million to \$26.2 million from Fiscal 2019. Pay-As-You-Go appropriations are budgeted to increase from \$67.2 million to \$111.2 million over Fiscal 2019 due to a Fiscal 2020 projected surplus. Issuance of general obligation bonds is set to increase by \$15 million to \$80 million for Fiscal 2020 due

to voter authorization.

The largest funding sources in the Fiscal 2020 capital budget are: \$329.6 million, or 52.5%, in Revenue, General Obligation, and County Transportation bonds; \$101.4 million, or 16.2%, in grants (\$75.2 million in Federal grants and \$26.2 million from State grants); and \$111.2 million (17.7%) in Pay-As-You-Go funding from current operating revenues. Other funding sources make up \$85.2 million, or 13.6%, of the total capital budget for Fiscal 2020.

Internal Service Fund

Policy and Objectives

This fund finances goods and/or services provided by certain City agencies to other City agencies on a cost reimbursement basis. In Fiscal 2020, \$144.0 million has been adopted for vehicle fleet repair and maintenance, print shop, post office, telephone, energy, telecommunication, risk management, rental of public buildings, and unemployment and worker's compensation services. These funds are to operate on a fully self-supporting basis, including the financing of reserves for capital equipment replacement.

FISCAL 2020

Operating Plan	2,927,937,780	+109,587,339	+3.9%
Capital Plan	627,464,000	-53,465,000	-7.9%
Total	3,555,401,780	+56,122,339	+1.6%

The total Fiscal 2020 appropriation plan recommended by the Department of Finance for the City of Baltimore is \$3.6 billion. This is an increase of \$56.1 million or 1.6% above the Fiscal 2019 Adopted Budget.

The two components of the total recommended appropriation plan are the Operating Budget Plan and the Capital Budget Plan. The Operating Plan is recommended at \$2.9 billion, which is an increase of \$109.6 million or 3.9%. The Capital Budget Plan is recommended at \$627.5 million, which is a decrease of \$53.5 million or 7.9%. More explanation regarding the Capital Budget Plan is available in the “Summary of Capital Budget Recommendations” section of this publication.

Description of Operating and Capital Funds

The Fiscal 2019 total capital and operating appropriations of \$3.5 billion are budgeted in the following funds:

General Fund: This is the City's largest and principal fund, supported by locally generated revenues and some State Aid. It is used to budget and account for all activities not required by law, accounting practice or management objective to be separately budgeted.

Special Purpose Budget Funds: The City's budget contains two special purpose budgetary funds, the Parking Management and Convention Center Bond funds. These funds are merged with the General Fund in the City's Consolidated Annual Financial Report. The Parking Management Fund budgets for the operations of on-street parking activities and operations of parking facilities supported by the General Fund. The Convention Center Bond Fund budgets for debt service supported by the City's hotel tax, a General Fund revenue.

Grant Funds: These funds are used to budget and account for all activities that have legally restricted uses supported by dedicated funds. This group consists of the federal, State and other special and private grant funds.

Enterprise Funds: These funds are used to budget and account for operations, including debt service, that are financed and operated as an ongoing concern, where costs of providing services (including depreciation) are financed or recovered primarily through user charges or other dedicated revenues. Enterprise funds in the City's budget are the Conduit, Loan and Guarantee, Parking, Water Utility and Wastewater Utility funds. Repayment of debt service expenses incurred by the City Industrial Development Authority, an enterprise fund, are reflected in the debt service payments of the respective funds (General, Water, Wastewater, Parking, etc.) that have utilized Authority financing.

Internal Service Funds: The budget includes proprietary type funds accounting for the financing of goods and services provided by certain City agencies to other agencies on a cost reimbursement basis. These include: Mobile Equipment, Printing and Graphics, Municipal Post Office, Municipal Telephone Exchange, Risk Management Fund for the City's Self-Insurance program, Energy, and the City's 800 MHz radio system.

Capital Projects Fund: All revenue sources, including loan proceeds, intergovernmental grants, certain dedicated revenues and fund transfers comprised of Pay-As-You-Go support from current revenues of other funds are budgeted and accounted for in this fund group.

Cross Reference: For additional detail information on the background, purpose, policies, and major revenues of each budgeted fund see the "Budgetary Funds - Description and Policies" section.

Budget Appropriation by Expense Type

Object 0: Transfers - Charges to one agency or program for goods or services provided by another agency or program. This may also include transfer credits from capital projects, special funds, etc.

Object 1: Salaries - Payments to full and part-time and temporary personnel for services rendered the City. This category of expense includes over-time payment, compensated leaves, shift and other differentials, severance and other direct personnel compensation expenses.

Object 2: Other Personnel Costs - Payments for benefits provided to City personnel for medical coverage (including vision, dental, prescription drug and other health insurance), Social Security, retirement and other benefits.

Object 3: Contractual Services - Payments for services rendered to the City under contractual arrangements ranging from water, sewer and other utility charges to legal fees and subscriptions.

Object 4: Materials and Supplies - Payments for commodities which are consumed or materially altered when used, such as custodial supplies, heating fuels, clothing, books and food.

Object 5 & 6: Equipment - Payments for replacement or procurement of City property other than real property.

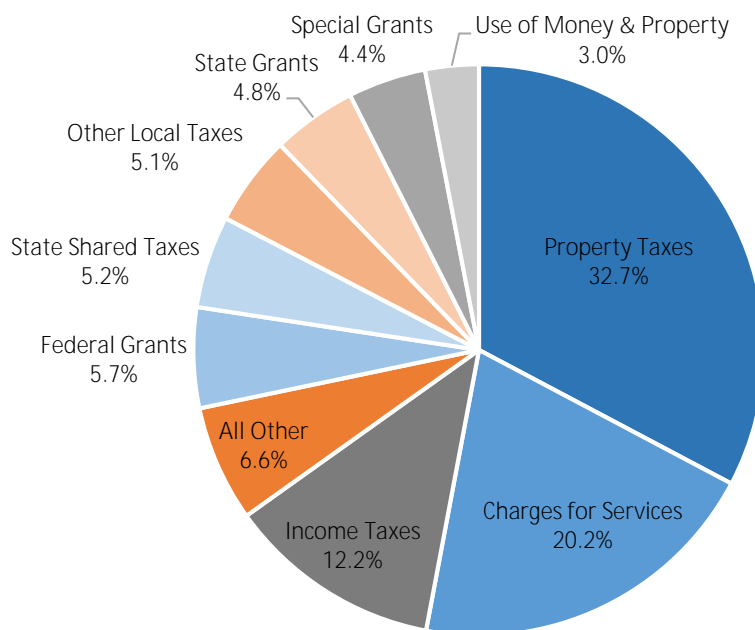

Object 7: Grants, Subsidies and Contributions – Payments in support of various organizations and activities which provide health, education, cultural or promotional benefits to Baltimore. This object also includes City agency payments to fund self-insurance and workers' and unemployment compensation programs.

Object 8: Debt Service - Payments for interest and principal redemption of bonds issued by or on behalf of the City. (See the "Debt Service" section for detail on types of debt payments).

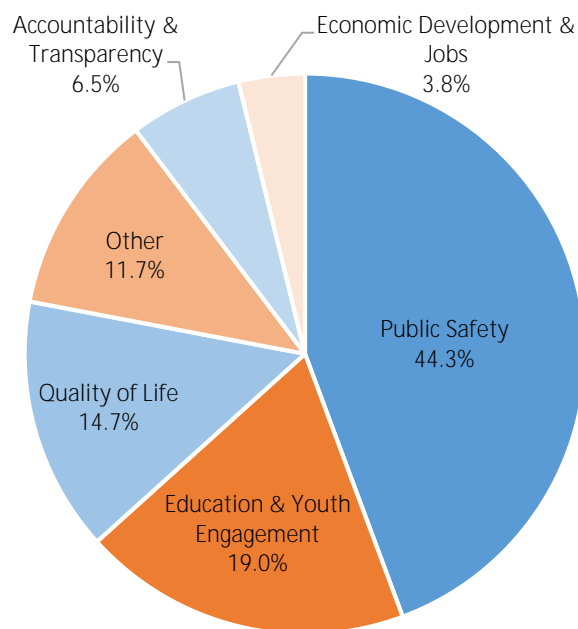

Object 9: Capital Improvements - Payments for the acquisition and development of City real property including land, facilities and equipment required to convert a capital project/structure into a usable facility.

Fund Balance, June 30, 2018	\$792,800

Note #1: Unexpended appropriations or revenue surpluses arising during a fiscal year in the Parking Enterprise, Parking Management and Convention Center Bond funds are transferred to the General Fund. In the Federal, State and Special grant funds, unexpected appropriation or revenue surpluses are fully reserved for the legal purposes of the grant and are reflected as deferred revenues or amounts due from grant sources. Therefore, no balances are stated for these funds. Capital project appropriations are considered expended until they are de-appropriated.

Note #2: In the Fiscal 2016 CAFR the Baltimore Hotel Corporation was designated as a component unit and the fund balances (\$297M) were rolled into the General Fund as non-spendable fund balance. In addition, the City's Debt Service Fund (\$62M) was closed and rolled into General Fund fund balance.

FISCAL 2020

SUMMARY OF THE ADOPTED BUDGET

Outcome Budgeting

Intentionally Left Blank

Outcome Budgeting Overview

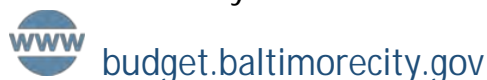

Baltimore's Priority Outcomes guided the development of the Fiscal 2020 budget. The diagram below shows the population-level indicators under each Outcome that are used to monitor progress on achieving strategic outcomes for the City. The indicators draw from a variety of data sources to capture citywide trends. The indicators are subject to review each year.

Baltimore's Priority Outcomes

Budget summaries for each of the Outcomes in the next section highlight how Fiscal 2020 budget investments prioritize services that are high-performing and closely aligned with the City's strategic goals.

This is an annotated example of a service one-pager. Our Agency Detail Publications include a one-pager for every service in the City. You can view these pages by visiting:

Service 654: Urban Forestry

Priority Outcome: A Cleaner City

Agency: Recreation and Parks

Service Description: This service provides general maintenance of city street and park trees, including inspecting, planting, removing, pruning, watering and mulching. This service manages trees on public property and rights of way, and on private property through the TreeBaltimore initiative.

PERFORMANCE MEASURES

Type	Measure	FY12 Actual	FY13 Actual	FY14 Actual	FY15 Target	FY15 Actual	FY16 Target	FY17 Target
Output	Total # of trees planted by City crews	1,285	750	700	750	750	750	750
Efficiency	% of tree maintenance work that is proactive	N/A	N/A	N/A	N/A	New	22%	33%
Effectiveness	% of trees remaining healthy two years after planting	70%	72%	73%	75%	78%	85%	85%
Effectiveness	# of tree maintenance SRs received	13,604	13,190	10,881	New	10,734	10,555	10,500
Outcome	Baltimore's urban tree canopy	27%	27%	27%	28%	27%	28%	28%

The goal of this service is to reduce the number of service requests through proactive tree maintenance. Enhancement funding to treat Ash trees for the disease caused by the Emerald Ash Borer insect will help improve the overall health and size of the urban tree canopy.

MAJOR BUDGET ITEMS

- This service continues with data collection for a Citywide Tree Inventory, collecting comprehensive information on all street and park trees over a three year period. This effort is intended to improve efficiency of tree plantings and maintenance efforts.
- An enhancement will help this service address the Emerald Ash Borer problem as well as engage in expanded proactive tree pruning.
- This service has experienced a decrease in the number of trees it has planted in recent years.
- The service will continue to increase the City's tree canopy.

CHANGE TABLE-GENERAL FUND

FISCAL 2016 ADOPTED BUDGET	\$3,731,710
Changes with service impacts	
Increase in funding for risk management and prevention program - Emerald Ash Borer mitigation	200,000
Increase in funding for risk management and prevention program - proactive tree pruning	385,000
Adjustments with no service impact	
Cost of Living Salary Adjustment	25,155
Adjustment for pension cost allocation	10,532
Adjustment for health benefit costs	(9,489)
Adjustment for City fleet rental and repair charges	35,876
Change in allocation for Workers Compensation expense	(315)
Increase in employee compensation and benefits	508
Increase in contractual services expenses	25,091
Decrease in operating supplies and equipment	(12,758)
FISCAL 2017 RECOMMENDED BUDGET	\$4,391,310

Education & Youth Engagement

Key results funded in the Fiscal 2020 Adopted Budget:

- The Health Department's B'more for Healthy Babies Program aims for the percent of babies with low birth weight to drop to 11.1% citywide, compared to 12.4% in 2017.
- The Enoch Pratt Free Library will target 37,000 participants in the Summer Learning Program, 50,000 in the School Readiness Program, and 6,500 in computer training classes at branch technology labs.
- Head Start has set a target of 90% of 3 year olds scoring "ready" in each school readiness domain, an increase from 87% in 2018.
- Family League expects to serve 25,500 youth in Community Schools and community-based Out of School Time programs and aims for 90% of Out of School Time participants not being chronically absent from school.
- The Department of Recreation and Parks expects 4,000 youth aged 5-13 to enroll in summer recreation programs, an increase from 2,805 in 2018.
- MOED has a goal to place 9,000 children in YouthWorks summer jobs through a combination of public and private funding. The program has set a target of 92% of employers being willing to recommend YouthWorks to other organizations seeking entry-level employees.

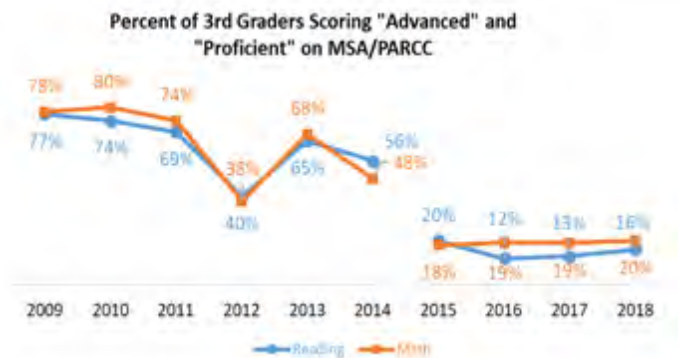

Key budget decisions in Education & Youth Engagement:

- The City is providing \$99.2 million of bridge funding to City Schools over three years (Fiscal 2018 – Fiscal 2020) to help make up for lost State formula aid and growing costs. This includes \$38.5 million in Fiscal 2020.
- The Children and Youth Fund will dedicate \$13.0 million in funding for new or enhanced youth programs.
- The recommended budget includes \$1.1 million to support the Mayor's Scholars Program, providing last-dollar scholarships to Baltimore City Community College for recent high school graduates that reside in Baltimore City with a goal of enrolling 500 students in the second year of the program, which began in Fiscal 2019.
- Per the 21st Century Schools Program, 26 schools in poor repair are being closed and turned over to the City. The City has taken ownership of 9 schools to date and is responsible for costs associated with the upkeep, utilities, and security of the buildings. Some surplus schools have temporary uses, others can be put to community reuse, and some buildings not suitable for reuse will be demolished.
- The General Fund maintains funding of \$6.6 million for Family League's community school and out of school time programming; \$300,000 in Community Development Block Grant (CDBG) funding will support youth programs and \$2.5 million in General Fund support is recommended for expanded Family League youth programs.

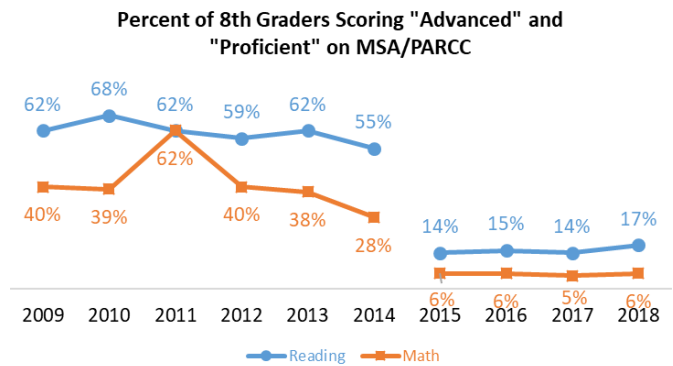

Fiscal 2020 Adopted Overview

Fund Name	Fiscal 2019 Adopted	Fiscal 2020 Adopted	Change from 2019	% Change from 2019
General	362,143,721	363,921,998	1,778,277	0.5%
Federal	34,846,585	35,588,240	741,655	2.1%
State	18,434,630	22,209,793	3,775,163	20.5%
Special	22,839,354	24,024,393	1,185,039	5.2%
Total	438,264,290	445,744,424	7,480,134	1.7%

Indicator: Academic Achievement

Source: Maryland Report Card

In 2015, Maryland replaced the Maryland School Assessments (MSA) with the new Partnership for Assessment of Readiness for College and Careers (PARCC). The PARCC is aligned to new standards based on the Common Core standards.

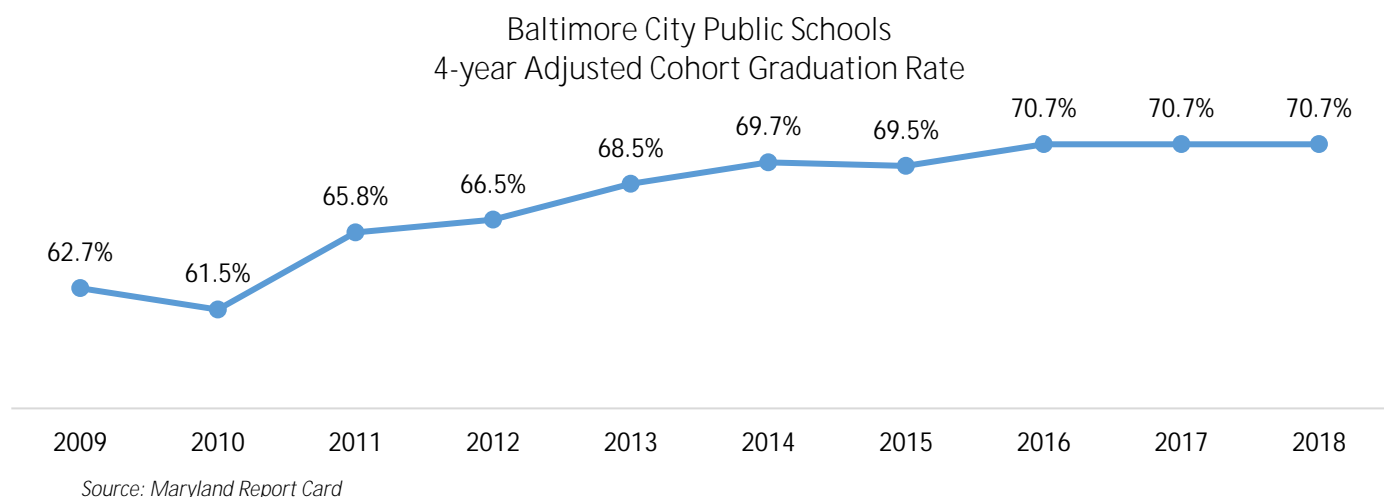

Positive Factors	Negative Factors
<ul style="list-style-type: none"> Quality instruction: Common Core, principal leadership, systematic instruction, phonics, tutoring Literacy-rich environments: access to books and extended learning opportunities Improving school climate Campaign for Grade Level Reading / B'More Read More 	<ul style="list-style-type: none"> Low student attendance rates and high chronic absenteeism Principal and teacher turnover rates Summer learning loss Low maternal education Lack of concentrated literacy focus between 3rd and 8th grades Behavioral health challenges

The Fiscal 2020 adopted budget invests in services and programs that will support the Academic Achievement indicator:

Total City support for City Schools in Fiscal 2020 is expected to be \$375.6 million, which includes \$275.1 million in Maintenance of Effort funding. Funding City Schools at \$38.5 million above the Fiscal 2017 level will help bridge City School's budget gap caused by decreased State Aid revenue and increasing costs. The City will provide an estimated \$16.7 million for the 21st Century School Modernization Plan, including beverage tax and casino revenue; the City will leverage an additional \$5.5 million in State Aid towards the City's funding obligation for 21st Century Schools per the terms of the program agreement. In addition, the Fiscal 2019 Capital Improvement Program provides \$19 million in General Obligation Bond funding to City Schools for school facility improvements. The Kirwan Commission has recommended significantly increasing the State's investment in schools; it supports a \$1.1 billion down payment on this investment in Fiscal 2020 and Fiscal 2021 in advance of final formula recommendations next year.

Supporting the Enoch Pratt Free Library with a \$26.2 million General Fund appropriation will support 1.85 million visits to the Library, 55,900 School Readiness program participants, and 36,600 Summer Learning participants.

Indicator: College & Career Readiness

This indicator is currently measuring the four-year adjusted cohort graduation rate for Baltimore City Public Schools. The goal is to use a new metric that will be developed by City Schools to measure the career-college readiness of the city's high school students across: cohort graduation rate, career-college preparation, and SAT/ACT participation. Additionally, a measure of the career readiness of youth who are pursuing non-traditional paths, such as those who have dropped out of school and have been re-engaged in alternative education and/or career programs, will be included.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> • High enrollment in Career Technology Education courses • Pathways programs that merge coursework with work experience • Availability of out-of-school programs: YO Centers, Year Up, Civic Works, Living Classrooms, Housing Authority, etc. • Availability of Advanced Placement and International Baccalaureate courses • Increased awareness of parental roles • Awareness of community-based partners 	<ul style="list-style-type: none"> • Student absenteeism • Changing priorities as students enter high school (e.g. parenting, jobs) and school hours that don't support these students • High student mobility rate • High youth unemployment • Most students enrolled in Career Technology Education courses not on track to earn credential

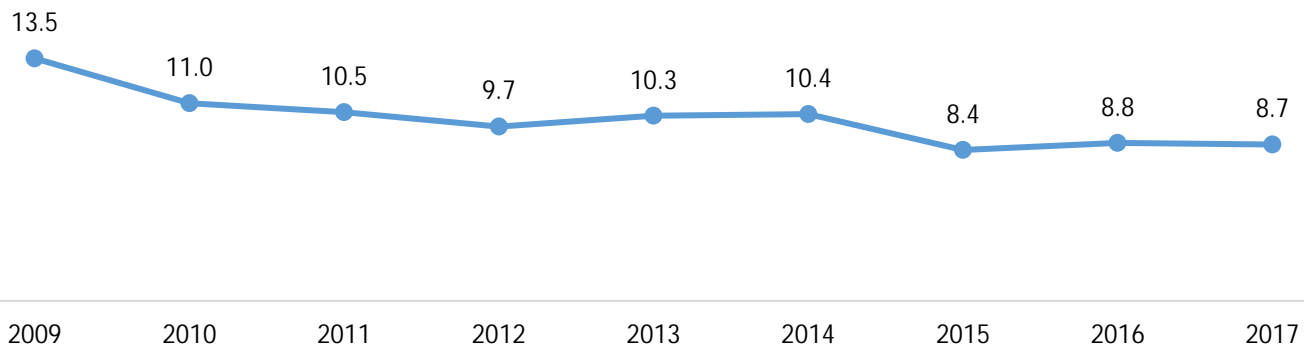

The Fiscal 2020 adopted budget invests in services and programs that will support the College and Career Readiness indicator:

Including funding of \$1.1 million in the Mayor's Scholars Program, which will provide last-dollar scholarships to Baltimore City Community College for recent high school graduates that live in Baltimore City.

Recommended General Fund support of \$3.1 million for Workforce Services for Out of School Youth, which in Fiscal 2018, provided 913 youth with educational, vocational, and personal services at two centers. Services offered include community-based educational services and GED preparation, towards the goal of college and career readiness. YO! Centers serve as a safety net for students who leave school without earning their high school diploma.

Indicator: Infant Mortality

of Deaths of Children Less than One Year of Age
Per 1,000 Live Births in Baltimore City

Source: Maryland Vital Statistics

Positive Factors	Negative Factors
<ul style="list-style-type: none"> Multi-agency and multi-government collaboration, such as the B'more for Healthy Babies Initiative Population-level behavioral changes Community-based initiatives Improvements in access and quality of care 	<ul style="list-style-type: none"> Complex needs of families most at risk (mental health, substance abuse, unsafe homes, job loss) Paper-based prenatal risk assessment causing delays in care High mobility rates and lack of safe, stable housing among high-risk pregnant women Lack of knowledge regarding dangers of co-sleeping Limited messages to impoverished families about infant death risks

The Fiscal 2020 adopted budget invests in services and programs that will support the Infant Mortality indicator:

Maintaining General Fund support of \$3.1 million for the programs delivered by Maternal and Child Health and Family League will support home visiting services for at-risk expectant mothers. These home visiting programs work to reduce risk factors such as personal and second-hand tobacco and nicotine use, substance use, high levels of stress, pre-term labor, and chronic health conditions such as hypertension and diabetes. Maternal and Child Health plans to serve 138 families receiving case management services by professional home visitors in Fiscal 2020, and Family League will serve 440 families.

Providing General Fund support of \$0.9 million for Baltimore City Health Department (BCHD) services to prevent exposure to lead and other health hazards, such as asthma triggers, for Baltimore families. One of the main drivers in reducing lead exposure for children with elevated blood lead levels is being able to quickly conduct a home inspection to assess environmental contributors. Through the Healthy Homes service, BCHD conducts health and safety risk inspections of all homes served by the lead and asthma programs. BCHD also conducts environmental home inspections, provides medical case management, refers families for lead abatement programs, and prosecutes non-compliant property owners for households served by the lead abatement programs. Healthy Homes plans to conduct 500 health and safety risk home inspections in Fiscal 2020 for households that are part of the lead and asthma programs.

Special Exhibit: Funding for Education & Youth

Baltimore City Public Schools

Public schools in Maryland are funded by both local governments and the State. By design, State Aid to public schools is distributed inversely to local wealth, whereby the less affluent school districts receive more State Aid. Wealth is measured in terms of county property values and personal income; by both measures, Baltimore is at or near the bottom among Maryland jurisdictions. Since Baltimore City is one of the poorest jurisdictions in Maryland, City Schools currently receives 70% of its funding from the State. Other low wealth jurisdictions that contribute less than a quarter of their share of education funding include Allegany, Caroline, Somerset, and Wicomico Counties.

Fiscal 2020 is the third and final year of the City's three-year, \$99.2 million bridge funding plan to help City Schools address the district's budget shortfall. This includes \$25.4 million in Fiscal 2018, \$35.3 million in Fiscal 2019, and \$38.5 million in Fiscal 2020 over the Fiscal 2017 direct support funding level of \$265,412,181. In Fiscal 2020, this bridge funding includes a \$9.7 million Maintenance of Effort increase, \$3.3 million in additional bridge funding, \$12.4 million in school health services, and \$13.1 million in support of risk management costs.

The Commission on Innovation and Excellence in Education, more commonly referred to as the "Kirwan Commission", was created by legislation in 2016 to generate recommendations to improve education across Maryland through funding, policies, and resources. One main goal for the Commission was to establish a new funding formula for school funding across Maryland. The Commission was expected to complete its work in January 2019, with legislation to implement the recommendations introduced during the Maryland General Assembly 2019 session. However, in December 2018, the Commission was asked to continue its work through Fall 2019.

In April 2019, the Maryland General Assembly approved \$355 million in additional support for public schools in both Fiscal 2020 and Fiscal 2021 based on preliminary recommendations of the Kirwan Commission. The General Assembly also called for \$370 million in Fiscal 2022 and \$130 million in additional funding if there are State revenue increases. Revisions to funding formulas, which determine local jurisdiction's share of the cost, were not considered by the General Assembly this year, but are expected to be considered during next year's session in 2020.

Category of Expense	Fiscal 2018 Adjusted	Fiscal 2019 Adopted	Fiscal 2020 Adopted

Children and Youth Fund

In November 2016, Baltimore City voters approved a charter amendment establishing the Children and Youth Fund. The Fund is a continuing, non-lapsing fund, investing in community-based initiatives that will help improve outcomes for Baltimore City children and youth. There is a mandatory annual appropriation to the Fund, and any unspent funds remain in the Fund. The annual appropriation to the Fund is to be equal to at least \$0.03 on every \$100 of assessed or assessable value of all property in the City of Baltimore, as reported by SDAT in November each year. Grants and donations may also be made into the Fund. In Fiscal 2020, the appropriation is \$13.0 million.

The Children and Youth Fund Task Force formed in 2017 to make recommendations on the Fund's governance and operations. Their recommendations stressed the importance of racial equity and community empowerment, as well as the need for a new grant-making model in Baltimore capable of distributing taxpayer-backed grants to support programs and services that are helping children and youth thrive. In 2018, the first grant cycle was completed under a community-participatory approach to grant making, which included community design sessions, applicant support sessions, and a community-led grant review process. Of the 487 applications received, 84 applicants were awarded a total of \$10.8 million. During this process, Associated Black Charities served as the interim fiscal agent for the Fund. In 2019, the Fund plans to establish a permanent fiscal agent. The Fund will complete a second grant cycle in 2019.

Key results funded in the Fiscal 2020 Adopted Budget:

- The CitiWatch program, under the Mayor's Office of Criminal Justice, will monitor cameras deployed around the City to assist or initiate 350 arrests.
- Emergency Medical Services expects to respond to 185,000 incidents in Fiscal 2020, and is entering the second year of a partnership with the University of Maryland Medical System (UMMS) to pilot a Mobile Integrated Health-Community Paramedicine (MIH-CP) program. The grant-funded initiative provides home-based health care and other services in West Baltimore to improve health outcomes and reduce demand for emergency transport.
- The Mayor's Office of Employment Development will help at least 450 ex-offenders obtain employment by providing occupational training and other services. Efforts will focus on high-demand industries such as construction and transportation.
- As it continues transitioning street lights to LED fixtures, the Department of Transportation will work with Baltimore Gas & Electric to ensure that at least 90% of street lights are repaired within four days.

Key budget decisions in Public Safety:

- Baltimore Police Department (BPD)
 - The adopted budget reflects the City's contract with the Fraternal Order of Police (FOP) that was signed in November 2018. The contract institutes a new patrol schedule to more effectively deploy officers across shifts and reduce the need for overtime, for an estimated \$5 million in savings. Police officers will receive a 3% wage increase for Fiscal 2020, and officers who have been on the force for 10 years or more will receive an additional 1% raise. Officers assigned to patrol will receive an annual \$1,000 bonus in Fiscal 2020 and Fiscal 2021.
 - The budget makes significant investments in technology upgrades that will help the agency comply with its consent decree requirements for constitutional policing. The Capital Budget includes \$9.8 million for new information technology, including tools that can help identify at-risk officer behavior to allow early intervention, and new systems to digitize and store documents. To implement this new technology, the budget provides \$2 million for increased staff. Finally, the budget includes \$5 million for replacement of police radios and \$1.1 million for an initial phase of Taser upgrades.
 - As part of an effort to ensure that more police officers are directly engaged in fighting crime, the budget changes 62 sworn positions to civilian classifications in fiscal services, human resources, forensic science, and administration. These jobs previously were filled by sworn officers who will be returned to service in critical policing functions such as patrol, investigations, and specialized units.
 - The agency will enhance its capacity to combat fentanyl, a deadly synthetic opioid, with an additional \$400,000 to fund four new forensic scientists. These staff will conduct drug lab analysis to support a collaborative regional effort to prosecute fentanyl crimes in the federal system, which imposes longer sentences.
- Mayor's Office of Criminal Justice (MOCJ)
 - The budget includes \$3.6 million of State funding for the Safe Streets program to continue the expansion to ten total sites. In addition, \$287,000 of casino revenue will fund Safe Streets efforts, including a violence intervention program through MedStar Harbor Hospital.
 - The budget provides \$1 million to leverage millions more in non-City funding for Roca, a mentorship and job readiness program. The City anticipates that Roca will receive more than \$10 million from various philanthropic organizations and corporations, with the General Fund pitching in to cover a four-year, \$3.8 million funding gap.

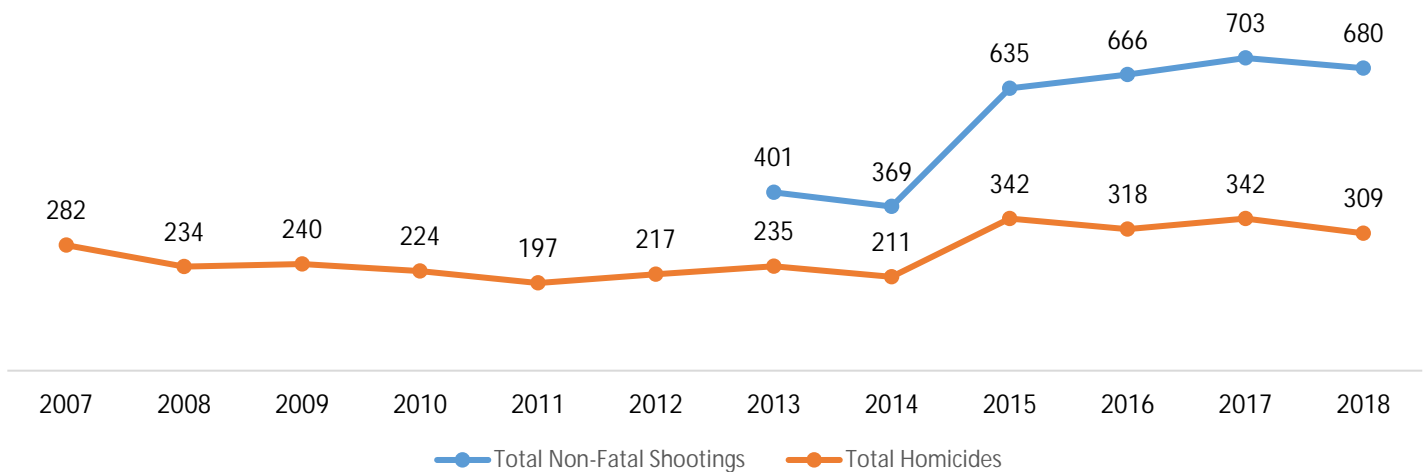

- An additional \$300,000 of funding will support services for survivors of human trafficking. MOCJ launched a grant program this year for local non-profits that offer case management, victim advocacy, legal services, and other types of assistance to this vulnerable population.
- MOCJ is working to solicit donations for additional CitiWatch cameras. The cameras, placed at targeted locations in communities, would help to deter crime and catch offenders.
- Department of Transportation (DOT)
 - This budget includes \$12.7 million to operate the City's expanding traffic camera network. Cameras will be installed near elementary schools and at locations where research supports links with reductions to traffic-related accidents.
- Fire Department (BCFD)
 - BCFD will spend the remaining \$1.5 million of a federal Staffing for Adequate Fire and Emergency Response (SAFER) grant, awarded for \$5.8 million in February 2017. The funding covers personnel costs and fringe benefits of 40 firefighters (equivalent to two Fire companies).
 - A second round of the (SAFER) grant is included in the budget for Fiscal 2020, which will require a city-share. This award is for three years and will require a 25%, 25%, and 65% city-match across the 3 years, respectively, costing the City approximately \$2.9 million.
 - Emergency Medical Service (EMS) fees were increased in Fiscal 2019 to achieve parity with national rates, generating approximately \$1 million annually. These rates will be maintained in Fiscal 2020.
- State's Attorney's Office (SAO)
 - The budget includes funding for a new Expungement Unit that will handle petitions to remove criminal records from public databases. Since a 2017 State law expanded the list of crimes eligible for expungement, the SAO has seen a large increase in petitions and now receives an average of 500 each week. The budget provides \$388,774 for five staff and other expenses of the new unit. Expungement is an important strategy for reducing recidivism, because it can help ex-offenders get stable jobs and housing.

Fiscal 2020 Adopted Overview

Fund Name	Fiscal 2019 Adopted	Fiscal 2020 Adopted	Change from 2019	% Change from 2019

Special	39,260,251	34,771,480	(4,488,771)	-11.4%
Total	911,092,216	952,430,404	41,338,188	4.5%

Indicator: Total Number of Homicides and Non-Fatal Shootings

Total Non-Fatal Shootings and Homicides (All Weapons)

Source: BPD Open Data, Baltimore Sun

This information is sourced from the Baltimore Police Department's Open Data resource, a publicly available and easily accessible online data archive. This indicator measures number of homicides (from all weapons) and non-fatal shootings that occur in Baltimore on an annual basis. These figures do not include police-involved or self-inflicted incidents.

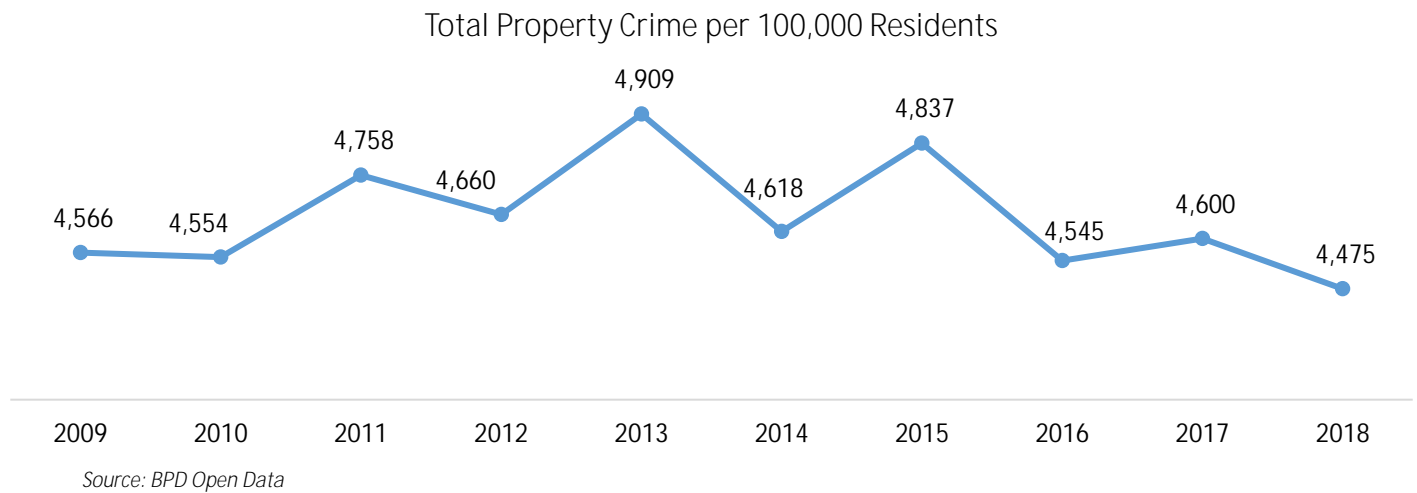

Positive Factors	Negative Factors
<ul style="list-style-type: none"> Targeted enforcement of specific neighborhoods and known violent offenders Discouraging illegal gun possession with regulation and aggressive prosecution 	<ul style="list-style-type: none"> Violence in the drug and gun marketplace Barriers to legitimate economic opportunity, particularly for low-skill individuals and/or those with a criminal background

The Fiscal 2020 adopted budget invests in numerous services and programs that will support positive movement on the Non-Fatal Shootings and Homicides indicator:

The Mayor's Office of Criminal Justice will ramp up expansion of the Safe Streets program, which is launching six new sites in the Belair Edison, Brooklyn, Franklin Square, Park Heights, Penn-North, and Woodbourne neighborhoods. Safe Streets works collaboratively with communities to promote a message that violence is not acceptable. The program utilizes a comprehensive outreach component, with social workers who canvas neighborhoods and connect with high-risk individuals to diffuse potentially violent situations and link them to services. It includes hospital-based interventions that offer services to victims of violent crime, including those who may seek retaliation.

The Police Department is working on multiple fronts to modernize its use of technology and data analytics for crime prevention. Through more than \$9.8 million of planned information technology investments, the agency will improve functions such as case reporting, public records access, use of force assessment, and personnel development. The Department will work with a consultant over the next year to strengthen its two Strategic Decision Support Centers, designed to enhance use of crime data and predictive analytics. These "nerve centers" will develop standard procedures for using technology and data during daily public safety operations.

Indicator: Property Crime

Property crime data includes burglary, larceny, theft, and motor vehicle theft. Because they may involve violence, arson and vandalism incidents are excluded.

Positive Factors	Negative Factors
<ul style="list-style-type: none">• Police schedule and civilianization will increase officer presence in communities• Employment and recreational opportunities for Baltimore youth, such as YouthWorks	<ul style="list-style-type: none">• Available resources for responding to, investigating, and processing property crimes• Barriers to upward economic mobility and community support systems

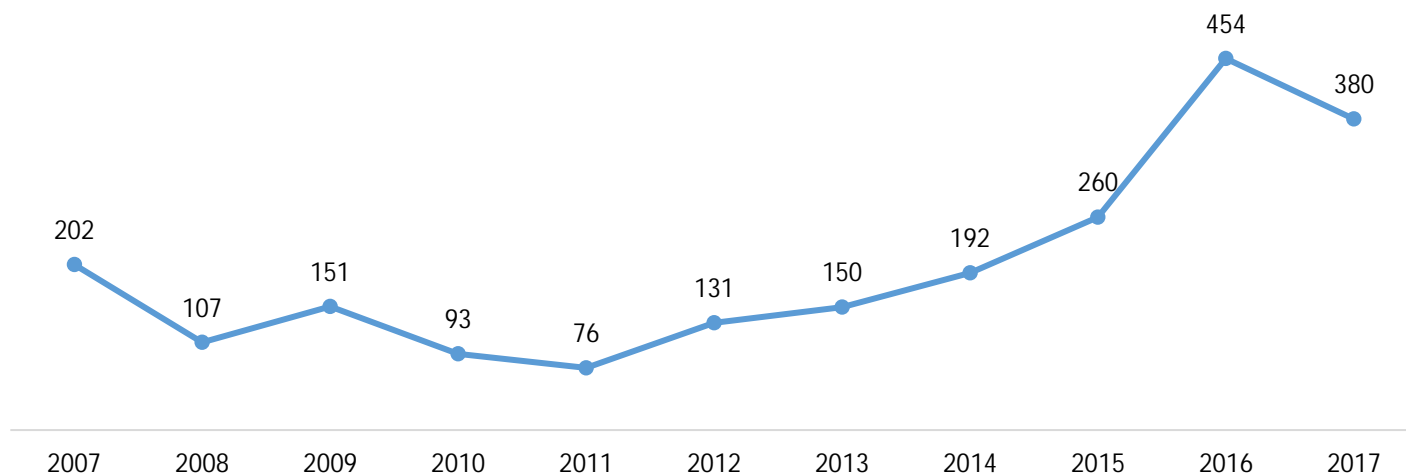

The Fiscal 2020 adopted budget invests in numerous services and programs that will support positive movement on the Property Crimes indicator:

New approaches to Police Department staffing will improve officer well-being, put more officers on patrol, and keep assignments more consistent so officers can develop community relationships. This enhanced police presence is designed to reduce crime, including burglary and theft. The new Fraternal Order of Police (FOP) contract establishes a revised schedule for officers, reducing the need for overtime and resulting in more reliable staffing in the districts. The Department also is civilianizing key support functions, which shifts sworn officers out of clerical and administrative jobs and into patrol and investigative roles.

The Department of Transportation is continuing to convert street lights to LED fixtures, resulting in brighter lights, fewer outages, and energy savings. Since 2011, the agency has worked with Baltimore Gas & Electric and other utility companies to convert more than half of the approximately 78,000 street lights in the City. By the end of Fiscal 2020, more than 13,000 additional street lights are scheduled for conversion.

Indicator: Heroin-Related Deaths

Total Number of Heroin-Related Deaths

Source: Maryland Department of Health

This indicator captures all deaths that occurred in the City of Baltimore (including non-residents) related to heroin. This data does not reflect deaths associated with all opioids, such as fentanyl or those resulting from prescription drugs, which are often associated with heroin use.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> Tougher legal and regulatory stance on opioid prescription drugs, reducing abuse that leads to heroin addiction Use of Naloxone and Buprenorphine as treatment, and State primary adult care coverage of the latter 	<ul style="list-style-type: none"> Increase in prices of prescription drugs compared with the relatively static price of heroin Mixture of heroin with other substances such as carfentanyl (up to 5,000 times more potent than heroin) and difficulty regulating these substances

The Fiscal 2020 adopted budget invests in numerous services and programs that will support positive movement on the Heroin-Related Deaths Indicator:

The Health Department is scheduled to open the state's first Stabilization Center during spring 2019 in the Greater Coppin Heights/Rosemont community. The center will offer individuals under the influence of drugs and/or alcohol services such as medical screening and monitoring, connections to behavioral health and social services, and buprenorphine induction to treat opioid addiction. The State is contributing more than \$6 million to support capital and operating costs.

In addition, the Health Department will continue the Needle Exchange Program, which distributed 1.2 million syringes in Fiscal 2018 to help decrease rates of HIV transmission, and the Overdose Response Program, which has trained tens of thousands of people to identify and respond to opioid-related overdoses with naloxone and other interventions.

The Fire Department is entering the second year of a partnership with the University of Maryland Medical System (UMMS) to pilot a Mobile Integrated Health-Community Paramedicine (MIH-CP) program. This community-based healthcare solution targets individuals who have complex health needs and utilize ambulance and emergency room services monthly. Paramedics and nurses assist with maintaining the health of these individuals at their homes, while also providing unscheduled access to care.

Key results funded in the Fiscal 2020 Adopted Budget:

- The Health Department will continue the Vision for Baltimore Program, which expands school-based vision services for all students in grades pre-kindergarten through eighth grade in Baltimore City Public Schools. In Fiscal 2018, this program provided more than 11,000 vision screens in grades that normally do not receive this service.
- The Department of Public Works will bait 25,000 burrows as part of the Proactive Rat Inspection/Abatement Program.
- The Department of Public works will continue its single stream recycling efforts. Funding will maintain the current level of service, allowing DPW to continue collecting approximately 30,000 tons of single stream recyclables.
- The Department of Housing and Community Development will provide funding to homeowners who want to correct major deficiencies or serious health, code, and safety issues in their homes through the Housing Rehabilitation Loan Program. Since 2013, 88% of loan recipients have continued to occupy their properties.

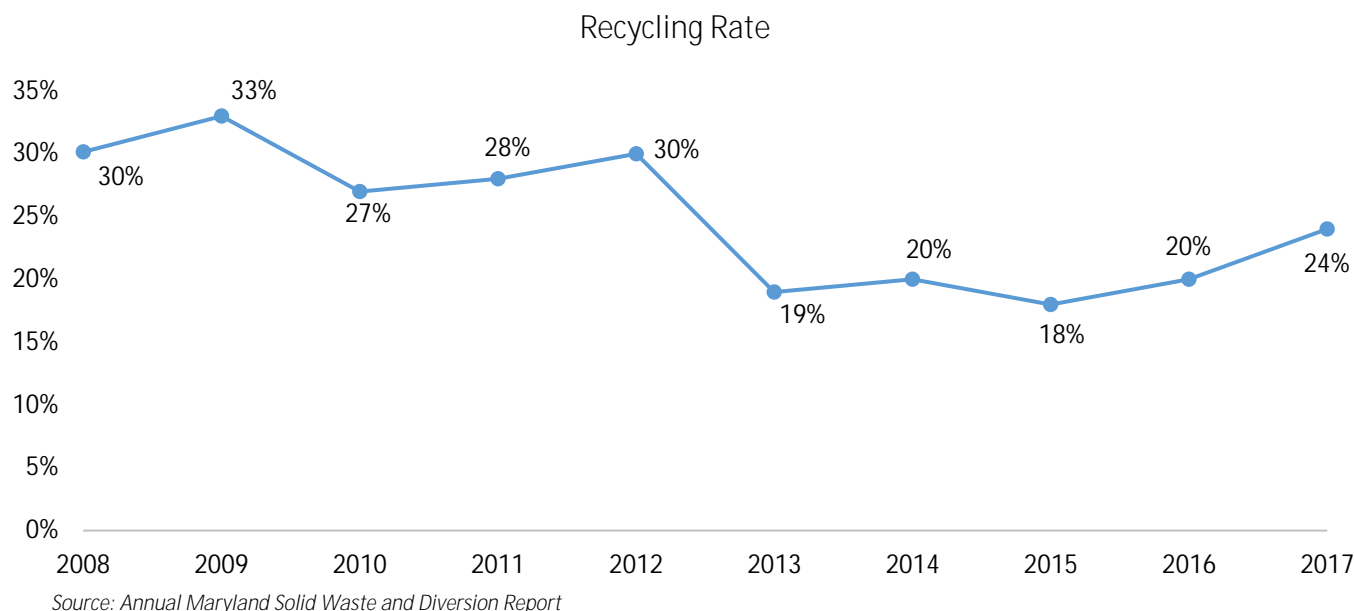

Key budget decisions in Quality of Life:

- The adopted budget includes \$250,000 of new funding for The Healthy Food Fund, which will increase access to healthy food by improving the quality of corner stores, increasing fruit and vegetable intake of residents using federal nutrition assistance benefits at farmers' markets, and increasing accessibility to supermarkets through a ride share program.
- The budget invests \$1 million in one-time bridge funding to the Baltimore Public Markets. The funding will support the markets through an extensive capital renovation aimed at increasing the number of vendors and improving accessibility for patrons.
- The City's Quarantine Road Landfill is expected to reach capacity by Fiscal 2026. To prepare for the cost of expansion, the City will begin by setting aside \$9.6 million in Fiscal 2020.
- The budget invests \$2.6 million to purchase six new buses in Fiscal 2020 for the Circulator, which provides free bus service around downtown. The Department of Transportation plans to replace the existing bus fleet over the next six years, making Circulator service more reliable.
- The budget includes an additional \$280,000 to fully fund currently operating recreation centers in the City.
- The budget invests \$111,116 in additional City funding for the creation of a Tax Sale Service Coordinator in the Division of Homeownership and Housing Preservation. This position will coordinate with a variety of stakeholders to provide guidance to homeowners that are subject to tax sale.

Fiscal 2020 Overview

Fund Name	Fiscal 2019 Adopted	Fiscal 2020 Adopted	Change from 2019	% Change from 2019
General	272,022,705	281,433,484	9,410,779	3.5%

Special	23,275,306	41,152,709	17,877,403	76.8%
Total	1,049,914,712	1,088,612,323	38,697,611	3.7%

Indicator: Recycling Rate

The City's recycling rate is provided by the Maryland Recycling Act, or MRA. MRA data includes private and commercial recycling rates, in addition to the public recycling data collected by the Department of Public Works. After 2012, ash from incinerated waste was no longer considered a recyclable material for use as a landfill cover material; this reduced the City's MRA-defined recycling rate. The City is working with the Maryland Department of the Environment (MDE) to return to using ash as daily cover, which will help to increase landfill capacity. The above graphic includes corrected data for 2010 and 2017.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> • Single-stream recycling and 1+1 collections • City school recycling initiatives 	<ul style="list-style-type: none"> • Few direct incentives or penalties associated with household recycling • Gaps in environmental literacy – not knowing what items are recyclable or when recycling takes place • Global changes in the demand for recycled goods makes recycling more costly

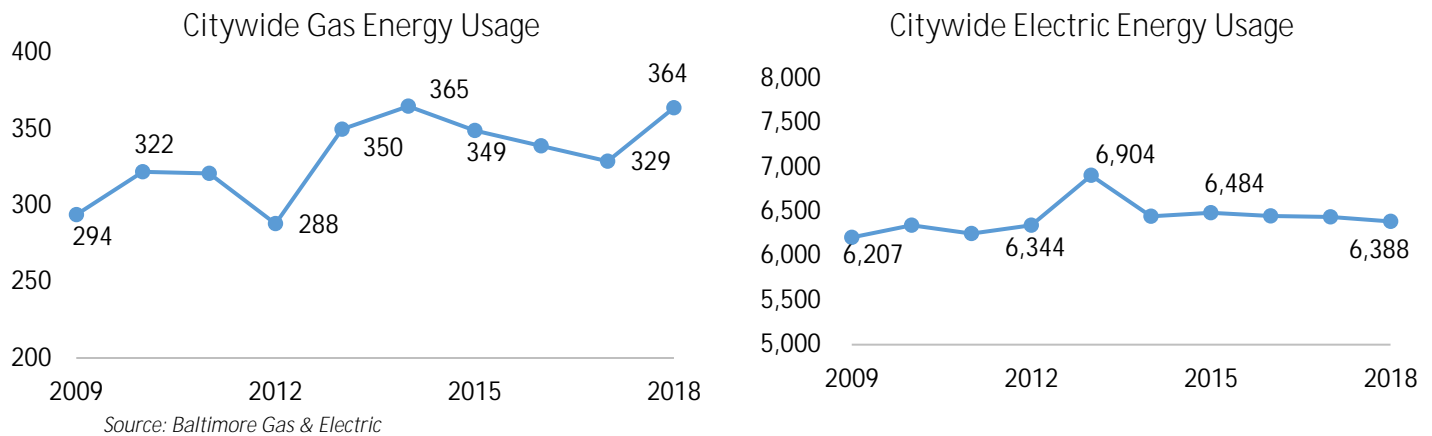

The Fiscal 2020 adopted budget invests in numerous services and programs that will support the Recycling Rate indicator:

In Fiscal 2020, the Department of Public Works will begin the process of finalizing its new 10-year Solid Waste Management Plan. The Plan will include measures to educate the public on recycling while maximizing the number and types of materials that can be recycled.

Planning is expected to finalize the Office of Sustainability's 2019 Sustainability Plan. The new Sustainability Plan will provide strategies for diverting trash from the landfill and incinerator, launching an anti-litter, pro-recycling campaign, and implementing a plan to achieve zero waste.

A working group comprised of the Mayor's Office and Department of Public Works has been formed to discuss ways that the City can improve its recycling rate and divert more waste from the landfill.

Indicator: Citywide Energy Use

These data points come directly from the Baltimore Gas and Electric Company and include all residential, commercial, and industrial energy consumption.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> • The Baltimore Energy Challenge • Smart metering projects for City buildings and energy retrofits 	<ul style="list-style-type: none"> • Declining or limited tree canopy • Lack of public information and education about energy use • “Heat Island Effect” that increases energy demand • Low price of natural gas

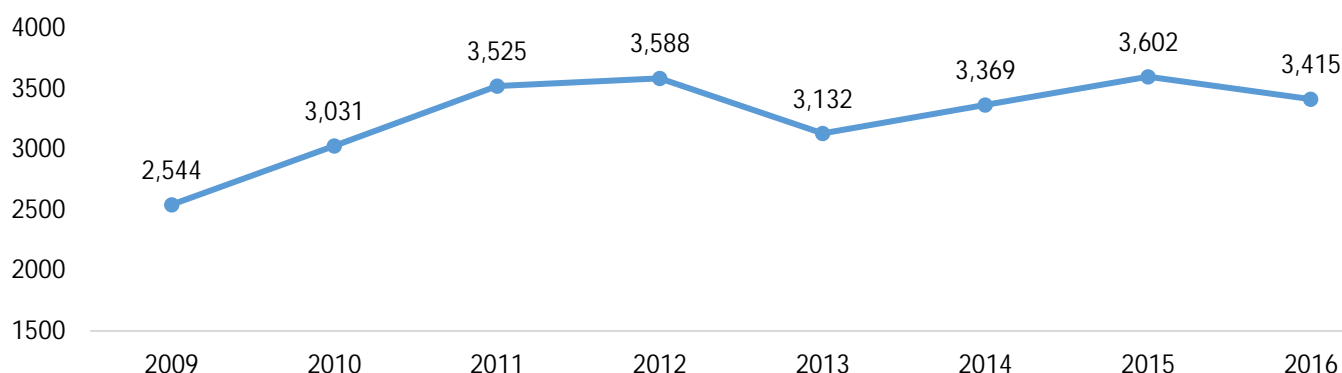

The Fiscal 2020 adopted budget invests in numerous services and programs that will reduce energy usage:

The Department of Housing and Community Development will continue the Baltimore Energy Challenge. The Baltimore Energy Challenge is the City’s energy conservation resource program that teaches residents, businesses, and nonprofits low- to no-cost ways to save energy through grassroots efforts in neighborhoods, businesses and schools. Participants sign a pledge committing to reduce their energy use through changes in behavior.

The Department of General Services will invest \$254,520 to support an HVAC building automation system outside of the main downtown campus. The system will monitor HVAC performance, sensors, meters, and controls at equipment and end points throughout the building. The agency anticipates that the enhancement will result in lower energy costs and better management of preexisting work orders.

Indicator: Asthma Visits

Number of Childhood Asthma ER Visits per 100,000 People

Source: Baltimore City Health Department. 2016 is the latest available data.

Asthma is a chronic lung disease that impacts more than 25 million people throughout the United States. The number of childhood asthma ER visits per 100,000 people is used as a headline measure for prevalence of chronic disease and conditions within the City of Baltimore.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> Ongoing medical management of asthma through medication and education 	<ul style="list-style-type: none"> Quality of Baltimore's housing stock and housing insurance policies (i.e. historical discriminatory practices such as redlining) Lack of preventative care; more dependency on Emergency Rooms Tobacco smoke in the home Reduced federal and State grant funding for the asthma program

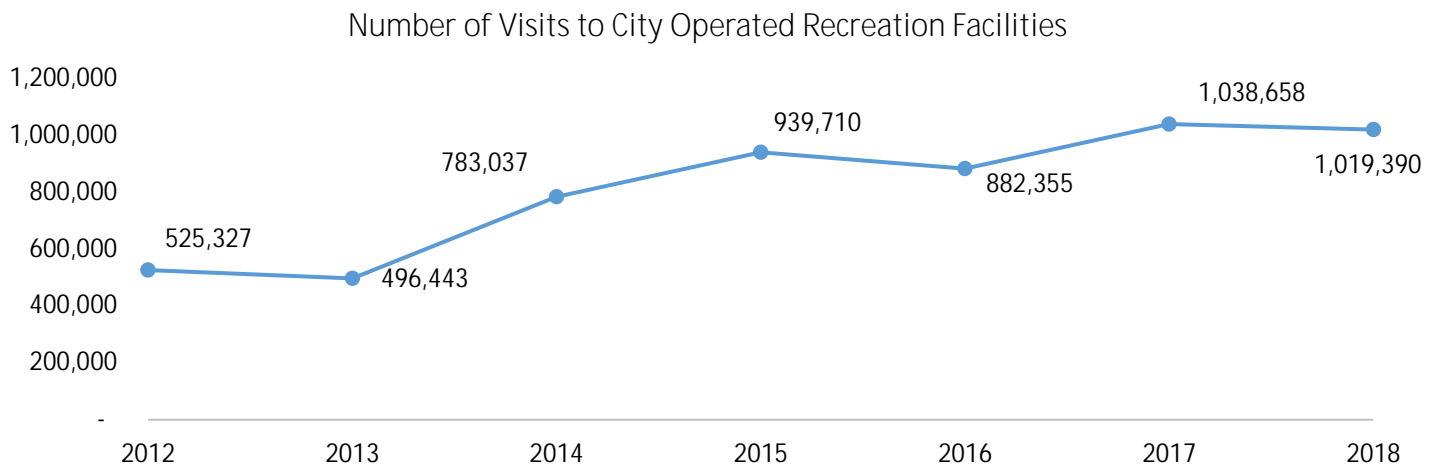

The Fiscal 2020 adopted budget invests in numerous services and programs that will help reduce childhood asthma:

The Health Department's Community Asthma Program provides home visits for moderate to severe asthmatic children in Baltimore and expects the percent of children in the asthma program whose symptoms improve to be 80%. Since 2016, the Health Department has exceeded this 80% benchmark. The service works to reduce emergency room visits, the number of symptom days, and absences from school due to asthma.

B'more for Healthy Babies (BHB) is a citywide initiative, led by the Baltimore City Health Department with Family League and HealthCare Access Maryland, to reduce infant mortality and improve the health of mothers and babies. Family League serves as the lead for the home visiting strategy.

The Health Department helps students manage their asthma by keeping an Asthma Action Plan (AAPlan) on file in the health suite. The AAPlan provides school health professionals with individualized treatment plans for each student with asthma.

Indicator: Recreational Opportunities

Source: Baltimore City Department of Recreation and Parks

The indicator captures the reported number of visits to City-Operated Recreation Facilities, which includes Recreation Centers, City Pools, and Horticulture facilities (Rawlings Conservatory and Cylburn Arboretum). Also included in this indicator are the total Youth and Adults Sports teams enrollment. The number of reported visitors in Fiscal 2018 is less than the amount in Fiscal 2017. This is most likely due to a technical issue with attendance tracking last year at City-operated aquatic centers.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> • Collaborative programs with other City agencies has increased Recreation Center attendance • Increase in the number of event rentals at Cylburn Arboretum • Extended Hours 	<ul style="list-style-type: none"> • Inefficient customer experience signing up and paying for programs

The Fiscal 2020 adopted budget invests in numerous services and programs that will increase Recreation Visits:

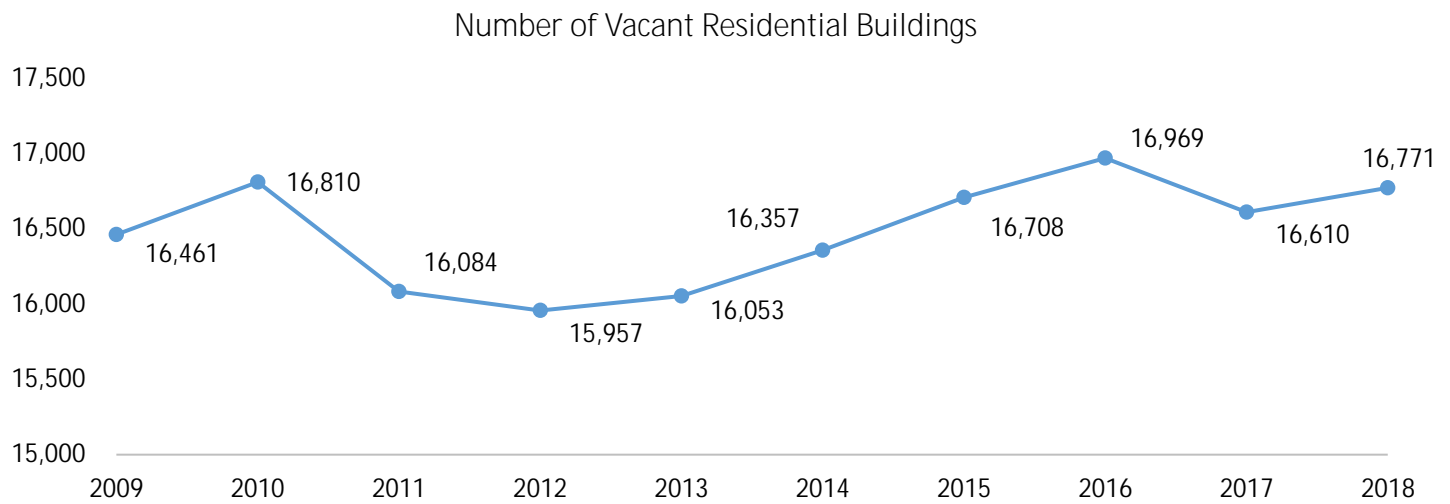

The Department of Recreation & Parks (BCRP) will introduce CivicRec in Spring 2019. CivicRec is a cloud-based point-of-sale and user tracking software that will improve access to Baltimore City Recreation and Parks programs and facilities for users in addition to providing more data for the department.

\$300,000 in General Fund appropriation support the Violence Reduction Initiative by maintaining expanded hours at nine Recreation Centers.

BCRP will receive an estimated \$2.7 million from Table Games revenue in Fiscal 2020. The money will be used to provide additional, and in some cases new, recreation services at various locations throughout the City. \$900,000 of the Table Games revenue will support the City's aquatics programs.

The bowling alley at Shake & Bake Family Fun Center will open in April 2019. BCRP owns and operates the Shake & Bake Family Fun Center in the historic Upton community in West Baltimore. Named after Baltimore Colts wide receiver, Glenn "Shake & Bake" Doughty, the facility was temporarily closed in 2017 to address concerns of maintenance, structural soundness, and cleanliness. Construction on Cahill Recreation Center began in March 2019 and is expected to be complete in April 2021.

Indicator: Blight Elimination

Source: Baltimore City Department of Housing and Community Development

These properties are defined as any residential building that has been deemed uninhabitable by building code standards, and given a vacant building notice by Department of Housing and Community Development (DHCD). The chart above contains updated numbers from DHCD.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> • Vacants to Value, Baltimore Homeownership Incentive Program (B-HIP) and other home buying incentive programs • Marketing efforts and incentives such as Live Near Your Work that attract new residents and keep current residents 	<ul style="list-style-type: none"> • Barriers in rehabilitation financing • Challenges around aligning other City services (such as Police and Street Resurfacing) with Vacants to Value plans

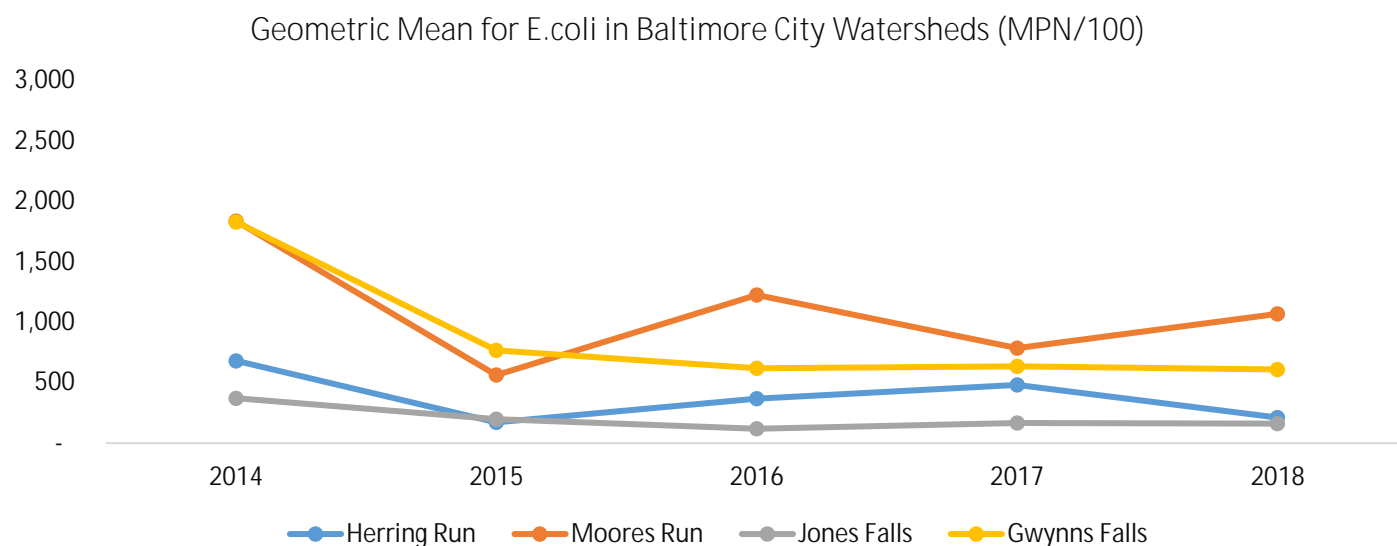

The Fiscal 2020 adopted budget invests in numerous services and programs that will support Blight Elimination:

The City is increasing its demolition efforts with the goal of getting the number of vacant properties under 14,000 for the first time in over a decade. The City will invest over \$50 million to demolish approximately 2000 vacant properties by the end of summer 2020. The \$50 million consists of an investment of both City and State funds.

The Neighborhood Impact Investment Fund will direct \$51.7 million to particularly economically challenged communities. The fund will provide capital for developments in communities that are often deemed too risky for traditional investors. The funding for the NIIF was provided through the sale of City-owned parking garages in 2018.

The Community Catalyst Grants Program supports locally driven community development work. In Fiscal 2020, the program will invest \$5 million in community revitalization efforts that are led by a variety of community-based organizations. The program targets new resources to areas of historic disinvestment in order to create opportunities that attract additional investment dollars.

Indicator: Water Cleanliness

Source: Fiscal 2018 Baltimore City MS4 Annual Report

The Department of Public Works measures fecal bacteria at 23 stations throughout the City. The City is required to meet state and local water quality standards, including bacteriological standards identified under State law as part of the 2002 Consent Decree. Data are divided into four watersheds across the City. When pollutants enter waterways, it is detrimental to the environment and public health. In Fiscal 2017, a new stream impact sampling (SIS) station was added to the Jones Falls Watershed. In order to keep the analysis consistent with past actuals the new station was not included in the graph above.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> Trees and green infrastructure along waterways Proactive sewer maintenance and sewer repairs required through the Consent Decree 	<ul style="list-style-type: none"> Sanitary sewer overflows and leaks from sewer pipes Discharges to the storm water system

The Fiscal 2020 adopted budget invests in numerous services and programs that will support the Cleanliness of City Waterways:

The Department of Recreation and Parks (BCRP) planted 2,002 trees in Fiscal 2018. The target of 1,650 trees planted by city crews – primarily large shade trees along streets – was exceeded. This is due to the escalated efforts of the City’s TreeBaltimore Program to focus on underserved and low-canopy cover neighborhoods, and the Mayoral “INSPIRE” program which seeks to ensure safe, pleasant walking routes for our schoolchildren. In Fiscal 2019, and projected into Fiscal 2020, Rec and Parks will continue to match or exceed the Fiscal 2018 total of 2,002 by planting additional trees in targeted neighborhoods.

In addition to the operating funds outlined above, the Fiscal 2020 Capital Budget allocates a significant amount of funds toward water cleanliness. The budget allocates over \$260 million toward utility (wastewater, water, and stormwater) and revenue bond capital projects.

Special Exhibit: Community Development Investments

The Department of Housing and Community Development (HCD) released their *Framework for Community Development* in February 2019, which highlights the agency's overall strategy and plan for Baltimore neighborhoods. The Framework revolves around three key strategies; expanding resources and capacity, promoting access and equity, and investing in all neighborhoods. Significant new resources have been devoted to implementing the strategy. Below is a sample of the funding opportunities and projects supported in the Fiscal 2020 budget.

Choice Neighborhood Initiative

The Perkins Somerset Old Town Transformation Plan will redevelop the 629 Perkins Homes, provide parks and streetscape improvements, and redevelop the mostly vacant Old Town Mall. The project will bring an estimated \$800 million in total investment over ten years with the affordable housing components completed in six. The Plan is supported by a \$30 million grant awarded to the Housing Authority of Baltimore City, with the City of Baltimore as co-awardee, from the U.S. Department of Housing and Urban Development Choice Neighborhoods Initiative. DHCD is sponsoring the TIF (Tax Increment Financing) to subsidize the redevelopment, infrastructure, and other community-improvement projects.

Community Catalyst Grants

Community Catalyst Grants (CCG) are a new initiative to support community-based revitalization efforts. CCG supports established organizations as well as emerging organizations in disinvested areas that have not routinely received public operating support. The grants will support a range of mixed-use projects, affordable and mixed-income housing, economic and business development and other community driven-efforts. The Fiscal 2020 plan includes a total appropriation of \$5 million; \$3 million will support community-driven capital projects and \$2 million will support community-based organizations' operating costs.

Neighborhood Impact Investment Fund

The Neighborhood Impact Investment Fund (NIIF) is a public-private targeted investment fund designed to deliver capital for community development and neighborhood revitalization in disinvested areas that have been designated by the City. NIIF investments are intended to leverage outside capital at the project level while generating returns that will be reinvested over time. In December 2018, NIIF was capitalized with an initial investment of \$51.7 million from the City generated through the long-term lease of City-owned parking garages. NIIF will begin investing in 2019 and is working to generate and attract additional capital of \$20-30 million above the City's investment.

Affordable Housing Trust Fund

In 2016, Baltimore City voters approved a charter amendment establishing the Affordable Housing Trust Fund (AHTF). The Fund supports construction and maintenance of housing for households below 50 percent of the Area Median Income (roughly \$45,500 for a family of four), with half of the funds supporting households below 30 percent of the Area Median Income (roughly \$28,000). City Council Bill 18-0221 established a new "yield tax" on real estate sales that exceed \$1 million. This law is projected to generate \$13 million for the AHTF.

Project CORE and Demolition

Project CORE began in January 2016 when the Department of Housing and Community Development entered into a four-year partnership with the Maryland Department of Housing and Community Development and the Maryland Stadium Authority. Through the demolition and stabilization of thousands of vacant buildings, Project CORE is a catalyst for redevelopment and reinvestment in Baltimore. Through this initiative, the State allocated an initial \$75 million over four years, with the City contributing \$18.5 million. For Fiscal 2020, the State has committed another \$18.75 million.

Economic Development & Jobs

Key results funded in the Fiscal 2020 Adopted Budget:

- The Convention Center expects over 500,000 attendees from 136 scheduled events in Fiscal 2020. The Convention Center's conversion rate of leads to business exceeds the rates of regional peers, such as Charlotte, Philadelphia, Pittsburgh, and D.C.
- The second phase of a study examining a Convention Center upgrade has begun, specifically looking at preliminary design, cost estimates, and finance modeling. It is expected to be completed in Spring 2019.
- Visit Baltimore expects 26.5 million visitors in Calendar Year 2019. The City's arts and culture institutions, including the Maryland Zoo, Baltimore Museum of Art, Walters Art Gallery, and Baltimore Symphony Orchestra, collectively predict more than 1.1 million attendees.
- The Baltimore Office of Promotion and the Arts (BOPA) aims to generate \$288.4 million of economic impact by promoting events like Light City, Artscape, Preakness, and the Baltimore Book Festival in Fiscal 2020.

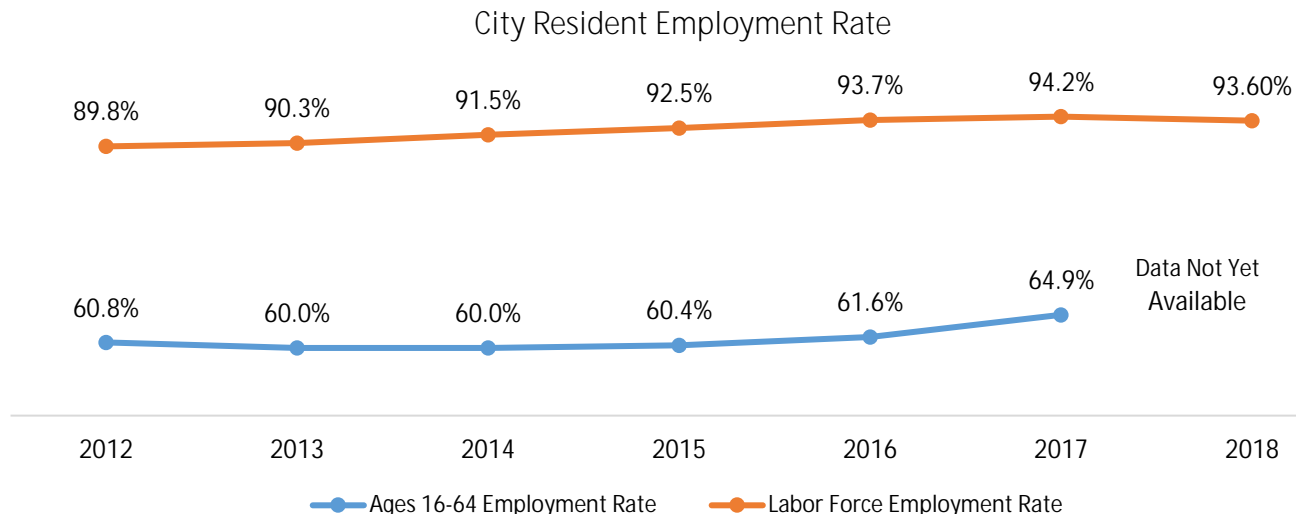

Key budget decisions in Economic Development & Jobs:

- The adopted budget includes the transfer of the WorkBaltimore program from the Department of Human Resources to the Mayor's Office of Employment Development as an effort to better integrate recruitment for City jobs into overall workforce development programming.
- The budget includes \$500,000 to support the Baltimore Symphony Orchestra (BSO), which is an internationally recognized orchestra. The BSO aims to host 325,000 visitors from the City and surrounding areas in Fiscal 2020.
- The budget provides \$14.9 million to Visit Baltimore, or 40% of the hotel room tax under State law. Visit Baltimore promotes positive perceptions of the city as a preferred tourist and convention destination.
- The budget includes an additional \$100,000 in City funds for the Office of Civil Rights' Wage Investigation and Enforcement program for two new contractual investigators. The investigators are responsible for enforcing the minimum, living, and prevailing wage laws, with fines issued to employers who are non-compliant.

Fiscal 2020 Adopted Overview

Fund Name	Fiscal 2019 Adopted	Fiscal 2020 Adopted	Change from 2019	% Change from 2019

State	11,112,170	13,180,331	2,068,161	18.6%
Special	1,341,621	1,743,901	402,280	30.0%
Total	146,090,164	149,782,410	3,692,246	2.5%

Indicator: Employment Rate

Source: U.S. Census Bureau 2016 ACS 5-Year Estimates; U.S. BLS Local Area Unemployment Statistics

The labor force employment rate is the percentage of people in the labor force (i.e. those seeking work) who are employed, or the inverse of the unemployment rate for Baltimore City. The employment rate for ages 16 to 64 shows the percent of people employed out of all working-age city residents, including those who are not seeking work due to school attendance, retirement, discouragement, or other reasons. Labor force employment rate slightly decreased from 2017 to 2018. It is likely the 2018 employment rate for those ages 16-64 data will reflect a similar decrease when the data becomes available.

Positive Factors	Negative Factors
<ul style="list-style-type: none"> • Workforce development collaboration and programming among City, private, and non-profit groups • Expansion of key industries, including the health and technological sectors, within Baltimore City • An increase in the number of small business start-ups and self-employed individuals within the City 	<ul style="list-style-type: none"> • Barriers to employment including mental health issues, racial disparities, and lack of access to childcare and reliable transportation • A weak education system that limits residents' exposure to the skills and training needed to be competitive in the global economy

The Fiscal 2020 adopted budget invests in numerous services to support the Employment Rate indicator:

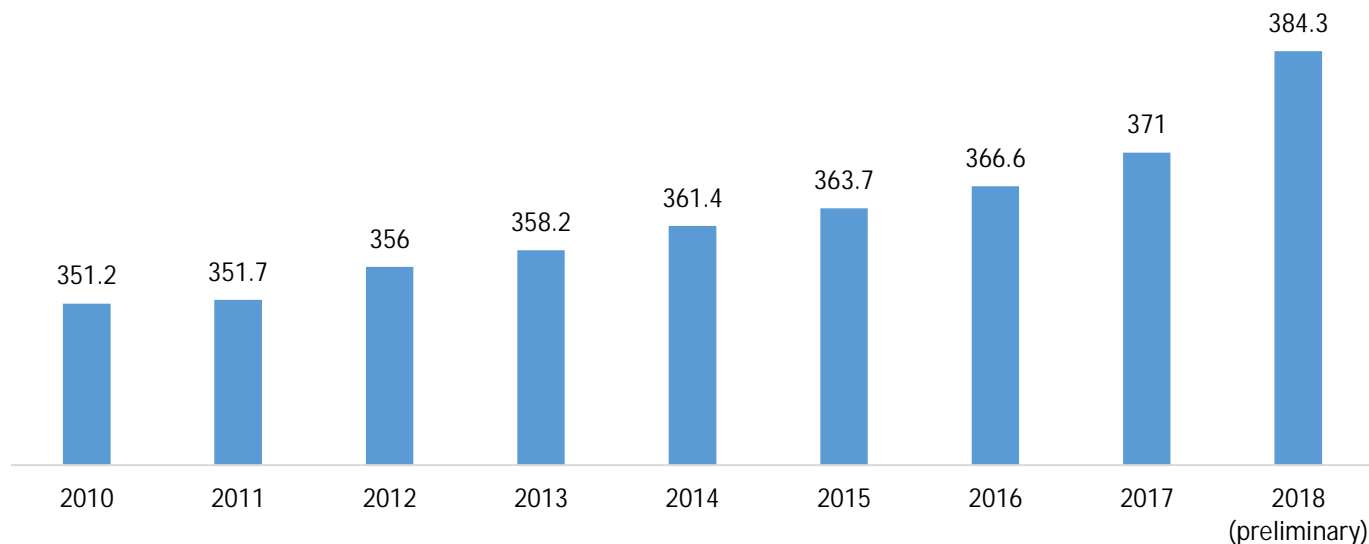

Funding of \$ 7,377,440 (all funds) for five Community Action Centers throughout the City to connect low-income families to programs that promote economic stability, including financial literacy and tax preparation.

Invests \$780,003 of City support for the Minority and Women's Business Opportunity Office, which is responsible for the certification of Minority Business Enterprises (MBEs) and Women Business Enterprises (WBEs) and aids bidders and developers in identifying these firms.

The Mayor's Office of Employment Development (MOED) will serve 30,000 residents and nearly 1,000 businesses through its Career Center network.

Indicator: Jobs in Baltimore

Annual Average of Non-Farm Jobs in Baltimore City
(in Thousands)

Source: U.S. Bureau of Labor Statistics, Current Employment Statistics

Non-farm payrolls, which are captured by the U.S. Bureau of Labor Statistics Current Employment Statistics (CES) dataset, include all public and non-public sector jobs (full-time and part-time) in the City of Baltimore, with the exception of farm workers, household workers, proprietors, armed services, and the self-employed.

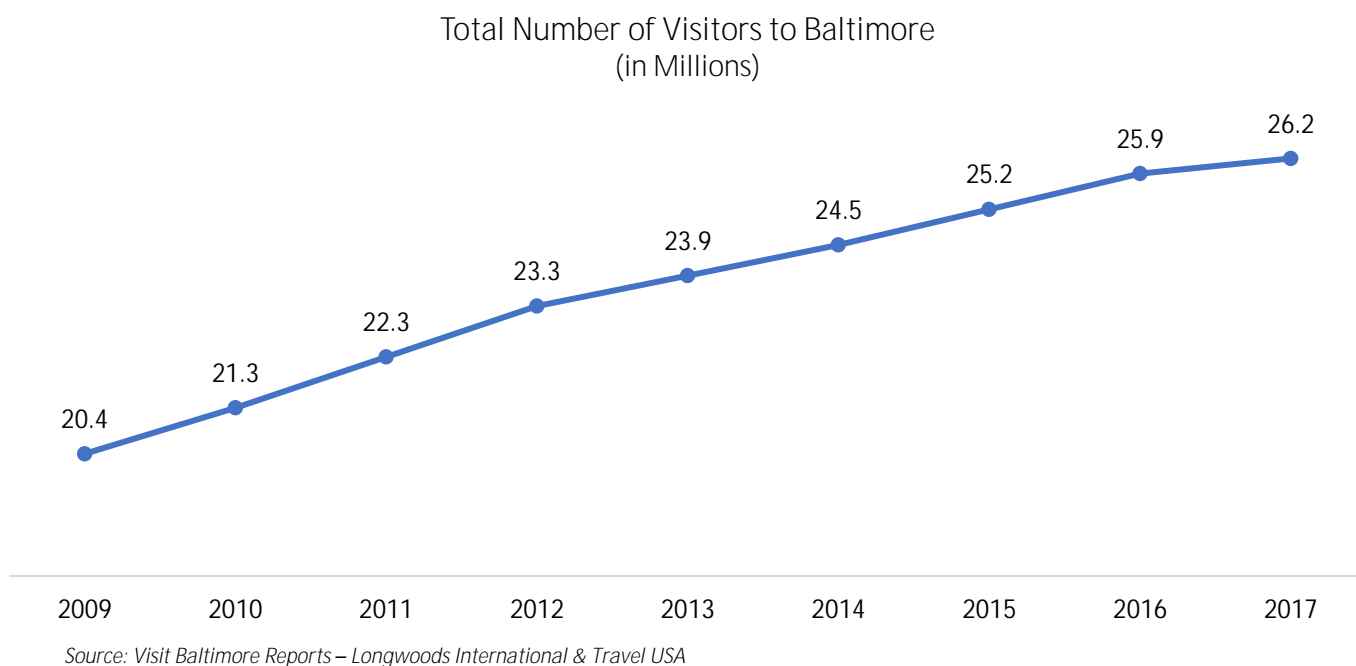

Positive Factors	Negative Factors
<ul style="list-style-type: none"> General improvement in the local economy A metropolitan region with a highly-educated, millennial workforce Increased public and private investment in the region 	<ul style="list-style-type: none"> Barriers to job growth and private development, including both the negative perception of Baltimore and limitations on ease of doing business with the City

The Fiscal 2020 adopted budget invests in numerous services to support the Jobs in Baltimore indicator:

Included is \$2.1 million in City support for the Baltimore Development Corporation (BDC) for the purpose of promoting real estate development and negotiating the sale or lease of City-owned properties and managing urban renewal areas and business parks.

Provides \$2.3 million in City funding for the Liquor Licensing Board, a State agency that regulates stores, restaurants, and entertainment venues which sell alcoholic beverages in the City.

Indicator: Visitors to Baltimore

This dataset comes from Visit Baltimore and includes domestic visitors to Baltimore for leisure and business travel.

Positive Factors	Negative Factors
<ul style="list-style-type: none">Baltimore is conveniently located to many destination events, art and culture institutions, world-class sports teams, and other celebrated tourist attractionsThe City's investment in the Inner Harbor waterfront and Downtown areas	<ul style="list-style-type: none">Limited shopping optionsA negative perception of safety compounded by strained police-community relationsAn aging Convention Center that struggles to compete with larger, newer, east-coast facilities

The Fiscal 2020 adopted budget invests in numerous services and programs that will help to increase visitors to Baltimore:

Funding of \$1.6 million for the Waterfront Partnership and Department of Transportation to manage special events and Inner Harbor services, which are essential for creating an inviting and vibrant downtown core. As the most recognized feature of downtown, the Inner Harbor is a key contributor to Baltimore's economic vitality.

Providing \$500,000 in additional City funds to the Baltimore Office of Promotion and the Arts to engage in a marketing campaign promoting Baltimore as an international destination for arts, culture, and entertainment, as well as promotion for the Preakness. With these additional funds the agency estimates the annual attendance of all events to increase by 700,000 visitors and bring \$300,000 in additional support to local art organizations.

Including \$12.9 million in City funds for the Baltimore Convention Center Complex, which works in conjunction with Visit Baltimore and is a major driver of economic activity for the city.

Accountability & Transparency

Key results funded in the Fiscal 2020 Adopted Budget:

- The City's cable channel, CharmTV, will cover 100% of the scheduled government meetings while dedicating over 7,200 hours to government transparency.
- The Department of Law expects to handle 460 lawsuits regarding Litigation, Labor and Employment, and Land Use.
- The City will continue to build the online, publically accessible archives system. This is completed through a partnership with Baltimore City Archives and Maryland State Archives. 431,885 records have been made publicly available online so far.
- The Department of Planning will prepare for the 2020 Census by concentrating on the most difficult to reach populations. The purpose is to get the most accurate City demographic counts.

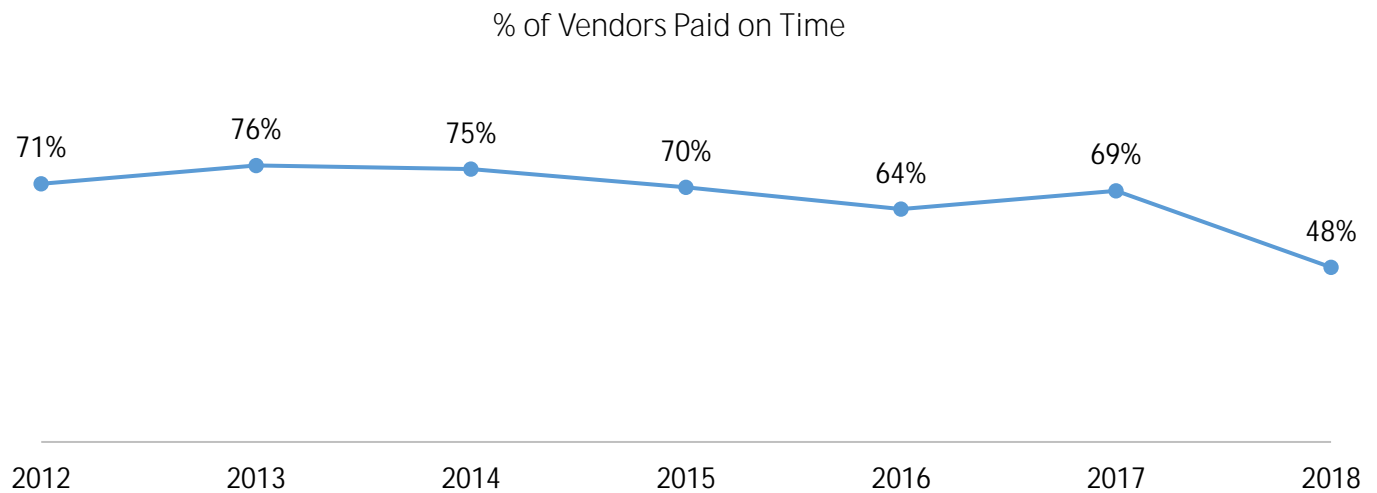

Key budget decisions in Accountability & Transparency:

- The Fiscal 2020 adopted budget invests a total of \$15.7 million in Capital funds to support the City's Information and Technology modernization. This includes replacing aging infrastructure, expanding and creating new City IT capabilities, and starting the first phase of the Enterprise Resource Planning (ERP) project.
- The budget includes \$650,000 in additional funding to support the implementation of an asset management software to improve the Department of Planning's ability to forecast and prioritize capital spending.
- The budget invests \$255,000 to support a building automation system which will allow the Department of General Services to control and monitor heating, ventilation, and air conditioning within their facilities.
- The budget adds \$30,000 to develop a universal, citywide language access telephone program to provide residents with better access to services and programs.
- The budget provides \$177,000 to the Mayor's Office of Immigrant and Multicultural Affairs (MIMA) Safe City initiatives. The additional funding will be used to provide legal representation for and conduct an assessment of foreign-born residents within the City.
- The budget includes \$250,000 to create a Data Fellows program to build a talent pipeline of data analysts to improve everyday operations in the City. Funding supports a program manager and a data fellow within the Mayor's Office of Innovation.

Fiscal 2020 Overview

Fund Name	Fiscal 2019 Adopted	Fiscal 2020 Adopted	Change from 2019	% Change from 2019

Total	176,578,043	193,146,896	16,568,853	9.4%

Indicator: Prompt Vendor Payment

Source: Department of Finance, Accounting and Payroll

The prompt vendor payment rate is the percent of invoices paid within 30 days of receipt. This indicator is a useful measure as the City has an obligation to pay invoices within 30 days. In 2018, there were 124,527 invoices paid, of which 60,183 were paid within 30 days. The overall cycle time in 2018 to pay an invoice was 56 days. This is a 13-day increase in comparison to the overall cycle time of 43 days in 2017.

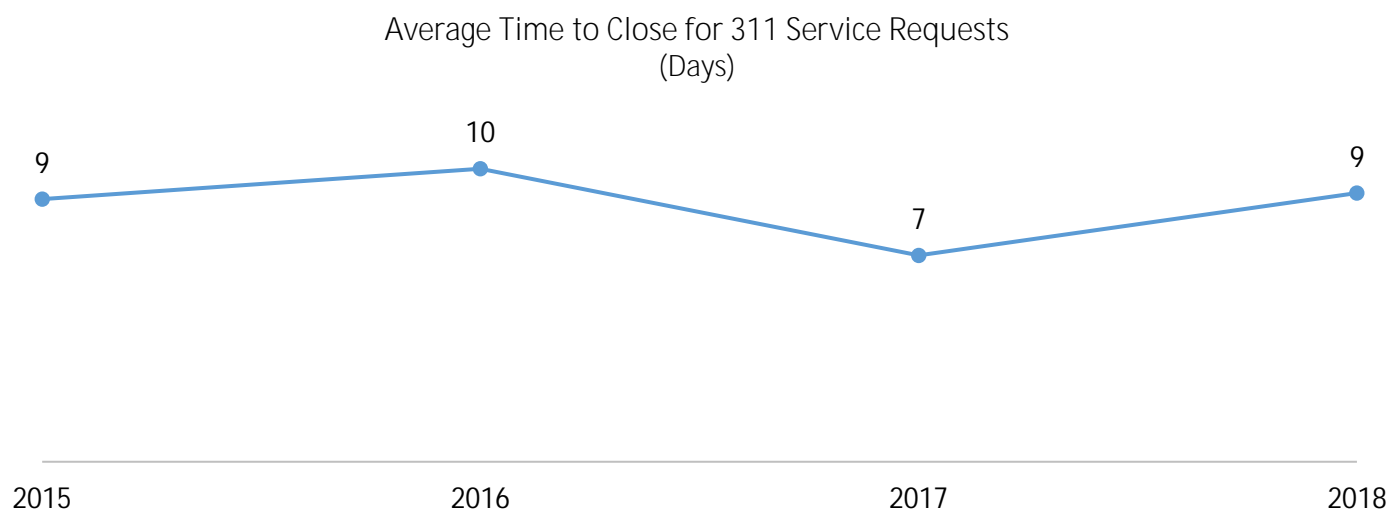

Positive Factors	Negative Factors
<ul style="list-style-type: none">Comfort of City staff and vendors with processes, such as procurement, purchasing, and invoicing	<ul style="list-style-type: none">Strong communication varies between agencies and vendorsVendor filing errorsTechnical and internal errors, such as lost documentation and missing information

The Fiscal 2020 adopted budget invests in numerous services and programs that will support positive movement on the Vendor Payment indicator:

The Procurement service continues to provide training to City staff and vendors on the entire procurement process. In Fiscal 2018, Procurement conducted 217 different training sessions. The Accounts Payable service has also taken the initiative to continue assisting City Staff and City vendors in a variety of ways. For example, Accounts Payable can inform what the processes are for purchase orders and the invoicing system.

The Mayor's Office of Sustainable Solutions (MOSS) has regular meetings on Procurement, Inclusion, and Equity (PIE) to discuss ways to improve paying invoices on time. Through this process, it was identified that the number of late invoices is decreasing since more attention was given to the different challenges to paying invoices on time. One challenge that PIE has focused on specifically is developing efficiencies among City fiscal staff to help eliminate internal problems.

Indicator: 311 Service Request Responsiveness

Source: CitiStatSMART 311 Call Center Data, Open Baltimore

This information is sourced from the Mayor's Office of Sustainable Solutions CitiStatSMART division dataset of 311 Service Requests, pulled from Open Baltimore. This indicator measures how many days it takes the various agencies responding to 311 calls for services to complete the request. This figure includes all categories of 311 requests except traffic studies, which average six months. In 2018, the City took an average of 9 days to close a 311 request. This measure was created in 2015.

Positive Factors	Negative Factors
<ul style="list-style-type: none">Strong communication between agencies	<ul style="list-style-type: none">Variety of processes and policies depending on the request type

The Fiscal 2020 adopted budget invests in services and programs that will support positive movement on the 311 Service Request indicator:

The 311 Call Center is the City's call intake system where citizens can request services, and receive general information. The 311 Call Center is also responsible for the development, implementation, and continuing support of the Customer Service Request System (CitiTrak) which provides universal, standardized, and inter-agency call intake and work order management.

The Fiscal 2020 budget includes \$5.3 million for the 311 Call Center service. The 311 Call Center received over 700,000 calls in Fiscal 2018 and anticipates receiving 890,000 calls in Fiscal 2020. In addition, 91% of the time, the 311 Call Center answers a call within 60 seconds with an average of 26 seconds.

The information gathered by 311 is used by City agencies to access and measure customer responsiveness and satisfaction. Baltimore City Information and Technology (BCIT) has developed both web portal and mobile applications for citizens to create and track service requests. BCIT has also recently finished implementing a new Customer Relationship Management (CRM) system with self-serve options to allow callers to check requests and perform other tasks without the assistance of Call Center agents.

Special Exhibit: Investments in Information and Technology

In Fiscal 2019, Baltimore City Information and Technology (BCIT) developed their Digital Transformation Strategic Plan. Below are samples of projects that are underway including new investments in the Fiscal 2020 budget.

Computer-Aided Dispatch System

In Fiscal 2018, the City invested \$1.9 million in a computer-aided dispatch (CAD) system upgrade. The CAD System is used by Baltimore's public safety agencies to input emergency caller information and dispatch public safety resources. The investment ensures the system being operated 24 hours a day, and 7 days a week.

Dispatch Consoles and Fire House Alerting Upgrades

In Fiscal 2019, the City invested \$5.2 million to upgrade dispatch consoles and the firehouse alerting system. The Fiscal 2020 recommended budget builds on this investment with \$5 million for new radios for the Baltimore Police Department (BPD). These upgrades are replacing the City's 22-year old consoles while also enhancing communication features, system audio quality, and system security.

Baltimore City Information and Technology Capital

The Fiscal 2020 Capital Budget includes \$9.7 million to support the City's Digital Transformation Strategic Plan, which provides a technical framework for reducing redundant costs and improving the public's experience with the City. Projects will focus on replacing infrastructure, expanding current capabilities, and creating and developing new capabilities.

- Replacing aging infrastructure: City-wide switches, storage hardware, network ports, network cabling, and wiring, and uninterrupted power supply upgrades
- Expanding City capabilities: virtual private network, cyber-security system, fiber project, data center fiber divergence, and data center internet upgrades
- Creating and developing new City capabilities: installing a virtual desktop, upgrading software, enabling a cloud hybrid model, upgrading data warehouse capabilities, implementing a disaster recovery plan, and creating a command center

Enterprise Resource Planning (ERP) Project

The Fiscal 2020 budget includes \$6 million in Capital funding to begin Phase 1 of an Enterprise Resource Planning (ERP) project. The ERP software is a suite of applications that manage core business processes, such as human resource management, purchasing, payroll, accounting, and budgets. Currently, the City operates with standalone systems that are nearing the end of their useful life. The ERP will give City decision makers a single source of reliable and instantaneous information that can be compared across City agencies.

Baltimore Police Department (BPD) Capital

The Fiscal 2020 budget includes \$9.8 million in Capital funding to provide IT investments. This Capital funding supports the consent decree IT strategic plan, which includes building block work in policy development, data governance, data integration, and infrastructure. This also includes the first phase of new software development. The Fiscal 2020 budget also includes \$2 million for BPD IT staffing for these projects.

Capital Budget Recommendations

Where the Money Comes From

How the Money is Used

Intentionally Left Blank

Capital Budget Recommendations

The recommendation for the Fiscal 2020 capital program is \$627.5 million, a 7.9% decrease from Fiscal 2019. The Capital Budget can fluctuate considerably from year to year due to project schedules, the timing of borrowing, and the availability of grant funding.

Overview of Capital Projects	\$ in thousands
Fiscal 2020 Appropriated Budget Authority Request	627,464
Total Fiscal 2020 to Fiscal 2025 planned funding	2,871,212

Per Board of Estimates policy, a capital project is a physical betterment or improvement costing more than \$50,000 and any preliminary studies relative to that project. It does not include projects that cost less than \$50,000, vehicular equipment, repairs and maintenance costing less than \$100,000, and salaries for positions that are not part of the cost of the project. The Planning Commission submits a Six-Year Capital Improvement Plan (CIP) to the Board of Estimates, the first year of which becomes the recommended Capital Budget.

Funding for capital programs comes from either current revenues (referred to as “PAYGO”) or from borrowed funds (referred to as “Loans and Bonds”). Bond fund amounts are constrained by the need to ensure that future repayment of debt service can be made from the City’s operating budget. The City must also ensure that outstanding debt meets reasonable benchmarks and does not put an undue financial burden on future generations. Every five years, the City partners with an external expert who evaluates the City’s debt burden and makes recommendations on appropriate annual borrowing levels.

As in many older cities, Baltimore’s aging infrastructure often leads to higher costs for the City, either through emergency repairs, maintenance needs, or energy inefficiency. In addition, many City assets and buildings were built decades ago and might not best meet current City needs. Therefore, Capital Budget planning requires the City to target limited resources to upgrading and maintaining structures and infrastructure to maintain functionality of City assets.

One way of assessing the condition of City assets is the Department of General Service’s Facility Condition Index (FCI) measure. A higher FCI is a strong indicator of the need for either extensive corrective action or replacement. Likewise, in Fiscal 2020 the Department of Planning will begin development of a comprehensive City asset management system, which will house data on a variety of City assets, such as roads, bridges, recreation centers, libraries, and parks. While it is expected to take several years to gather data on all assets and their conditions, such a system will allow the City to make better decisions about investment in its physical infrastructure. It will allow the City to better understand the total funds that would be needed to address infrastructure that is not currently in an acceptable condition, and will help ensure that the City is investing in capital projects with the greatest potential to further progress on City goals.

General Fund

The City’s General Fund supports several fund sources for the Capital Budget, including Pay-As-You-Go (PAYGO) capital, General Obligation Bonds, Highway User Revenues, and County Transportation Revenue Bonds.

PAYGO

Recommendations from the General Fund PAYGO (which includes regular general funds and HUR-eligible general funds) total \$50 million, an increase of \$24.75 million or 98% above the General Fund Fiscal 2019 appropriation level. The increase this year is due to a projected surplus for Fiscal 2020 that allowed the City to invest \$50 million towards addressing important capital needs. Usually, the City operates from a baseline of \$15 million for PAYGO capital projects. The recommendation includes:

- Approximately \$29 million for deferred maintenance on City assets and priority development projects, including \$1 million in maintenance for Fire stations and engines, \$1.35 million for City Hall roof replacements, and \$2.15 million for Reedbird Park Improvements.
- Nearly \$16 million for Information Technology projects, including those required to meet the terms of the Baltimore Police Department's Consent Decree.
- \$5.6 million to supplement HCD's regular demolition budget, which will allow the agency to increase the pace of demolition of vacant and abandoned buildings in the City.

Note: \$14.1 million of General Fund PAYGO funds are HUR eligible; see page xx for further discussion of HUR revenue and eligibility.

General Obligation Bonds

Recommendations for General Obligation Bonds are \$80 million, which is a \$15 million increase in funding. In 2018, voters authorized \$80 million in General Obligation bonds per year for Fiscal 2020 and 2021. The recommendation includes:

- \$19 million for renovation and modernization of schools in Baltimore City.
- \$32.5 million for renovation and modernization of neighborhood amenities, like parks, recreations centers, and libraries; City buildings, like courthouses and fire stations; and Information Technology infrastructure, such as storage capacity, applications, and fiber.
- \$28.5 million for community and economic development and affordable housing projects, including \$5.8 million for whole block demolition, \$1 million for urgent demolition, \$5 million for affordable housing, \$3 million for Community Catalyst Grants, and \$2 million for the Baltimore Homeownership Incentive Program.

Federal and State Funds

Appropriations from federal and State sources (excluding loan funds used by the utility program, described in greater detail below) are recommended at \$70.6 million. The recommendation includes:

- Nearly \$9 million from the State to Baltimore City Recreation and Parks (BCRP) projects, including \$1.04 million for park building and trail improvements, \$1.5 million for the athletic field renovation program, and over \$2 million for small community parks.
- \$2 million in Pimlico Local Impact Aid for the development of a new library in the Park Heights neighborhood
- Over \$12 million in Federal funds for bridge maintenance and upgrades, specifically the Perring Parkway Ramp, Remington Avenue, Russell Street, and Wilkens Avenue bridges.
- A combined \$11.5 million in federal funding for the renovation of City streets, highways, and traffic engineering.

Utility Funds

The water, wastewater, and stormwater programs within the Department of Public Works are fully funded with utility funds, which are the fees paid for water, sewer, and stormwater services. Capital projects within these programs are paid for by a combination of current revenue (utility funds), debt that will be repaid by future utility funds (revenue bonds and State or federal loans), and other sources such as county grants. The recommended funding for the utility programs totals \$373 million. The recommendation includes:

- \$3.75 million for improvements to the Colgate Creek stormwater pumping station.
- Over \$50 million for repairs, replacements, and rehabilitation for the City's sewer interceptors and siphons.
- \$32.4 million for projects upgrade, replace, and rehabilitate critical electrical and control systems, as well as increase efficiency and effectiveness, at the Back River and Patapsco Wastewater Treatment Plants.
- \$165 million for water infrastructure across the City, including funding for water main replacements; water pipe and valve rehabilitation, replacement, and repair; and water filtration plant repairs and upgrades.

Fiscal 2020 Capital Budget Plan

Capital Projects Impact on Operating Budget

Policy

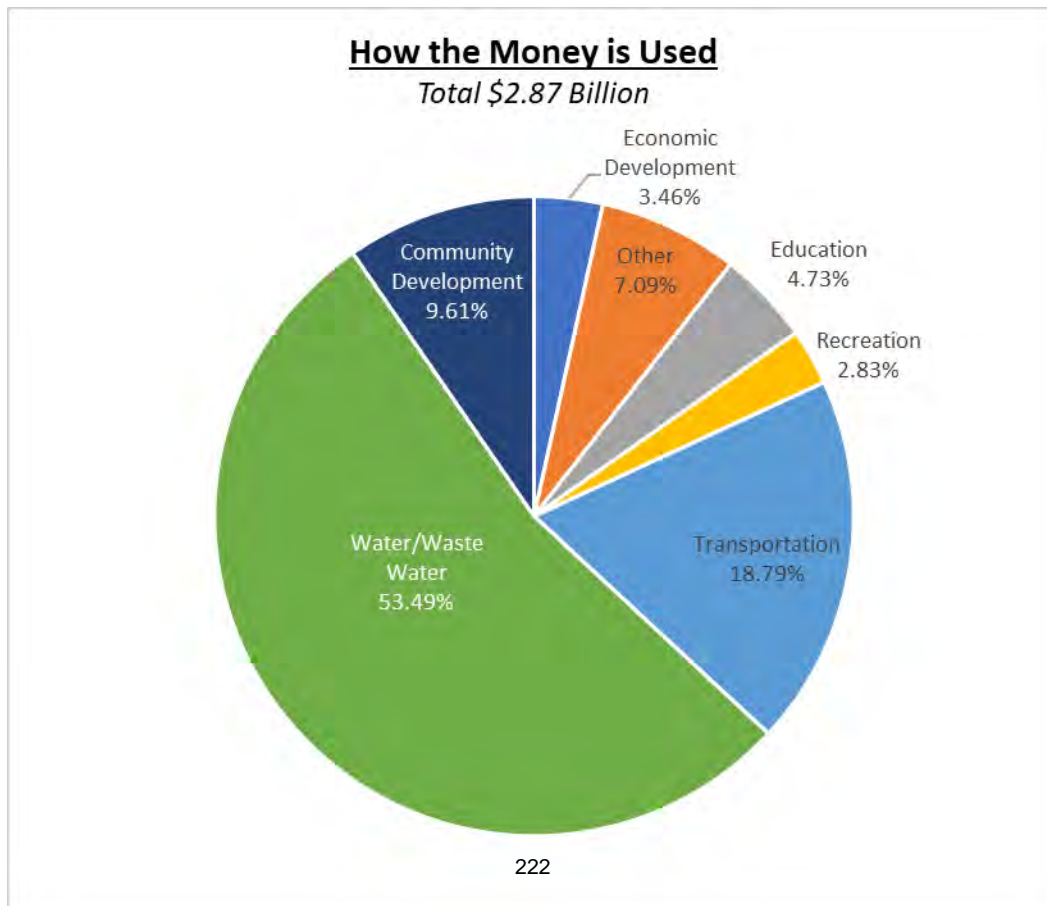

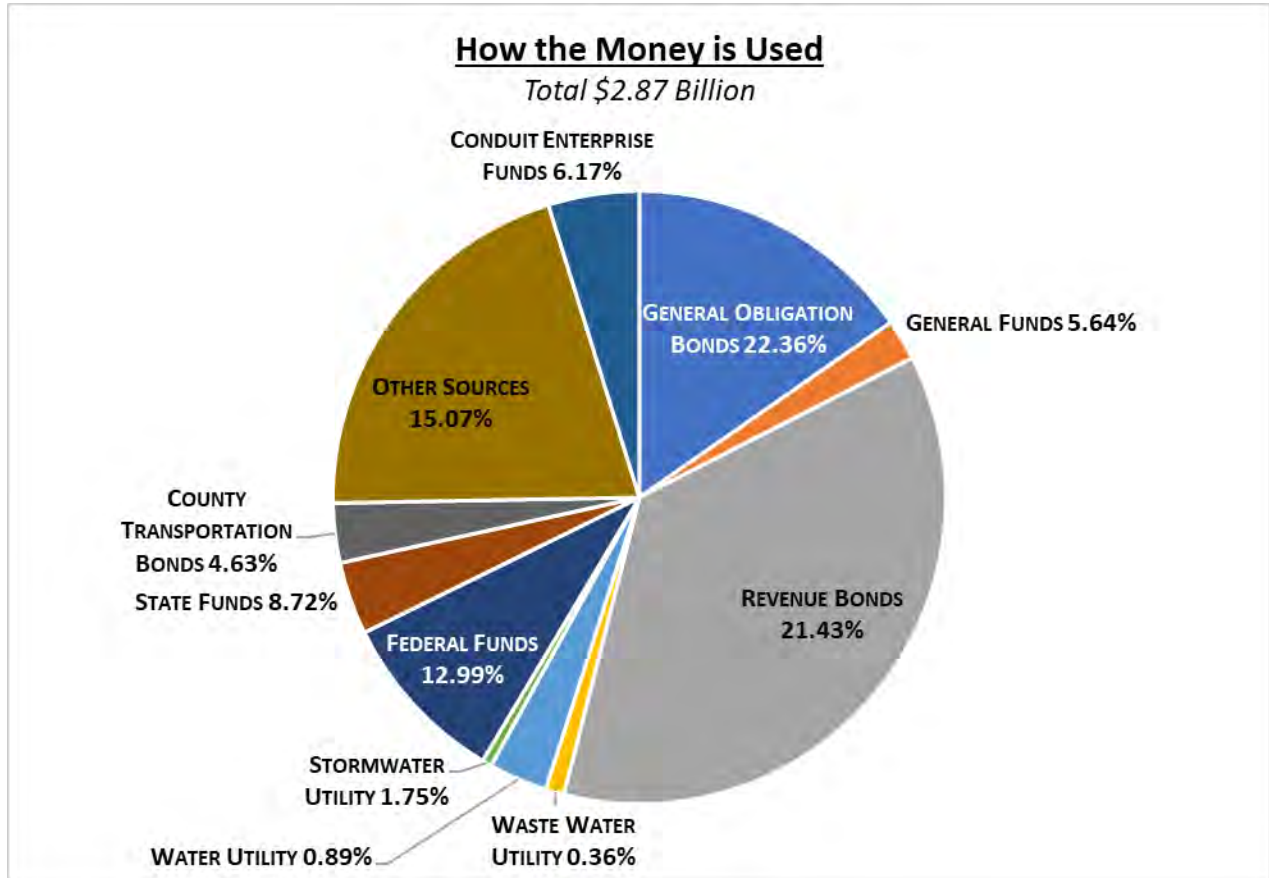

In Fiscal 2004, the capital budget was redesigned to incorporate a set of mandatory operating budget impact fields. Agencies must identify and project reasonably quantifiable revenue and expenditure impacts of capital projects in their first and subsequent years of impact.

Fiscal 2020 Operating Impact of Capital Projects

Most of Baltimore City's capital program focuses on capital infrastructure maintenance and replacement. New facility projects or expansions with operating impacts are limited. For Fiscal 2020, agencies did not report any capital projects that will have a significant impact on the operating budget.

Debt Service pays the interest and principal costs on the bonds issued by the City to build capital projects. For additional information relating to Debt Service, see **page x**.

FISCAL 2020

SUMMARY OF THE ADOPTED BUDGET

Debt Services

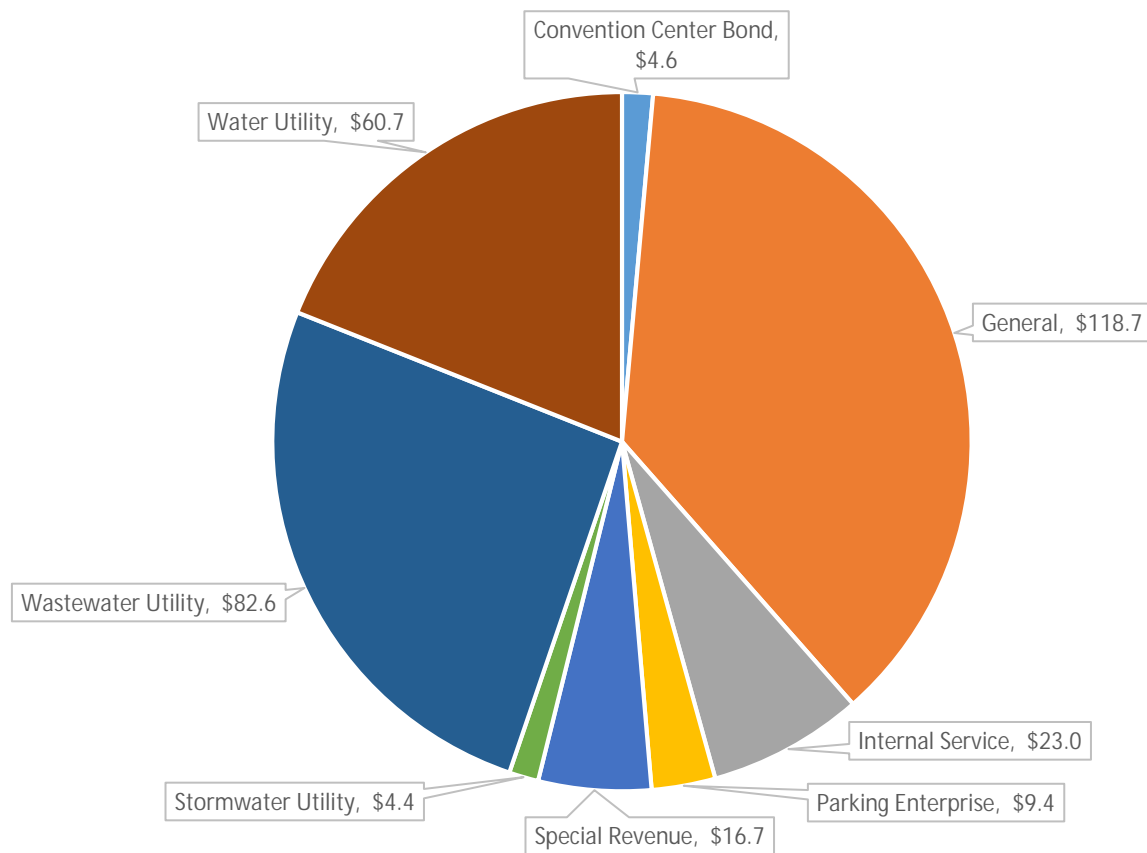

Intentionally Left Blank

Debt Service Overview

Summary

Fiscal 2020 Debt Service by Fund

Total: \$320,192,053

Note: Figures in the chart above are expressed in millions of dollars.

Total Debt Service

2017 Budget	2018 Budget	2019 Budget	2020 Budget
\$343.2M	\$341M	\$316.7M	\$320.2M

After expenses for personnel, contractual services and grants, subsidies and contributions, the single largest type of expenditure made in the City budget plan is for debt service payments. Debt Service pays the interest and principal costs on the bonds issued by the City to build capital projects. In the formulation of the annual budget, the City Council is empowered by the Charter to reduce all appropriations except "such amounts as are for the payment of interest and principal of the municipal debt." Because of this provision the bonds are backed by the "full faith and credit" of the City.

The Fiscal 2020 appropriation for all funds of \$320.2 million is \$3.5 million higher than the Fiscal 2019 level of appropriation.

SELECTED GENERAL OBLIGATION DEBT STATISTICS

At June 30th	Gross Bonded Debt (000s)	Net General Bonded Debt

Debt Management Policy

The amount of debt authorized and issued annually is subject to limits incorporated in the City's debt policy. This policy, adopted by the Board of Estimates on August 22, 1990, sets forth borrowing limits for the Capital Budget process and establishes guidelines for Capital Budget plans. The policy is subject to review every five years or as recommended by the Director of Finance. The current policy limit on annual general obligation borrowing is \$65 million. The City's annual cash borrowing is guided by authorized project requirements.

City policy consolidates most financing arrangements in the Bureau of Treasury Management and recognizes conditional purchase agreements (CPAs) as debt service for the purpose of evaluating the City's financial condition and budget planning. The policy also calls for scheduling debt service payments to minimize fluctuations in annual budgetary requirements and increased utilization of pay-as-you-go (PAYGO) financing to reduce borrowing requirements.

In Fiscal 1992 and 1993, the Maryland General Assembly enacted legislation and City voters ratified local legislation permitting the City to issue General Obligation Bonds (G.O. Bonds) with call provisions and to refinance debt, thus allowing the City to take advantage of favorable interest rates and achieve debt service expense savings. The City first took advantage of this legal authorization in an April 1992 G.O. Bond sale. Legislation has been enacted and approved by the City voters which will improve debt management by authorizing: (1) the City to negotiate general obligation sales; (2) the Board of Finance to structure debt maturities and interest payment schedules; (3) the Board of Finance to approve fixed, variable or other interest rates on bonds; and (4) the City to issue "mini-bonds" in denominations as small as \$500.

Legal Debt Limits

All General Obligation debt is secured by the full faith and credit of the City. The City has unlimited taxing authority with

respect to property taxes to support general obligation debt service requirements. The City is not constrained by any legal limits on the amount of its G.O. debt, but is guided by prudent limits set forth in local debt policy. In addition to conservative debt management policies, the City is controlled in the amount of debt that may be incurred by the Constitution of Maryland, which requires a three-step procedure for the creation of debt by the City of Baltimore. First there must be an act of the Maryland General Assembly or a resolution of the majority of the City's delegates to the General Assembly. Pursuant to State authorization, the Mayor and City Council must approve an ordinance. Finally, the voters of the City must ratify the debt issuance.

Effects of Existing Debt on Current and Future Operations

Debt service expense and appropriation data is summarized by fund and type of debt at the end of this section. Based on traditional debt ratio evaluation criteria, current debt burdens and those forecasted, the City's debt is within acceptable limits. As a result of the annual debt review by the rating agencies, the City maintains a G.O. bond rating of Aa2 with Moody's Investor Service and AA with Standard & Poor's. These credit ratings reflect the judgment of the rating agencies that the City has strong capacity to pay principal and interest on debt. Debt service requirements, in and of themselves, do not place an unusual burden on the resource base of the City. Selected debt management factors are listed below.

- The City's net G.O. debt is below the 4% industry standard for tax supported debt as percentage of actual taxable value of property (1.02%, 2018).
- In addition, net G.O. debt is below the \$2,250 per capita figure established in the City's debt policy (\$679, 2018).
- The City is not constrained by any legal limits on its debt authorization limit but is guided by prudent limits set forth in local debt policy.
- The City has no overlapping debt and no instance of default.
- The City has unlimited taxing authority with respect to property taxes.

Principal and interest obligations of the Water and Waste Water Utility and Parking Enterprise funds are payable from the earnings of the respective funds. Appropriate ratios of pledged revenues to maximum annual debt service obligations must be and are maintained for the respective funds.

General Debt is made up of G.O. bonds and bond anticipation notes. Conditional purchase agreements or capital lease obligations do not constitute a pledge of the full faith and credit or taxing powers of the City. The agreements are subject to termination if sufficient funds are not appropriated by the City Council. Revenue debt is composed of Water Utility Fund, Waste Water Utility Fund, Parking Facilities, Storm Water, Transportation, and Convention Center revenue financings. Other debt consists of tax increment financing (TIF) and long-term financing with the state and federal government.

The City issued the 2013B bonds to refunded Series 1998A, 2001A, 2003A, 2003B, 2004A, and 2005A. The amortization was structured to pay off the refunded bonds within the same 20-year maturity schedule of the original bonds. The last large payment will occur in FY2022 in the amount of \$21.6M, therefore, the next payment in FY2023 will drop significantly.

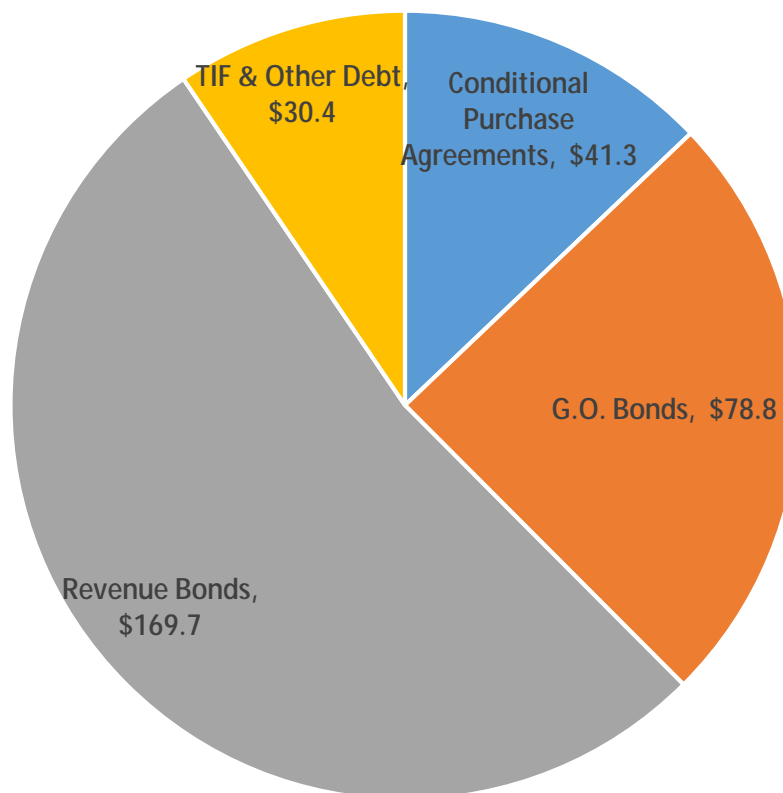

The City does not have a general obligation statutory debt limit, but is subject to a three-step process described in "Legal Debt Limits" above. Outstanding debt per capita and the ratio to assessed value may increase, but still remain below danger point thresholds. Revenue debt service constitutes the largest increase due primarily to continued borrowings for the water and wastewater enterprise funds. A large portion of these borrowings is in response to the City's consent decree between the City, U.S. Environmental Protection Agency and the Maryland Department of the Environment to reduce sanitary sewer overflows during heavy rainfall, water meter upgrades and water infrastructure replacement. Most of this additional debt service will be paid over a 30-year amortization period.

Revenue debt limits are established from time to time by the City Council and are issued in accordance with their respective bond indentures. Increased debt service in the “Other Debt” category is due primarily to Tax Incremental Financings (TIF). The City has a TIF policy in effect that places limits on the types of TIF projects and, among other things, requires the project demonstrate it can pay for City services and is consistent with the City’s economic and development goals.

Fiscal 2020 Debt Service Payments

Fiscal 2020 Debt Service by Loan Type (in Millions)

Total: \$ 320,192,053

General Obligation Debt

2017 Budget	2018 Budget	2019 Budget	2020 Budget
\$92M	\$82.6M	\$77.4M	\$78.8 M

The State Constitution requires that General Obligation debt may not have a term longer than 40 years. In general, the City's debt has a maximum maturity of no more than 20 years. This long-term debt, by law, is supported by the pledge of the full faith and credit of the City and payment is a first requirement for revenues derived from local property taxing powers. The City has no statutory limitation on the property tax levy.

Conditional Purchase Agreements

2017 Budget	2018 Budget	2019 Budget	2020 Budget
\$46.6M	\$43.7M	\$45.1M	\$41.3M

The City has entered into various conditional purchase agreements (CPAs) to construct or purchase facilities and/or to acquire equipment. CPAs are long-term capital leases with annual principal and interest payment schedules that must be met for the City to acquire the asset. CPAs do not constitute a debt of the City within the meaning of any constitutional or statutory limit, nor are they supported by a pledge of the full faith and credit or taxing power of the City. In contrast to General Obligation debt, the City is not obligated to make annual appropriations. In the event the City fails to meet scheduled payments, the agreements are terminated and the City loses the right to use or acquire the financed asset. The City appropriates payments for facilities and equipment which continue to meet the City's public service objectives.

Revenue Bonds

2017 Budget	2018 Budget	2019 Budget	2020 Budget
\$167M	\$174M	\$155.4M	\$169.7M

Revenue bond financing supports the capital requirement needs of enterprise operations, including the Parking Enterprise fund. The revenue generated by the operations is pledged to support debt service payments of these funds. Revenue bonds are not general obligations of the City. In the case of the Parking Enterprise Fund, revenues from parking taxes, parking fines and penalties and other parking revenues provide an additional security for the payment of debt service. Parking revenues in excess of parking debt service and operating expenses are transferred to the general fund.

State Economic Development Loans

2017 Budget	2018 Budget	2019 Budget	2020 Budget
\$0.02M	None	None	None

Under provisions of Subtitle 4 (Maryland Industrial Land Act or MILA) and Title 5 (Maryland Industrial and Commercial Redevelopment Fund or MICRF) of Article 83A of the Annotated Code of Maryland, the City and other subdivisions of the State, may borrow funds for industrial or commercial development projects. The funds may be loaned to private enterprises for the development of specific projects. In the case of MICRF loans, the funds borrowed from the State may also be used to insure or guarantee projects. The State sets the interest rate, term and repayment provisions of the loans. In both cases, the City is liable for repayment of principal and interest amounts on the loans in the event of failure or default of the private enterprise. Such loans are not considered general obligations of the City. The City uses these loan programs as part of its economic development program to stabilize and expand employment and tax base. Payments from businesses utilizing these programs provide General Fund revenue supporting expenses for this borrowing program.

Tax Increment Financing

2017 Budget	2018 Budget	2019 Budget	2020 Budget
\$16.8M	\$16.2M	\$11.1M	\$13.7M

The City is incurring debt service expense for Tax Increment Financing (TIF) Bonds. This widely used financing mechanism has been adopted by the City for certain public improvements within designated districts. Taxes derived from the increased valuation (the tax increment) are used to pay debt service on the bonds used within the district. Local law provides that a supplemental tax within each district is to be levied if the tax increment is not sufficient to cover debt service. The Fiscal 2019 appropriation includes the following TIFs:

Project	Appropriation
Belvedere Square	237,544.00
Clipper Mill	558,000.00
EBDI Phase 2	5,592,056.00
Harbor Point	2,341,587.00
Harborview	570,500.00
Mondawmin Mall	840,512.00
North Locust Point	238,250.00
Poppleton	781,930.00
Strathdale Manor	493,500.00
Unallocated	2,040,000.00
Grand Total	13,693,879.00

Other Debt Service

2017 Budget	2018 Budget	2019 Budget	2019 Budget
\$12.8M	\$16.9M	\$27.6M	\$16.7M

The Fiscal 2019 appropriation includes \$16.5 million for public school construction. The source of funding is the beverage container tax and 10% of the revenue supported through the Casino lease payment.

Debt Service Expenses by Fund, Type

Fund & Type	FY19 Adopted	FY20 Adopted	Sum of \$ - Change vs Adopted
Convention Center Bond	4,562,625.00	4,562,625.00	-
Convention Center Debt Service	4,562,625.00	4,562,625.00	-
General	109,468,446.00	118,737,989.00	9,269,543.00
Conditional Purchase Agreement	15,427,453.00	16,521,880.00	1,094,427.00
Convention Center Hotel	7,554,000.00	7,925,000.00	371,000.00
General Debt Service	72,221,223.00	78,845,808.00	6,624,585.00
TIF Debt Service	12,514,348.00	13,693,879.00	1,179,531.00
Municipal Cans	1,751,422.00	1,751,422.00	-
Internal Service	23,453,380.00	23,020,832.00	(432,548.00)
Conditional Purchase Agreement	1,084,528.00	618,981.00	(465,547.00)
Fleet Financing	21,749,870.00	21,782,870.00	33,000.00
Municipal Telephone Exchange	618,982.00	618,981.00	(1.00)
Parking Enterprise	12,731,071.00	9,442,087.00	(3,288,984.00)
Revenue Bonds	12,731,071.00	9,442,087.00	(3,288,984.00)
Special	16,490,150.00	16,700,000.00	209,850.00
School Construction	16,490,150.00	16,700,000.00	209,850.00
Stormwater Utility	5,677,709.00	4,359,444.00	(1,318,265.00)
Revenue Bonds	5,677,709.00	4,359,444.00	(1,318,265.00)
Wastewater Utility	82,904,485.00	82,637,532.00	(266,953.00)
Revenue Bonds	82,904,485.00	82,637,532.00	(266,953.00)
Water Utility	61,368,602.00	60,731,544.00	(637,058.00)
Revenue Bonds	61,368,602.00	60,731,544.00	(637,058.00)
Grand Total	316,656,468.00	320,192,053.00	3,535,585.00

FISCAL 2020

SUMMARY OF THE ADOPTED BUDGET

Budget Process and
Related Policies

Intentionally Left Blank

Budgetary Authority and Process

Excerpts from the Charter of Baltimore City (2012 Edition) relative to the budget process and Ordinance of Estimates

ARTICLE VI BOARD OF ESTIMATES

1. ESTABLISHMENT AND ORGANIZATION.

(a) *In general.* There shall be a Board of Estimates composed of the Mayor, President of the City Council, Comptroller, City Solicitor, and Director of Public Works, none of whom shall receive any additional salary as members of the Board. The President of the City Council shall be President of the Board, and one of the members shall act as Secretary. The Board may employ such employees as may be necessary to discharge its duties; their number and compensation shall be fixed in the Ordinance of Estimates.

(b) *Meetings.* The first meeting of the Board in every year shall be called by notice from the Mayor or President of the City Council personally served upon members of the Board. Subsequent meetings shall be called as the Board may direct.

(c) *Representatives.* If a member is unable to attend a Board meeting, that member's representative, as designated in the Charter, may attend and exercise the powers of the member. The Mayor may designate a municipal officer or member of the Mayor's personal staff to represent the Mayor and exercise the Mayor's power at Board meetings in the Mayor's absence.

2. POWERS AND DUTIES.

The Board of Estimates shall formulate and execute the fiscal policy of the City to the extent, and in the manner provided for, in the Charter. To exercise its powers and perform its duties, the Board may promulgate rules and regulations and summon before it the heads of departments, bureaus or divisions, municipal officers, and members of commissions and boards.

3. FISCAL YEAR; BUDGET SCHEDULE.

(a) *Fiscal Year.* The fiscal, budget, and accounting year of the City shall begin on the first day of July and end on the thirtieth day of June in every year unless otherwise provided by law.

(b) *Notice and hearing.* At least thirty days prior to the adoption by the Board of Estimates of a proposed Ordinance of Estimates the Board shall make public the Director of Finance's recommended operating budget, the Planning Commission's recommended capital budget and long-range capital improvement program, and the reports of the Director of Finance and Planning Commission on these documents. Thereafter, the Board shall hold public hearings at which members of the City Council, heads of municipal agencies, and citizens shall have the opportunity to appear before the Board to speak for or against the inclusion of any appropriation in the proposed Ordinance of Estimates.

(c) *Submission to Council:* The Board of Estimates shall submit to the City Council the proposed Ordinance of Estimates for the next fiscal year at least forty-five days before the beginning of that fiscal year.

(d) *Adoption by council.* The City Council shall have at least forty days after receipt of the Board's proposed Ordinance of Estimates to enact an Ordinance of Estimates. The City Council shall adopt an Ordinance of Estimates at least five days prior to the beginning of the fiscal year to which it is applicable if the Board of Estimates submits its proposed Ordinance of Estimates within the period prescribed by Section 3(c).

4. ASSISTANCE FROM FINANCE DIRECTOR AND PLANNING COMMISSION.

To assist the Board of Estimates in the preparation of the proposed Ordinance of Estimates:

(a) *Recommendations on agency estimates.* The Director of Finance shall submit for the consideration of the Board a recommended operating budget, which shall include the estimates submitted by the municipal agencies for the next fiscal year, the recommendations of the Director of Finance thereon, and all other estimates for appropriations to be made in the next fiscal year, other than for capital improvements; provided, however, the estimates for the Fire Department shall include such amounts, if any, as may be determined by a final decision of a board of arbitration convened to arbitrate unresolved negotiations between the City and the certified employee organizations representing the fire fighters and fire officers, as prescribed by existing Section 53 of Article VII.

(b) *Recommendations on capital budget, etc.* The Planning Commission shall submit for the consideration of the Board a recommended capital budget, a recommended long-range capital improvement program, and a report on both. The Director and Board of Finance shall review the recommended capital budget and program, and make a report and recommendations about both to the Board of Estimates.

5. PREPARATION OF PROPOSED ORDINANCE OF ESTIMATES.

(a) *Contents.* After receiving the recommendations of the Department of Finance and the Planning Commission, the Board shall prepare its proposed Ordinance of Estimates, which shall consist of:

(1) an operating budget: estimates for the next fiscal year of the appropriations needed for the operation of each municipal agency and for all other purposes, other than for capital improvements. These estimates shall state the amounts needed by every municipal agency for each particular program, purpose, activity, or project and the source of funds, if other than general funds, for each.

(2) a capital budget: estimates of the amounts to be appropriated to each municipal agency for capital improvements in the next fiscal year. The capital budget proposed by the Board also shall include the projects that the Board includes in the first year of its long-range capital improvement program and the source of funds for all capital improvements. However, no capital project shall be included in the capital budget portion of the proposed Ordinance of Estimates submitted by the Board of Estimates to the City Council unless the Board has received and considered the reports and recommendations of the Planning Commission, the Director of Finance, and the Board of Finance with regard to such capital project. The Board of Estimates may establish additional procedures for the development of a long-range capital improvement program and a capital budget.

(b) *Contingent Fund.* The Board may include annually in the proposed Ordinance of Estimates a sum up to one million dollars (\$1,000,000.00) of the general fund appropriations to be used during the next fiscal year as a contingent fund in case of an emergency or necessity for the expenditure of money in excess of or other than the appropriations regularly passed for any municipal agency. At least one week before it approves a contingent fund expenditure, the Board shall report to the City Council the reasons for the expenditure.

6. ADOPTION OF PROPOSED ORDINANCE OF ESTIMATES.

(a) *Adoption, submission, and publication.* After the public notice and hearings prescribed by Section 3(b), the Board shall adopt a proposed Ordinance of Estimates by a majority vote of all the members. The Board shall deliver the proposed Ordinance of Estimates to the President of the City Council and contemporaneously publish a copy of the proposed ordinance in two daily newspapers in Baltimore City.

(b) *Accompanying materials.* The proposed Ordinance of Estimates that the Board submits to the City Council shall be accompanied by the following materials:

(1) a breakdown of the amounts stated for each program, purpose, activity, or project of each municipal agency in the proposed operating budget by standard categories of expenditure, for (a) personal services, (b) materials, supplies, and equipment, (c) debt service, and (d) such other categories as the Board of Estimates may deem advisable. The personal services category shall include the compensation of every officer and salaried employee of the City; provided, however, that the salaries for employees in the same classification who have a uniform salary or salary range may be combined into a single entry, which shall indicate the number of such employees, their aggregate salaries, and the name or title of the classification.

(2) a comparison by standard categories of expenditures of the appropriations contained in the proposed operating budget with (a) the amounts requested by the municipal agencies in their budget submissions (b) the amounts appropriated for the current fiscal year and (c) the amounts expended in the prior fiscal year;

(3) detailed information about the sources of funds to meet the aggregate total of the appropriations contained in the proposed Ordinance of Estimates;

(4) the long-range capital improvement program adopted by the Board and for each capital project included in the capital budget, the following: a brief description and location, the total estimated cost, the appropriations authorized to date, the appropriations proposed for the next fiscal year, the appropriations required thereafter to complete the project, and the estimated additional annual maintenance and operation cost.

(5) a statement setting out:

(a) the revenues which the City can reasonably expect to receive in the next fiscal year from all existing sources of revenue at existing rates other than the full rate property tax but including amounts believed to be collectible from taxes for prior years and including an estimate of the surplus expected at the end of the current fiscal year;

(b) the difference between the revenues expected under (a) above and the total amount of appropriations provided in the proposed Ordinance of Estimates;

(c) the estimated taxable basis for the next ensuing fiscal year for the levy of full rate property taxes;

(d) the rate for the levy of full rate property taxes which, given the revenues expected under (a) above, the total appropriations in the proposed Ordinance of Estimates, and the taxable basis, will be necessary to raise sufficient total revenues to cover total anticipated expenditures;

(e) new sources of revenue or new rates on existing sources of revenue, and the amounts which can reasonably be expected from each of them, which the Board of Estimates believes should be adopted for the next fiscal year; also the rate for the levy of full rate property taxes which, in view of such new sources of revenue or

new rates on existing sources of revenue, will be necessary to bring total expected revenues for the next fiscal year into balance with total anticipated expenditures for the year;

(6) a message from the Mayor explaining the major emphasis and objectives of the City's budget for the next fiscal year;

(7) such other information as the Board of Estimates may deem advisable.

7. ENACTMENT OF ORDINANCE OF ESTIMATES.

(a) *Introduction; authorized cuts.* Upon receipt of the proposed Ordinance of Estimates and the accompanying materials, the President of the City Council shall promptly cause it to be introduced in the City Council, and the Council shall thereafter hold public hearings on the proposed Ordinance of Estimates. By a majority vote of its members, the City Council may reduce or eliminate any of the amounts in the proposed Ordinance of Estimates, except: (1) amounts fixed by law; (2) amounts for the Fire Department established by a Board of Arbitration and included in the proposed Ordinance of Estimates; and (3) amounts for the payment of the interest and principal of the municipal debt.

(b) *Increases and additions precluded.* The City Council shall not have the power to increase the amounts fixed by the Board or to insert any amount for any new purpose in the proposed Ordinance of Estimates. If the carrying out of a particular program, purpose, activity, or project depends upon action by a body other than the City, the City Council may insert a specific provision in the proposed Ordinance of Estimates making the appropriation for the particular program, purpose, activity or project contingent upon such action.

(c) *Revenue ordinances.* As soon as practicable after the passage of the Ordinance of Estimates, the City Council shall enact such revenue ordinances as are necessary to produce sufficient expected revenues, as estimated by the Board of Estimates, to cover the total anticipated expenditures authorized by the Ordinance of Estimates. The Council may adopt revenue sources or revenue rates other than those proposed by the Board and in each such instance the estimate of the revenue to be yielded by such a source or rate shall be made by the Board of Estimates. The Board of Estimates shall, taking into account any reductions and eliminations made by the City Council in the anticipated expenditures contained in the proposed Ordinance of Estimates and the revenues to be derived from all existing sources and from any new sources or new rates enacted by the City Council, certify to the Council the difference between the anticipated expenditures for the next fiscal year contained in the Ordinance of Estimates and all expected revenues other than from the full rate property tax. The Board shall then state a rate for the levy of full rate property taxes sufficient to realize the amount required to meet the said difference and the ordinance making the annual levy of full rate property taxes shall fix a rate not less than that stated by the Board so that it shall not be necessary at any time for the City to create a floating debt to meet any deficiency, and it shall not be lawful for the City to create a floating debt for any such purpose.

8. DEFICIENCIES; SUPPLEMENTARY APPROPRIATIONS.

(a) *Deficiencies.* No temporary loan shall be authorized or made to pay any deficiency arising from a failure to realize sufficient income from all sources to meet the amounts provided in the Ordinance of Estimates, but the City may temporarily borrow money for its use in anticipation of the receipts of taxes levied for any year. In case of any such deficiency the Board of Estimates shall effect reductions (which need not be pro rata) in appropriations other than those for the payment of the principal and interest of the City debt and such amounts as are fixed by law and contained in the Ordinance of Estimates, except to the extent that the City Council shall, upon the recommendation of the Board of Estimates, enact an ordinance which shall supply revenues to meet all or any part of such deficiency. No emergency loan shall be made except in accordance with the provisions of Article XI of the Constitution of Maryland.

(b) *Supplementary appropriations – when authorized.* Except as provided herein, the Ordinance of Estimates

shall include all the moneys to be appropriated by the City for all purposes for the fiscal year for which the ordinance is applicable. Additional appropriations shall be permitted during the fiscal year only in the following circumstances and under the following conditions:

(1) *Excess revenues.* Revenues from any source other than the full rate property tax and other taxes imposed under the authority of Article II, in excess of or in addition to those relied upon by the Board of Estimates in determining the tax levy required to balance the budget, may be made available for expenditure by the municipal agency responsible for the production of such revenues by a supplementary appropriation ordinance recommended to the City Council by the Board of Estimates, duly passed by the City Council by a majority vote of its members and approved by the Mayor.

(2) *Unanticipated grants.* Grants from private or governmental sources which could not be expected with reasonable certainty at the time of the formulation of the proposed Ordinance of Estimates may be made available to the appropriate municipal agency for expenditure by a supplementary appropriation ordinance recommended to the City Council by the Board of Estimates, duly passed by the City Council by a majority vote of its members and approved by the Mayor.

(3) *Material changes; new programs.* Further appropriations for programs included in the proposed Ordinance of Estimates made necessary by a material change in circumstances, or additional appropriations for new programs which could not reasonably be anticipated at the time of the formulation of the proposed Ordinance of Estimates may be made available to the appropriate municipal agency for expenditure by a supplementary appropriation ordinance recommended to the City Council by the Board of Estimates, duly passed by the City Council by a vote of three-fourths of its members and approved by the Mayor.

(c) *Supplementary appropriations – requisites of ordinance.* Every such further or additional appropriation shall be embodied in a separate ordinance limited to a single program, purpose, activity or project therein stated, and each such supplementary appropriation ordinance shall also, anything contained in the Charter to the contrary notwithstanding, provide the revenue necessary to pay the appropriation by a source, other than the full rate property tax, imposed under the authority of Article II. The revenue shall be levied and collected as directed in the ordinance. The estimate of the revenues to be derived from any source proposed in a supplementary appropriation ordinance shall be made by the Board of Estimates.

9. USES OF APPROPRIATIONS.

(a) *In general.* Following the passage of the Ordinance of Estimates and the enactment of the revenue measures necessary to achieve a balance between expected revenues and anticipated expenditures for the next fiscal year, the sums contained in the Ordinance of Estimates shall, after the beginning of the fiscal year to which it is applicable, be and become appropriated for the purposes therein named. No appropriation provided for in the Ordinance of Estimates shall be used for any purpose other than that named in that ordinance, except: (1) the Board of Estimates may increase the amount for a particular program, purpose, activity, or project or introduce an amount for a new program, purpose, activity or project by transferring thereto amounts already appropriated to that agency; and (2) upon the recommendation of the Board of Estimates, the City Council by ordinance may authorize the transfer of an appropriation contained in the Ordinance of Estimates from one municipal agency to another municipal agency; provided, however, that new or different amounts for capital projects from those stated in the capital budget portion of the Ordinance of Estimates shall not be authorized unless the Board of Estimates has received and considered the reports and recommendations thereon of the Planning Commission and the Director of Finance.

(b) *Expenditure schedule.* Upon the authorization of the Board of Estimates and under procedures established by the Board, the Director of Finance shall establish an expenditure schedule, applicable to any or all municipal agencies whenever, in the opinion of the Board, financial conditions warrant such budgetary allotments.

(c) *Carry-overs; lapses.* Appropriations contained in the Ordinance of Estimates for a particular program, purpose, activity, or project may, upon the recommendation of the head of the municipal agency concerned and the Director of Finance, and with the approval of the Board of Estimates, be carried over to fiscal years subsequent to the one for which the appropriation is initially made if necessary to accomplish that program, purpose, activity, or project. Funds encumbered for contracts, projects or other actual commitments and funds dedicated by any act of Congress or by State law or by the terms of any private grant to some specific purpose shall be carried over to the next fiscal year. All appropriations not so carried over shall lapse at the end of the fiscal year from which made, except as provided in paragraph (4) of this subsection. Any balance remaining in the fund of the water, sanitary wastewater, or stormwater utility (under Section 18 of this article) at the end of the fiscal year shall remain to the credit of that utility and an estimate of that balance shall be included in that utility's budget for the next year as an estimated receipt.

(d) *Surpluses.* In case of any surplus arising in any fiscal year by reason of an excess of revenue over the expenditures (including any appropriation carried over) for such year, the surplus shall become a part of the general revenue of the City and shall be available for the general expenditures of the City for the next fiscal year, in accordance with the Ordinance of Estimates for that year. An estimate of the surplus shall be made by the Board of Estimates and included in expected revenues for the next year. However, any surplus or retained earnings of the water, sanitary wastewater, or stormwater utility fund (under Section 18 of this article) at the end of the fiscal year shall remain to the credit of that utility and the estimate of that balance shall be included in that utility's budget for the next year as an estimated receipt.

ARTICLE VII
EXECUTIVE DEPARTMENTS
DEPARTMENT OF FINANCE

5. DEPARTMENT OF FINANCE: ESTABLISHED.

There is a Department of Finance, the head of which shall be the Director of Finance.

6. DEPARTMENT OF FINANCE: DIRECTOR.

(a) *Duties; qualifications.* The Director of Finance shall supervise and direct the Department. The Director shall have substantial experience in financial administration.

(b) *Appointment; term.* The Director shall be appointed, must be confirmed, and shall serve, pursuant to Article IV, Section 6.

(c) *Salary.* The Director's salary shall be set in the Ordinance of Estimates.

7. DEPARTMENT OF FINANCE: DEPUTY DIRECTOR; EMPLOYEES.

(a) *Deputy – appointment.* The Director shall appoint a Deputy Director of Finance pursuant to this section.

(b) *Deputy – as Acting Director.* Whenever a vacancy shall occur in the office of Director, or whenever the Director shall be incapacitated or otherwise unavailable for duty for any cause, the Deputy Director appointed pursuant to this pursuant to this section shall be the Acting Director.

(c) *Other employees.* The Director may appoint such other employees as provided in the Ordinance of Estimates.

8. DEPARTMENT OF FINANCE: BUDGET PREPARATION.

In accordance with rules established by the Board of Estimates, the Department shall prepare the preliminary operating budget for the consideration of the Board of Estimates, shall make reports and recommendations on the capital budget and capital improvement program, and shall otherwise participate in the making of the proposed Ordinance of Estimates.

9. DEPARTMENT OF FINANCE: BUDGET ADMINISTRATION.

Under the direction of the Board of Estimates, the Director shall implement the Ordinance of Estimates. In the interest of economy and efficiency, the Director shall survey the administration and organization of municipal agencies to support the Director's recommendations to the Board of Estimates on the budget requests of the agencies and the Director's reports to the Mayor on measures which might be taken to improve the organization and administration of City government.

Key Budgetary and Financial Policies

The establishment of clear objectives to align budget planning and ongoing agency operations to address the long-term issues and concerns confronting the City fails unless supported by sound fiscal management policies. This section presents major budgetary and financial policies that frame annual budget plan development and implementation. Many supporting policies (payroll, purchasing, retirement, etc.) are not summarized here.

Operating and Capital Budget Policies

Fundamental budget policies are set forth in the City Charter. See Budgetary Authority and Process - City Charter Provisions in the Appendix.

Balanced Budget: The Charter requires a balanced budget. A difference between revenues and total expenditures is to be resolved by adjusting the property tax rate or other revenues.

Public Hearings: The Charter mandates that the Board of Estimates and the City Council conduct public hearings on the proposed budget.

Timely Adoption: The Charter schedule requires budget adoption no later than five days before the fiscal year begins.

Budget Amendment: The Charter provides means for adopting supplemental appropriations funded from unanticipated revenues and/or new grants and sources that materialize during the year (except for property tax). The City's policy is to minimize the use of supplemental appropriations. In addition, the Charter allows for and spells out the procedures for amending the budget to transfer appropriations between programs within an agency and between agencies.

Budget Monitoring and Execution: Budget analysts maintain ongoing contact with agency fiscal officers in the process of implementation and execution of the budget. Expenditure and revenue projections are developed and reviewed on a monthly basis. The Mayor, through the Finance Department, exercises appropriate fiscal management to adjust budget policy as necessary to live within the limits of the current adopted plan. The City Council reviews budget performance at mid-year, during the budget development period in the fourth quarter and during the normal course of hearings on supplemental appropriations.

Long-Range Capital Plan: The Charter requires a long-range capital improvement plan, which is updated every year. The plan is prepared in conformance with basic capital budgeting policies, which include appropriating funds in the year in which projects are likely to begin, financing a portion of capital improvements from current revenues and estimating the impact of capital projects on the operating budget. See Capital Plan in the Operating and Capital Plan Budgetary Control section for more information on Capital Budget policies.

Financial Forecasting Policies

The City maintains a ten-year revenue and expenditure forecast for the General Fund. The multi-year forecast provides the basis for establishing budget targets and resource allocation to meet the Mayor's budget priorities.

Reserve Policies

Budget Stabilization Reserve: In 1993, the Budget Stabilization Reserve, or Rainy Day Fund was established. The reserve is designed to provide budgetary flexibility should material funding shortfalls or unanticipated expenses occur. The reserve may not be used to supplement a planning year budget, and funds drawn from the reserve must be replenished within

five fiscal years. The Budget Stabilization Reserve had a \$118 million balance at June 30, 2016, representing about 6.5% of the General Fund. The City continues to make annual contributions to the Budget Stabilization Reserve Fund. The Fiscal 2019 budget includes an additional \$3.4 million for the fund.

Unassigned Fund Balance: In 2010, Baltimore voters approved a Charter amendment that eliminated a provision limiting the size of the unassigned portion of the General Fund balance to 1% of budgeted revenues. This restriction had placed the City in a relatively poor position compared to other large cities and worked against the City's interest in achieving sound financial practices. The Charter still does permit a \$1 million contingency appropriation and the Fiscal 2017 budget includes the full \$1 million.

Financial Reporting Policies

Budget, Accounting and Borrowing: The City has received the Government Finance Officers Association (GFOA) annual award for Excellence in Financial Reporting for over 24 years and the Distinguished Budget Presentation award each year applied for since Fiscal 1988. The Comprehensive Annual Financial Report (CAFR) is prepared in conformance with the Governmental Accounting Standards Board requirements. The City annually prepares the required full disclosure statements to comply with Securities and Exchange Commission requirements, provides fully descriptive notes in its annual financial report and disclosure statements, and secures an unqualified independent audit report.

Debt Policies and Credit Rating

In 1990, the City adopted a formal debt policy which sets forth annual borrowing limits, consolidation of all financing arrangements within the Department of Finance, refunding and refinancing policies, and limits on key debt management ratios. See the Debt Service Overview section for detailed discussion. In the development of the annual borrowing plan, the effects of debt on key ratios outlined in the policy are updated and analyzed. The objective is to maintain the City's reputation in the credit rating community as having a conservative approach to all aspects of debt management including debt service expenses, debt retirement schedules and debt capacity ratios. The policy recognizes the fundamental role that debt has in the effort to maintain or improve the City's credit rating. The City maintains a General Obligation (G.O.) bond rating of 'Aa2' from Moody's Investors Service and 'AA' from Standard & Poor's. In May 2007, both of these ratings were upgraded from 'A1' and 'A+', respectively, after 40 years of being at the same rating, reducing the City's borrowing costs and saving the City money. In 2014, Standard & Poor's upgraded the City's bond rating from 'AA-' to 'AA', citing strong fiscal management. The City prepares an annual debt report, semi-annual multi-year debt service projections, and a periodic debt affordability analysis.

Investment Policies

The City's investment policy adopted in July 1995 covers investment objectives, types of investments, delegation of authority to invest, internal controls and reporting requirements. The City operates on a pooled cash basis and maintains a tiered portfolio containing a pyramid of investments with a long-term base and short-term top, in order to maximize and stabilize returns. The City has maintained a ratio of current assets to current liabilities greater than 1.0 since 1989 (a ratio of less than 1.0 being considered a fiscal stress warning sign).

Self-Insurance Policies

The City, through its Office of Risk Management, has a comprehensive program of risk exposure identification, evaluation, control and financing. The City is self-insured in the area of casualty and property losses, including the uninsured portion of City buildings and contents, worker's compensation and employers' liability, employees' and retirees' health insurance, third party general liability and automobile liability losses. To the extent possible, the City plans to address concerns about risk management reserves by making additional appropriations and by adjusting agency premiums to help provide adequate funding. The Fiscal 2019 budget includes \$73.5 million of funding for the City's risk management programs.

Fiscal Policies for Economic Development

The Comprehensive Economic Development Strategy plan submitted to the State in 1999 sets forth economic development goals, objectives and priorities. “LIVE, EARN, PLAY, and LEARN,” the comprehensive master plan for the City’s development was adopted in 2006. A primary goal of the economic development plan is to attract more job generating businesses to the City. To that end, the City has developed a variety of development incentives including loans and grants. In the last 13 years the City has expanded the incentives to include tax incentive programs. The budget plan estimates and reports on one type of tax expenditure, property tax credits. The City is committed to performing consistent and thorough analysis of the cost and benefit of its tax incentive programs.

Fiscal Stability Practices

Employee and Retiree Benefits Program Costs: Because total employee compensation costs are the largest share of the City’s expenses, it is absolutely essential that options to control costs of employee benefits be examined. The City has an ongoing joint labor-management Health Insurance Committee. Certain recommendations made by the committee are subject to bargaining processes with employee groups. In addition, the Fiscal 2019 budget includes \$3.9 million in the General Fund to further fund the GASB 45 rule change for Other Post Employee Benefits (OPEB).

Budget Emergencies: The City Charter provides a mechanism for the Finance Department, under guidelines approved by the Board of Estimates, to establish expenditure schedules or strict budgetary allotments when warranted by financial conditions. In addition, the City Charter permits the budget to include up to \$1.0 million in General Fund appropriations as a contingent fund for emergencies.

Budgetary and Accounting Basis

Budgetary Basis

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), except that (a) encumbrances are considered to be expenditures chargeable to appropriations and carried over from year-to-year; (b) no depreciation is budgeted in enterprise funds; (c) investments in supply inventories and assets restricted for self-insurance purposes are not considered to be appropriable; and, (d) revenues accruing to sinking funds are not appropriable. Unencumbered appropriations lapse at the close of the fiscal year unless authorized by the Board of Estimates to be carried forward to the subsequent budget year.

Budgetary Units

Annual appropriations authorized by City Council in the Ordinance of Estimates are by Agency/Operating Department, service (previously called “program”) and fund. Budget presentation is similar but also presents each service by object of expense. The budget provides a myriad of schedules and exhibits that provide summary and detail information from a fund, agency, and service perspective.

- Agencies/Operating Departments represent the major unit of the operating and capital budget plans and are further divided into sub-units or bureaus, and divisions.
- Services represent specific activity areas within an agency, department and/or bureau. Budget presentations of services summarize expenditures by object of expense, service units called activities, and by fund.

Revenues and Expenditures

Revenues are detailed by fund type (General, grant funds including federal, State and private source grants, and Enterprise), and by various revenue categories and sources. Information provided in the revenue detail for funds other than the grant funds includes the prior year actual, the current year budget, current year projection, and the estimate for the budget year under consideration.

Expenditures are summarized by fund source for each agency. Services within the agency are summarized by object of expense, by service units called activities, and by fund sources. Each presentation includes the prior year actual expense, the current year budget, and the budget year request by the agency and the budget year recommendations.

Relationship Between Budgeting and Accounting

The major differences between the budget presentation and GAAP for governmental funds are: (a) encumbrances are recorded as a reservation of fund balance (budget) as opposed to expenditures (GAAP); (b) certain revenues and expenses, (e.g., compensated absences) not recognized for budgetary purposes are accrued (GAAP); (c) self-insurance contributions are recognized as expenditures for budget purposes only. Enterprise Fund differences consist of the following: (a) encumbrances are recorded as an expense of the following accounting period (budget) as opposed to expenditures (GAAP) (b) certain items, e.g., principal expense and capital outlay, are recorded as expenditures for budgetary purposes as opposed to adjustments of the appropriate balance sheet accounts (GAAP); and, (c) depreciation is not recognized for budgetary purposes and recorded as an expense for GAAP.

Fund Structure

General Fund - The General Fund is the general operating fund of the City. It is supported by locally generated revenues and some State Aid. It is used to account for all activities of the City not accounted for in some other fund.

Special Funds - Special Funds are used to account for all funding groups that have legally restricted or dedicated uses. These include federal or State grants, State-shared motor vehicle or highway user revenue and grants from private or other non-governmental sources.

Enterprise Funds - The Enterprise Funds are used to account for operations, including debt service, that are financed and operated as an ongoing concern where costs of providing services are financed or recovered primarily through user charges. Enterprise Funds included in the City budget are Water and Wastewater, Parking Enterprise, Conduit and Loan and Guarantee funds.

Accounting Basis

Organization

The City's accounting system is organized and operated on the basis of funds and account groups, each of which is considered a separate accounting entity. The accounting and financial reporting policies of the City conform to generally accepted accounting principles and standards as promulgated by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants.

General, Debt Service, and Capital Projects

The General, Debt Service and Capital Projects funds are computed on the modified accrual basis of accounting, whereby revenues are recorded when they become both measurable and available to finance expenditures of the current period. Expenditures are recorded when goods and services are received and actual liabilities are incurred and become payable in the current period. Revenues which have been accrued meet tests of materiality and are measurable. They include property taxes collectible within 60 days; locally imposed taxes; state-collected and state-shared taxes; federal, state and other grant and entitlement revenues; and interest earnings. All other revenues are recorded when received.

Enterprise and Internal Service Funds

The accounting basis used for the Enterprise and Internal Service funds is the accrual basis of accounting whereby revenues are recorded at the time they are earned and expenses are recorded when liabilities are incurred.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation, is employed in the General, Special, and Capital Projects funds. Encumbrances are treated as a reservation of fund balance for these funds.

Operating and Capital Plan Budgetary Control

Operating Plan

LEVEL OF CONTROL

Budgetary control is maintained at the service level for each operating fund (and at the project level for each capital project), by the encumbrance of estimated purchase or contract amounts prior to the release of purchase orders to vendors. Purchase orders which result in an overrun of either operating or capital balances are not released until additional appropriations are made available. In addition, the City has established a program of financial vulnerability assessment to provide ongoing review of internal financial controls.

MECHANISMS

The Bureau of the Budget and Management Research: All purchase requisitions are reviewed for justification and approved for funds by an analyst in the Bureau of the Budget and Management Research. The bureau prepares regular revenue and expenditure projections to serve as operating guides for policy makers and budget administrators in support of budget monitoring in order to ensure that budgetary shortfalls are not incurred. All purchase requisitions and all items going before the Board of Estimates for contract awards are reviewed for justification and approved for funds by an analyst in the bureau.

Mayor's Expenditure Control Committee: All personnel matters that require Board of Estimates approval must be submitted to the Expenditure Control Committee for review and recommendation prior to submission to the Board of Estimates.

Space Utilization Committee: All actions affecting the disposition of property through sales, the leasing of City owned real property and City leasing of property owned by third parties, interdepartmental leases, and the declaration of surplus real property are reviewed by the Committee. Recommendations are developed prior to submission to the Board of Estimates for final action to assure optimum return on real estate transactions.

Contingent Fund: This account exists to fund emergency and/or unanticipated expenditures. The City Charter limits the annual contingent appropriation to \$1 million. Prior to approval of expenditures from the fund, the Board of Estimates reports to the City Council the circumstances surrounding the request of the expenditure.

APPROPRIATIONS

The adopted budgetary plan is prepared and appropriated on a service basis by fund. The City's Integrated Financial System tracks by service, activity and object level within fund. Purchase orders which result in an overrun of either operating or capital balances are not released until additional appropriations are made available.

ENCUMBERED FUNDS

Funds encumbered for contracts, purchase orders and capital improvements are carried over to the ensuing fiscal year.

CARRYOVERS

Unencumbered appropriations for a particular service, purpose, activity, or project may, upon the recommendation of the head of the municipal agency concerned and the Director of Finance, and with the approval of the Board of Estimates, be carried over to the subsequent fiscal year if necessary to accomplish that service, purpose, activity, or project. Appropriations which are not carried over lapse at the end of the fiscal year in which appropriated, except for special funds (e.g., State and federal grants, enterprise funds, etc.), the balances of which are automatically carried over.

Capital Plan

DEFINITION

Government accounting standards and the City Charter require that operating revenues and expenses be clearly distinguished from revenues and expenses associated with capital projects (these are the design, development, construction and extraordinary repair and rehabilitation of physical plant and facilities, excluding vehicle acquisitions). The Board of Estimates has defined capital projects as physical betterment or improvements costing more than \$50,000, items of repair, maintenance or emergency nature costing more than \$100,000, and Bureau of Water and Wastewater items of repair, maintenance or emergency nature costing more than \$250,000. Physical improvements are not restricted to buildings, but encompass a wide range of projects including street and highway construction, maintenance and improvement of water and sewer systems, community development programs and playground development. In general, capital facilities are considered to have at least a 15-year useful life. Projects funded in the Capital Budget Plan have been included in the six-year Capital Improvement Plan.

APPROPRIATIONS

A large share of appropriations in the Capital Budget derive from federal grants, State grants, general obligation bonds, revenue bond proceeds and County grants. County grants pay for a prorated share of water and wastewater improvements.

Significant appropriations are derived from the Water Utility and Wastewater Utility funds (these are used to finance the local share of utility improvements), and the proceeds from the sale of surplus City property.

The City embraces a Pay-As-You-Go capital funding policy, which annually finances a portion of capital improvements from current revenues of the General Fund and Water and Wastewater Utility Funds.

MONITORING

The Capital Accounting Section of the Bureau of Accounting and Payroll Services manages an automated system which checks documents and actions creating obligations or charges in capital project accounts against available appropriations. All documents creating shortfalls are returned to agencies for corrective actions. In addition, the Section reviews Board of Estimates actions, extra work orders and other actions to determine impact on project balances. In the field agencies all ongoing capital projects are monitored on a continuous basis by assigned project engineers who are responsible for construction oversight to prevent project delays and overruns, as well as to ensure compliance with project approval procedures and appropriation limits.

Periodic surveys are conducted to assess the physical condition of facilities in the City's inventory. Those facilities in need of improvements are considered in a subsequent Capital Improvement Program along with other City priorities for funding in a future year.

Particular attention is directed in the capital plan to infrastructure rehabilitation, facilities modernization and equipment acquisition.

INTEGRATED FINANCIAL SYSTEM

The Department of Finance has an integrated financial management system, which links capital planning and the accounting function. This system supports the monitoring activity described above. This system allows a careful tracking of authorized charges to the various projects and comparison to detailed project cost estimates. The system also assures the integrity of project payments to consultants and contractors.

COST CONTROL

Value engineering standards and techniques are applied to control costs in the design and project scope development phases, as well as to anticipate and resolve project problems early. The Board of Estimates must approve all costs which would exceed any funding previously approved by the Board for the project.

INTRODUCTORY*

CITY OF BALTIMORE
COUNCIL BILL _____

Introduced by: The Council President

At the request of: The Administration (Department of Finance)

A BILL ENTITLED

AN ORDINANCE concerning

Ordinance of Estimates for the Fiscal Year Ending June 30, 2020

FOR the purpose of providing the appropriations estimated to be needed by each agency of the City of Baltimore for operating programs and capital projects during the Fiscal 2020 year.

By authority of

Article VI - Board of Estimates

Section 3 et seq.

Baltimore City Charter (1996 Edition)

SECTION 1. BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF BALTIMORE, That the following amounts or so much thereof as shall be sufficient are hereby appropriated subject to the provisions hereinafter set forth for the purpose of carrying out the programs included in the operating budget and the projects listed in the capital budget from the amounts estimated to be available in the designated funds during the fiscal year ending June 30, 2020.

SECTION 3. AND BE IT FURTHER ORDAINED, That the amounts set forth in Section 2 above designated deappropriations and enclosed in parentheses shall revert to the surpluses of the respective funds and be available for appropriation by this or subsequent ordinances.

SECTION 4. AND BE IT FURTHER ORDAINED, That:

(a) The City reasonably expects to reimburse the expenditures described in Subsection (b) of this Section with the proceeds of one or more obligations (as such term is used in Treas. Reg. Section 1.150-1(b) to be incurred by the City (or any entity controlled by the City within the meaning of Treas. Reg. Section 1.150-1). The City intends that this Section of this Ordinance of Estimates (as this Ordinance of Estimates may be amended from time to time) shall serve as a declaration of the City's reasonable intention to reimburse expenditures as required by Treas. Reg. Section 1.150-2 and any successor regulation.

(b) The City intends that this declaration will cover all reimbursement of expenditures for capital projects or programs approved in the capital budget contained in this Ordinance of Estimates to the extent that the City has appropriated in this Ordinance of Estimates to pay the cost thereof from one or more obligations to be issued by the City (or any entity controlled by the City within the meaning of Treas. Reg. Section 1.150-1). The term "obligation" (as such term is defined in Treas. Reg. Section 1.150(b) and as used in this Section) includes general obligation bonds and notes, revenue bonds and notes, leases, conditional purchase agreements and other obligations of the City (or any entity controlled by the City within the meaning of Treas. Reg. Section 1.150-1).

(c) The maximum anticipated debt expected to be incurred by the City to reimburse the cost of each capital project or program in this Ordinance of Estimates is the applicable appropriation listed in this Ordinance of Estimates from the proceeds of one or more obligations, as such appropriations may be increased or decreased.

SECTION 5. AND BE IT FURTHER ORDAINED, That the foregoing appropriations in summary consist of:

<u>Fund</u>	<u>Operating</u>	<u>Capital</u>	<u>Total</u>
General	\$ 1,917,250,000	\$ 50,000,000	\$ 1,967,250,000

INTRODUCTORY*

**CITY OF BALTIMORE
COUNCIL BILL _____**

Introduced by: The Council President

At the request of: The Administration (Department of Finance)

A BILL ENTITLED

AN ORDINANCE concerning

Annual Property Tax - Fiscal Year 2020

FOR the purpose of providing a tax for the use of the Mayor and City Council of Baltimore for the period July 1, 2019 through June 30, 2020; providing for estimated billings pursuant to State law; and setting the semiannual payment service charge for that period.

SECTION 1. BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF BALTIMORE, That for the period July 1, 2019 through June 30, 2020, a tax is levied and imposed for the use of the Mayor and City Council of Baltimore on all property in the City of Baltimore (except property exempt by law), as follows:

- (a) except as otherwise specified in item (b) of this section, a tax of \$2.248 is levied and imposed on every \$100 of assessed or assessable value of real property; and
- (b) a tax of \$5.62 is levied and imposed on every \$100 of assessed or assessable value of:
 - (1) personal property; and
 - (2) operating real property described in State Tax-Property Article § 8-109(c).

SECTION 2. AND BE IT FURTHER ORDAINED, That this tax shall be paid and collected in the manner prescribed by law including the provisions of Section 10-210 of the Tax-Property Article of the Annotated Code of the Public General Laws of Maryland.

SECTION 3. AND BE IT FURTHER ORDAINED, That for the period July 1, 2019, through June 30, 2020, the semiannual payment service charges to be imposed under State Tax-Property Article section 10-204.3 is 0.69%.

SECTION 4. AND BE IT FURTHER ORDAINED, That this Ordinance takes effect on the date it is enacted.

* **WARNING:** THIS IS AN UNOFFICIAL, INTRODUCTORY COPY OF THE BILL.
THE OFFICIAL COPY CONSIDERED BY THE CITY COUNCIL IS THE FIRST READER COPY.

APPROVED BY THE BOARD OF ESTIMATES:

DATE

CLERK

Supplemental Appropriations

Expenditures for each adopted annual budget may not legally exceed appropriations at the agency level. Administratively, the Department of Finance has the authority to transfer appropriations between activities within the same program of an agency. The Board of Estimates has the authority to transfer appropriations between programs within the same agency. Only the City Council can authorize the transfer of appropriations between agencies.

The City Charter permits further appropriations for programs included in the original Ordinance of Estimates made necessary by material changes in circumstances, additional appropriations for new programs, or grant awards that could not be reasonably anticipated when formulating the original Ordinance of Estimates. These changes require supplemental appropriation ordinances recommended by the Board of Estimates and ordained by the City Council.

I. The Fiscal 2019 Operating Budget was amended with the following supplementals and/or transfers:

<u>Enactment #</u>	<u>Agency</u>	<u>Amount</u>	<u>Fund</u>	<u>Purpose</u>
Supplementals				
19-231	Office of Information Technology	\$ 5,217,659	General	Action needed to fund dispatch console and fire station alerting upgrades from surplus recordation tax revenue.
19-257	Police	\$ 2,214,357	State	Action needed to fund crime reduction program from new State grant funding.
19-272	Public Works	\$ 1,500,000	General	Action needed to fund increase in recycling contract and additional overtime from surplus income tax.
19-273	Police	\$ 5,000,000	General	Action needed to fund additional overtime from surplus traffic camera revenue.
19-274	Fire	\$ 7,000,000	General	Action needed to fund additional overtime from surplus investment earnings.
19-275	Transportation	\$ 10,000,000	General	Action needed to fund additional overtime and other contingency costs from surplus recordation and transfer tax revenue.
19-288	Office of Information Technology	\$ 10,000,000	Fund Balance	Action needed to fund ransomware response and recovery costs from fund balance.

Total Closeout Cost \$ 40,932,016

ACTIVITY: A subdivision of a program that specifies how the program is performed. Some programs may be accomplished through the performance of only one activity, while other programs may require the performance of two or more activities.

AGENCY: An organization authorized by the Mayor and City Council to operate in the best interest of the public. Each agency is responsible by City Charter for submitting a budget request outlining projected costs of operation for the upcoming fiscal year to the Director of Finance and/or Planning Commission, as applicable.

APPROPRIATION: The legislative authority to spend and obligate a specified amount from a designated fund account for a specific purpose.

ASSESSABLE BASE: The value of all taxable property within the boundaries of the City of Baltimore.

ASSESSED VALUATION: A valuation set upon real estate and other taxable property by the State Department of Assessments and Taxation and utilized by the City of Baltimore as a basis for levying taxes. By State law, all taxable real property must be assessed annually at 100% of market value.

BUDGET: A proposed plan of revenue and expenditure for a given year.

CAPITAL FUND: A set of budget accounts established to plan for specific capital projects financed by revenues received from other City funds, revenue, and general obligation bond borrowing, state, federal, county, private, and other miscellaneous sources.

CAPITAL BUDGET: The appropriations for capital projects, which comprise the first year of the Capital Improvement Program.

CAPITAL IMPROVEMENT PROGRAM: A six-year plan specifying physical improvements recommended by the Planning Commission after reviewing the requests of City agencies.

CAPITAL PROJECT: An improvement to City property, which by policy of the Board of Estimates must meet defined criteria.

CITISTAT: An innovative, accountability tool for measuring performance and monitoring the effective use of public resources by major City agencies, based on the ComStat program pioneered in the New York City Police Department by Jack Maple. Monthly budgetary performance reviews for all major agencies are conducted by the Mayor's CitiStat management team with agency heads being held accountable for expenditure variances and revenue management.

CONDUIT ENTERPRISE FUND: Established to budget for revenue charged to private and public entities renting space in the City owned and operated underground conduit system and for operating and capital expenses for the system.

CONVENTION CENTER BOND FUND: Established in Fiscal 1995 to budget and account for hotel tax revenues to be dedicated to support the payment of principal and interest associated with City indebtedness to finance one-third of the \$150 million cost of the joint City-State expansion of the Baltimore Convention Center.

CURRENT LEVEL OF SERVICES BUDGET: Estimates of the appropriations needed by each municipal agency for the next ensuing fiscal year. These estimates are formulated in order to maintain the same service level for each particular program, purpose, activity, or project included in each agency's budget.

DEBT SERVICE: Principal and interest payments on debt (bonds) incurred by the City.

DEDICATED FUNDS: Includes revenue, which by law, contract, or regulation may be used only to support appropriations for specific purposes.

FISCAL YEAR: The time frame to which the annual budget applies. For the City of Baltimore, this period is from July 1 through June 30.

FUND: A sum of money segregated for specific activities. Use of this money requires adherence to special regulations established for each type of fund. The funds identified within Baltimore City's budget are the Capital Fund, Conduit Enterprise Fund, Convention Center Bond Fund, General Fund, Internal Service Fund, Loan and Guarantee Enterprise Fund, Parking Enterprise Fund, Parking Management Fund, Special Fund, Water Utility Fund, and Waste Water Utility Fund.

FUND ADJUSTMENT: Represents an adjustment made to appropriations for permanent full-time salaries and wages when a budgeted position is funded from more than one fund source, e.g. General and Federal Funds.

FUNDING SOURCE: Income/revenue received which supports an appropriation.

GENERAL FUND: A central fund into which most of the City's tax and unrestricted revenues are budgeted to support basic City operations and pay-as-you-go (PAYGO) capital projects.

GRANT: A contribution made from either the private sector to the City or by one governmental unit to another unit. The contribution is usually made to support a specified program, function, or project.

INDICATOR: A measure that represents a quality of life improvement that the City tracks and is ultimately aiming to improve. The City has 23 measurable Indicators organized within each of the Mayor's seven Priority Outcomes that reflect many of the City's greatest challenges.

INTERNAL SERVICE FUND: Established to budget for the financing of goods and/or services provided by certain City agencies to other City agencies or programs on a cost reimbursement basis.

LOAN AND GUARANTEE ENTERPRISE FUND: Established to budget for the self- supporting program of loans and guarantees administered by the Department of Finance pursuant to policies and procedures approved by the Board of Estimates.

MAJOR GOVERNMENTAL FUNCTION: For purposes of comparison, a group of similar services rendered by various agencies within the City will be segregated together, e.g., Adjudications and Corrections, Economic Development, General Government, Legislative, Public Safety, Social Services, et cetera.

OBJECT OF EXPENDITURE: A group of similar services, commodities, equipment, or personnel costs used to clarify spending within the budget. Objects of expenditure identified within Baltimore City's budget are:

Salaries: Payment to personnel for services rendered to the City including overtime, shift differential, sick leave conversion, full-time, part-time, and contractual personnel costs.

Other Personnel Costs: Payment for benefits provided to City personnel. Included are charges to the City for social security, retirement, health plan, and prescription drug costs.

Contractual Services: Payment for services rendered to the City under contractual arrangements such as rents and telephone service.

Materials and Supplies: Payment for consumable materials and supplies such as custodial supplies and heating fuel.

Equipment: Payment for replacement or procurement of City property other than real property.

Grants, Subsidies and Contributions: Payment in support of various non-profit, private sector activities which will provide health, welfare, educational, cultural, and/or promotional benefits to citizens of Baltimore.

Debt Service: Payments for interest and principal of bonds issued by or on behalf of the City.

Capital Improvements: Payment for the acquisition of real property or improvements made to existing City property.

OPERATING BUDGET: A plan, approved by the Mayor and City Council, for appropriating funds to agencies for operating costs during the fiscal year. This plan establishes legal expenditure limits and will reflect appropriations budgeted according to programs, sources of funding, and costs of program operation other than capital improvements, which are over \$50,000; items of repair, maintenance or emergency nature costing more than \$100,000; or Bureau of Water and Waste Water items of repair, maintenance, or emergency nature costing more than \$250,000.

ORDINANCE OF ESTIMATES: A bill enacted by the City Council, and approved by the Mayor, which gives legal effect to the appropriations included in the annual budget.

OTHER POST EMPLOYMENT BENEFITS (OPEB): The Government Accounting Standards Board (GASB) has instituted an accounting rule which mandates that OPEB benefits be recorded as accrued liabilities in the annual financial statements of governmental entities. Therefore, an annual contribution to a Post Employment Benefits Trust Fund is required.

OUTCOME BUDGETING: A budget process that aligns resources with results that matter most to citizens. It's a budgeting tool that integrates strategic planning, long range financial planning, and performance management.

OUTCOMESTAT: A data-driven decision making tool that aligns resources from all sectors in building and sustaining the best possible quality of life in Baltimore. OutcomeStat aligns strategic planning, program management, and budgeting. It represents a vision for the City that sets meaningful goals and measures its progress.

OVERTIME: Payments to employees eligible for additional compensation for services rendered after a regularly scheduled work period subject to the provisions of negotiated labor contracts and the federal Fair Labor Standards Act.

PARKING ENTERPRISE FUND: Established to budget for operating and debt service expenses for City financed garages substantially supported by revenues derived from operation of these garages.

PARKING MANAGEMENT FUND: Established to budget for the administration of the City's parking garages and lots, parking enforcement activities, and operation of the parking garages and lots financed with General Obligation Bonds.

PAY-AS-YOU-GO (PAYGO): Capital projects funded from current year revenues.

PERFORMANCE MEASURES: Show the results or public benefits of the services provided. The benefits can be in the form of an amount of products or services provided (outputs); reflect the cost per unit of output or outcome (efficiency);

gauge how well a service meets customer expectations (effectiveness); or changes in attitudes, behaviors, knowledge, skills, and conditions as a result of the service (outcome).

POSITIONS: Represents those permanent full and part-time jobs that have a job number assigned.

Permanent Full-Time: Payments to an employee filling a permanent full-time budgeted position for services rendered on a continuing basis.

Permanent Part-Time: Payments to an employee who works less than a full-time schedule on a continuing basis.

PRIORITY OUTCOME: Goals established by the Mayor for improving the quality of life for Baltimore's citizens. The current Priority Outcomes are:

- Education and Youth Engagement
- Public Safety
- Quality of Life
- Economic Development & Jobs
- Accountability & Transparency

REVENUE: Income generated by taxes, fines, penalties, notes, bonds, investment income, property rental, user charges, federal grants, state grants, private grants, county grants, and miscellaneous services.

SALARY AND WAGE DIFFERENTIAL: Added compensation received by certain employees when regularly assigned to night or shift work and to certain employees when required to work under various hazardous conditions.

SALARY AND WAGE SAVINGS: An adjustment made to appropriations resulting from the number of permanent full-time positions which are either vacant, filled by an employee in a lower pay classification, or through employee turnover within the agency.

SERVICE: Replaces program in the budget structure. An activity or set of activities performed by an agency that has: identifiable costs for budgeting purposes; a clear public purpose and measurable objectives; and clear lines of accountability for its performance and fiscal management. Services are the means to achieving desired Outcomes for City residents.

SERVICE CODE: A three digit numeric codes used to identify services or programs within an agency.

SEVERANCE PAY: Payments to permanent full-time and permanent part-time employees for amounts due them for accumulated leave balances to include vacation, personal, sick, et cetera, pursuant to provisions of negotiated labor agreements.

SPECIAL FUND: Established to budget for revenues derived from certain state, federal and private governmental grants, and other revenue sources that are restricted to expenditures for specific purposes.

STIPENDS: Payments to participants in certain grant-funded programs for a specific purpose.

STORMWATER UTILITY FUND: Established to budget for the operating and capital expenses of the City's stormwater management system.

SUB-OBJECT OF EXPENDITURE: A subdivision of an object of expenditure in which groups of similar services or related articles are further delineated into more specific types of expenditures.

SUPPLEMENTARY APPROPRIATIONS: Additional spending authority provided by the City Council and approved by the Mayor derived from revenues from any source, other than the full rate property tax and other taxes, imposed in excess of or in addition to those relied upon by the Board of Estimates in determining the tax levy required to balance the annual Ordinance of Estimates. These appropriations include grants from private or governmental sources which could not be expected with reasonable certainty at the time of the formulation of the proposed Ordinance of Estimates, additional appropriations for programs included in the annual budget made necessary by a material change in circumstances, or new programs which could not be reasonably anticipated at the time of formulation of the Ordinance of Estimates.

All such appropriations must be embodied in a separate ordinance limited to a single program, purpose, activity, or project and provide the revenue necessary to support the appropriation.

TARGET: Targets are the annual numerical benchmarks an agency aims to achieve for a performance measure in a given.

TRANSFERS: Charges or expenditure reimbursements used as follows:

- To reimburse a program for costs which are charged as overhead to special grants.
- To transfer expenditures between funds in order to adjust the amounts derived from various sources for a multi-funded program rather than split each object and subobject of expenditure.
- To reimburse a program for services rendered where the reimbursement is calculated on a fee basis rather than for specific expenditures.

WASTE WATER UTILITY FUND: Established to budget for the operating and capital expenses of the City's sewage facilities.

WATER UTILITY FUND: Established to budget for the operating and capital expenses of the City's water supply system.
